Bingo Game Rules

Valid from March 1, 2024

1. Bingo is the name given to a numbers game consisting of 75-90 numbers, from which a given number of numbers are drawn in each game.

2. Bingo can be played via the website www.danskespil.dk, and in any other way Danske Licens Spil instructs. These rules apply regardless of how the game is established. Participation via www.danskespil.dk requires acceptance of the “Terms and Conditions for Online Gaming.” Information about game types and instructions is on www.danskespil.dk.

3. These rules may be changed or supplemented at any time; the current version is on www.danskespil.dk or from the Customer Center.

4. Only game boards registered in the Danske Spil Group’s central IT system participate. A game sheet applies to the individual game for which it is registered; the game is stated on the electronic receipt (point 24).

5. If the receipt and the central IT system disagree, the central IT system prevails. Redress depends on whether the player knew or should have known the information was incorrect.

The Gambling Authority 6. The Danish Gambling Authority continuously monitors Danske Licens Spil’s administration of Bingo.

The Bingo Game 7. Bingo is played as multi-player Bingo (Variant Bingo, Classic Bingo or 90-ball Bingo), requiring at least 2 players; otherwise deposits are refunded. 8. Numbers/symbols are drawn one at a time, at least 3 seconds apart. 9. Players may continuously manually mark drawn numbers. 10. Players cannot choose the number

composition but can choose from pre-composed boards. 11. The game ends at the first fully marked board. 12. Game cards can be purchased no earlier than 30 minutes before the game starts.

The game board 13. Boards are 5×5/75 numbers, 4×4/80 numbers, or 3×9/90 numbers. 14. Boards are randomly generated and not unique; multiple players may share a board.

Classic Bingo 15. The first player(s) to achieve a specified pattern have Bingo; qualifying patterns are on www.danskespil.dk. 16. Bingo can only be achieved once per board per game.

Variant Bingo 17. Each game has 5 sub-draws: 1 row, then 2 rows, then 3, 4, and finally 5 rows (full board), advancing automatically once achieved. 18. The same player/board can win multiple times per game, but only once per draw. 19. A player has Bingo when first to achieve the specified pattern in a quadrant.

90 Ball Bingo 20. Each game has 3 sub-draws (1 row, 2 rows, 3 rows/full board), advancing automatically. 21. Same-board, once-per-draw win rule applies. 22. First-to-achieve-the-pattern wins; ties split the prize.

Jackpots 23. Classic Bingo may carry jackpot(s) triggered by achieving Bingo within a set number of drawn numbers; if not triggered, it rolls to the next game. Variant/90-ball Bingo may carry jackpots for a “full plate” within a set number of draws, rolling over similarly. Jackpots are rarely closed while active; if Danske Licens Spil closes a jackpot/game, it may transfer or settle the jackpot otherwise, with further information provided. A jackpot process is only interrupted for suspected irregularities or technical problems, pending investigation.

The receipt 24. The game is registered when confirmed; the receipt is available via “My page.” A printout is not proof of ownership — registration in the central IT system is. 25. Players must check the bet details before confirming.

Cancellation 26. Games cannot be cancelled once confirmed.

The draw 27. Numbers are drawn by a random number generator.

Profit calculation 28. Winnings follow the displayed winnings schedule. 29. 0–20% of deposits (depending on game type) fund jackpot(s), with a minimum jackpot guarantee. A pool guarantee may also apply, divided among row winners. Free-ticket redemptions don’t contribute to pools/jackpots. Multiple jackpot/streak winners split the prize equally.

Rounding 30. Winnings are rounded down to the nearest whole krone, after any tax deduction.

Gambling tax 31. Danske Licens Spil settles gaming tax per applicable law; winnings are exempt from income tax.

Payout 32. No interest is added to winnings. 33. Winnings are added to the online gaming account automatically after the game ends; it’s the player’s responsibility to ensure payout.

Payment block 34. Danske Licens Spil may block payment for up to one month (extendable) if there’s an objection or irregularity; if unresolved and no police investigation has begun, payment proceeds.

Force Majeure 35. In case of strike or force majeure, Danske Licens Spil decides whether to proceed or cancel; if cancelled, deposits are refunded.

Obsolescence 36. Claims must be made within 3 years of the draw date, or the prize is forfeited.

Publication 37. Danske Licens Spil may publish a player's alias, near-Bingo status, winnings size, and purchase timing.

Chat 38. Violating chat rules may result in quarantine from Bingo. Chat requires an online gaming account and a screen name (visible to other players, on participant/leaderboard/results lists). Danske Spil records all chat messages (time/date-stamped, with location, screen name, IP) to document rule violations — do not post sensitive personal information. Violations lead to exclusion of varying length; Danske Spil is not responsible for chat content or for technical failures affecting the chat.

General chat guidelines: no harassment; no offensive/vulgar/sexually-harassing language; ALL CAPS counts as shouting/harassment; no flooding (repeated messages); no advertising or commercial linking (non-commercial references as part of a natural sentence are fine); no drug references; no offensive, sexual, advertising- or drug-related aliases.

Currency exchange 39. Settlement and payouts are in Danish kroner only.

Network games 40. Some rooms pit players against other networks; these rules still apply.

Casino Game Rules

Valid from July 3, 2026

1. Casino games are offered by Danske Licens Spil for real money or as free games for fictitious money.
2. Playable via www.danskespil.dk, the download client, mobil.danskespil.dk, and the Android/iOS app; participation requires accepting the Online Gaming Terms.
3. Rules may be changed/supplemented anytime; game-specific rules take precedence over these general rules.
4. Only games registered in the supplier's gaming system count; game history is viewable via "My page."
5. Central IT system data prevails over player-visible history in case of discrepancy.

Quarantine 6. Danske Licens Spil may ban a player from Casino games for: (a) failing to act within a game's time limit (resulting in loss + warning by email/pop-up), or (b) violating chat rules (same guidelines as Bingo chat above).

The Gambling Authority 9. Subject to Danish Gambling Authority oversight.

The casino games 10. Mostly single-player; some are multiplayer with Danske Licens Spil as administrator only. 11. Available across four platforms with varying game offerings; players are responsible for using a platform that satisfies any promotion requirements. 12. Free-play games award only fictitious (non-redeemable) money.

Bonus play-through / irregular gambling 13. Low/zero-margin and hedging bets (e.g. red/black, odd/even, 1-18/19-36) don't count toward bonus play-through requirements. 14. Other irregular patterns include: staking 50%+ of a bonus on one game/hand/round or drastically shifting play patterns to meet release conditions; large wins followed by a 75%+ stake decrease until release conditions are met; bad-faith bonus exploitation; Martingale-style hedging (increasing stakes after losses, decreasing after wins) on low-risk

outcomes. 15. On reasonable suspicion of irregular play, Danske Licens Spil may block withdrawals, withhold bonus-related winnings, and limit maximum bets.

Currency exchange 16. Payouts are in Danish kroner; non-DKK settlement uses the daily rate from www.oanda.com (fixed each morning at 8:00), using the purchase-time rate for conversion back.

Game history 17. Registered in the supplier's system; viewable via "My page" or the client. A printout is not proof of ownership. 18. Players must verify play type (real/fictitious money) and amount before confirming a transfer.

Cancellation 19. Games cannot be cancelled once started.

Unfinished games 20. Interrupted games may be resumed within 90 days; stakes remain "In Play" during that period. 21. Unfinished games are deleted after 90 days with stakes refunded.

Profit calculation 22. See www.danskespil.dk for individual game payout rules.

Gambling tax 23. Per applicable law; winnings exempt from income tax.

Force majeure 24. Danske Licens Spil decides whether to proceed or cancel based on a security assessment; cancelled deposits are refunded.

Obsolescence 25. Claims within 3 years of play, or forfeited.

Publication 26. Danske Licens Spil may publish alias, municipality, winnings size, and play date.

Translations 27. Danish rules/terms prevail over any English discrepancy.

Dantoto Game Rules

Valid from February 9, 2024

Generally 1. Dantoto covers horse/dog totalisator (running-odds) games offered by Danske Licens Spil. 2. Playable via Dantoto terminals, www.danskespil.dk, and mobile; online/mobile play requires accepting the "Terms of online gaming via Blå Konto." Under-18s may not play Dantoto. 3. Game details available from retailers or www.danskespil.dk. 4. Only games registered in the central IT system count; technical-problem closures void all bets with refunds and no liability for lost winnings. Danske Licens Spil isn't liable for retailer errors in payment/receipt handling. 5. Central IT system data prevails over receipt discrepancies.

Game 6. Bets may be pooled jointly across betting companies/countries, following the organiser's rules and host-country racing regulations (see country appendix). Danske Licens Spil may also run its own domestic/international pools. Data/communication outages are treated as if the joint-pool game completed correctly. No interest is added to winnings regardless of an organiser's rules.

The Gambling Authority 7. Subject to Danish Gambling Authority oversight.

Start/Playlists 8. Danske Licens Spil publishes an official start list (with totalisator numbers) on www.danskespil.dk for every race offered. 9. A printed race list may also be produced but is guidance-

only; the online start list always prevails if they conflict. 10. Danske Licens Spil closes betting on a non-starting or misleadingly-listed participant. 11. Bets on closed participants are refunded regardless of when placed (except reserve-horse bet types under point 34).

Submitting games 12. Via Dantoto terminals, www.danskespil.dk, or mobile. 13. Bets must close before official race start; late-accepted bets due to error are cancelled and refunded. 14. Racecourse staff who can influence a race may not bet on days they work that racecourse. Jockeys/riders may not bet on races they ride in; trainers may not bet on races their own horses run in. Horse owners have specific restrictions per bet type (Winner/Place: own horses only; Combination/Trio: only if their horse is picked as winner; Twin/Swinger/Double of the Day/multi-race combos: own horse must be included).

The receipt 15. A printed receipt uniquely identifies the bet; name shown is guidance-only. The receipt is proof of ownership. Online/mobile bets register upon confirmation; a printout is not proof of ownership there — central IT system registration is. 16. Retailer-bet players must check the receipt on receipt; neither party is liable for discrepancies once accepted, nor for misuse from a publicly shared receipt.

Cancellation 17. Retailer bets: cancel immediately, within 5 minutes of printing, at the same terminal (other deadlines may apply per point 34, but always same-day); right lapses if closed for cancellation. The receipt must be surrendered; cancelling voids all bets on it. Online/mobile bets cannot be cancelled once confirmed.

Totalisator result 18. Based on the host country’s official race result. If a race is void with no totalisator result, stakes are refunded (except point 34 bet types). Media result reports are informational only.

Profit calculation 19. Calculated once the totalisator result is announced. A later race-result correction lets Danske Licens Spil stop payouts and recalculate; only the final totalisator result counts, and no re-adjustment occurs after that even on later protests/changed decisions. Already-redeemed but now-incorrect receipts go to manual processing.

Payout 20. Terminal payouts: Danske Licens Spil sets timing; online/mobile winnings post automatically per the online terms. Retailer-payout responsibility rests with the receipt holder. Tiers: (a) under DKK 1,000 — retailer prints a prize slip and pays; (b) DKK 1,000–5,000 — retailer may pay as (a), pay to the linked bank account, or direct the player to self-service payout; (c) over DKK 5,000 — always auto-paid to NemKonto/specified account. Limits may change anytime. Winnings over DKK 1.5 million: DKK 1.5 million paid immediately, balance 30 days after the race. No interest added. Payout only to 18+, with photo ID on request. Self-service payout requires the original receipt. Retailers may demand a receipt for payment given. Copies/photocopies/faxes cannot be used for payout; attempts may be reported to police. A Game ID (personal, required at retailers) enables automatic transfer to NemKonto or a specified account. 21. Danske Licens Spil may suspend payout on suspected incorrect basis (e.g. a point-25 complaint), resuming after investigation/correction. Gaming tax is settled per law; winnings are tax-exempt. 22. Payout to a valid receipt holder releases Danske Licens Spil from further liability.

Blocking 23. Danske Licens Spil may block payout (generally up to 90 days, extendable) on objection or irregularity; unresolved ownership/blocking issues at expiry allow payout to the receipt holder.

Obsolescence 24. Retailer-purchased games: claim within 1 year of settlement (via retailer, or danskespil.dk/sikkertspil.dk for DKK 1,000–5,000; automatic NemKonto for over DKK 5,000); receipt must be

presented within 1 year of race day. Online/mobile games: claim within 3 years regardless of prize size. Missed deadlines forfeit the prize.

Complaints 25. Complaints go to Danske Licens Spil (via web form or kontakt@danskespil.dk), including identity and justification; processed promptly, with a timeline given if unresolved within 14 days. Complaints may also go to the Danish Competition and Consumer Authority's Center for Complaints Resolution (Nævnenes Hus, Toldboden 2, 8800 Viborg / naevneneshus.dk) or the EU ODR portal (ec.europa.eu/odr, using kontakt@danskespil.dk).

Publication 26. Danske Licens Spil may publish winning retailers' name/address/sale-time, or (for online sales) the game's establishment time and the player's municipality.

Game types (repayment percentages in parentheses) 27. **Winner** (80%): predict 1st place; odds = pool ÷ stakes on the winner, rounded down to one decimal; dead heat splits the pool proportionally (min. odds 1.00); no stakes on the winner refunds all. 28. **Place** (80%): predict top-2 (≤6 starters) or top-3 (≥7 starters); fewer than 4 starters refunds; odds calculated per place share; dead-heat and no-stake handling as for Winner. 29. **Comb** (80%): predict 1st & 2nd in exact order; <3 starters refunds; no correct combination rolls the pool to a future Comb game; dead-heat splitting as described. 30. **Twin** (80%): predict 1st & 2nd in any order; <4 starters refunds; same rollover/dead-heat logic. 31. **Swinger** (80%): predict 2 of the top 3, any order; <5 starters refunds; same rollover/dead-heat logic. 32. **Trio** (70%): predict 1st, 2nd & 3rd in exact order; <4 starters refunds; no correct row rolls the pool over; dead-heat handling per multiple positions (detailed proportional-share rules apply for 2-way and 3-way ties). 33. **Quartet** (72%): predict 1st–4th in exact order; <5 starters refunds; same rollover/dead-heat logic extended to 4 tied positions. 34. **Multi-race combinations — V4, V5, V65, V64, V75, V86, Today's Double (DD)**: predict winners across multiple races on the same day/track (sections numbered per game). Reruns/same-day reschedules count; a cancelled/void/unresolved section is decided by the other sections' results (with refund thresholds: >1 cancelled section for V4, ≥3 for V5/V65/V64/V75/V86); double-marked winning rows in a voided section get proportional winning shares. DD: both legs voided refunds; one leg settled pays proportional shares on the settled leg. Bets can be paper coupons or instant bets; row count = product of markings per leg. Reserve horses apply (own choice or organiser order; no refunds in these games when a reserve is used) — reserves are always awarded even on an already-marked selection, potentially creating two ways to win. Dead heats split the pool by total stake on winning rows. Detailed prize-pool splits: V4 single pool; V5 single pool (rolls over if no full-correct row); V65 two pools (6-correct/5-correct, rollover rules apply); V64 three pools (40/20/40% for 6/5/4-correct); V75 three pools (40/20/40% for 7/6/5-correct); V86 three pools (40/20/40% for 8/7/6-correct). System caps: V75/GS75/V86 max 5,000 systems; V64/V65 max 2,000; V4/V5 max 500 (a system count = combinations implied by the chosen stake-per-line). Players may opt to bet only the "top pool" (all-correct pool) in V64/V65/V75/V86, forgoing other pools; a top-pool-only V65 ticket carries 2 winning rows, V64/V75/V86 carry 2.5 — payouts never exceed the top pool's total. DD odds = pool ÷ winning-combination stake, split for dead heats/partial settlement as described. Repayment percentages: V4 75%, V5 65%, V65 65%, V64 65%, V75 65%, V86 65%.

Players experiencing harassment must document it and contact Danske Licens Spil for a quarantine assessment.

The Gambling Authority 10. Subject to Danish Gambling Authority oversight.

Target Hunt (Måljagt) Rules

Valid from June 9, 2026

Generally 1. Målljagt (Target/Goal Hunt) predicts results (goals, cards, corners, touchdowns, etc.) across two or more Danske Licens Spil-selected matches; special per-game rules may appear on the coupon. 2. Applies to both retailer (paper/“Play in store”) and online/mobile play; online play requires accepting the Online Gaming Terms. A personal Game ID is required at retailers, enabling automatic winnings transfer. Rules specific to online play are underlined in the source document. 3. Rules may be changed/supplemented anytime; current version on danskespil.dk. 4. Only combinations registered in the central IT system participate.

Error 5. IT-system data generally prevails; on error, Danske Licens Spil may draw a replacement result (trend draw, point 18). 6. Receipt vs. IT-system discrepancies: IT system prevails; redress depends on whether the player knew/should have known. IT-system errors causing cancellation trigger a full refund. 7. Match info on danskespil.dk/teletext/programbladet.dk/match program is guidance-only, not guaranteed complete/correct. 8. Danske Licens Spil isn’t liable for retailer errors in handling receipts/deposits or other retailer-caused losses.

The game 9. For each match, predict each team’s goal count: 0,1,2,…,8,9+ (first-named team = home team; “goal” may be substituted by another metric per game). 10. A “combination” = one full prediction across all matches; hedging multiple goal-counts per team multiplies combinations. Deposit options set how many times a combination (with hedges) is played. 11. Retailer play uses the official Måljagt coupon (tick-box fields per match). 12. “LynMåljagt” flash-game combinations use statistical likelihood; retailer version gives a 20-combination receipt, online offers multiple combination choices.

The betting slip / receipt 13. Retailer/self-service players must check the coupon before purchase; online players before confirming. 14. Retailer receipts uniquely identify the bet; online games register in the IT system on confirmation, with the receipt shown on-screen and tied to the registered customer. 15. Players must check the receipt for errors on receipt; neither Danske Licens Spil nor the retailer is liable for discrepancies once accepted or for misuse of a shared/published receipt.

Cancellation 16. Retailer cancellation: immediately, within 5 minutes of printing, at the same retailer (lapses if closed/closed-for-cancellation); receipt must be surrendered; cancels all games on it. Online games cannot be cancelled once confirmed.

Decision (settlement) 17. A Target Hunt covers matches starting the same day (local time), unless stated otherwise on the coupon; a postponed/moved match outside that period gets a trend draw. Result = the score when the referee ends the match after regular time (extra time irrelevant unless stated); post-match official corrections don't count. Interruptions/irregularities may trigger a trend draw or use the score at interruption. A cancelled match ("win without match" counts as cancelled) gets a trend draw. Partial-result betting (e.g. 1st half) may be set on the coupon; an interrupted/postponed/cancelled match after the partial result is determined uses that partial result. Any doubt about whether actual or drawn results apply is decided finally by Danske Licens Spil; no claims arise from result changes. 18. Trend draws allocate a replacement result via weighted units reflecting each outcome's likelihood, with all alternative outcomes represented; each Målljagt game affected gets its own separate trend draw (so results can differ across games for the same match).

Profit calculation 19. Total winnings split among combinations with correctly predicted digits. Repayment percentage: 75%. 20. Unclaimed prize pools roll to future pools. 21. Results and prize forecasts published on danskespil.dk.

Gambling tax 22. Per applicable law; winnings tax-exempt.

Payout 23. Winnings rounded down to the nearest whole or half krone. 24. Online winnings post automatically per the Online Gaming Terms. 25. Once entered, winnings register as paid and the receipt is no longer winning-bearing. Tiers: (a) ≤DKK 1,000 — retailer-printed voucher, retailer pays; (b) DKK 1,001–5,000 — retailer may pay as (a), direct to NemKonto, or refer to self-service payout at danskespil.dk/spilid; (c) >DKK 5,000 — automatic NemKonto payout. Winnings of DKK 1.5 million+ pay out 3–4 weeks after the game ends (to avoid complaints). 18+ only, photo ID on request. Copies cannot be used for payout (police reports possible). No obligation to pay on a lost/compromised/altered receipt (attempted alteration may be reported). Payout limits may change anytime. 26. Danske Licens Spil may suspend payout on suspected incorrect basis, resuming after investigation/correction. 27. Payout to a valid receipt + matching Game ID releases Danske Licens Spil from further liability; the receipt becomes invalid after payout. 28–29. Danske Licens Spil may block payment on objection, irregularity, or conduct contrary to these rules or the game's purpose.

Obsolescence 30. 3-year limitation period; claims after that forfeit the prize.

Complaints 31. To Danske Licens Spil, or to the Danish Competition and Consumer Authority's Center for Complaints Resolution / EU ODR portal (as under Dantoto above). A successful complaint never yields more than the ordinary immediate payout would have been.

Publication 32. Retailer sales: Danske Licens Spil may publish the winning retailer's name/address and prize size. Online sales: may publish the winning customer's registered hometown and prize size.

The Gambling Authority 33. Subject to Danish Gambling Authority oversight.

Odds (Oddset) Game Rules

Effective from January 14, 2026

Generally 1. “Oddset” covers Danske Licens Spil’s fixed/pool-odds betting games on sports and non-sports events (“betting matches”). “1” = first-listed team win, “X” = draw, “2” = last-listed team win, regardless of venue. An upper limit on combination size may apply. Bets on the same/dependent outcome in one match can’t combine (except Build Bets); Danske Licens Spil may void such bets if mistakenly allowed. A bet wins if the outcome is correctly predicted; a combination bet needs all legs correct (subject to Take the Money/Build Bets, points 48–62). 2. Applies to retailer and online/mobile/app play; online play requires accepting the Online Gaming Terms. Personal Game ID required at retailers. Underlined provisions apply only online. Special rules apply to Live betting, Take the Money, Build Bets (points 45–62), and to the “World’s Best Football Trip.” Supplementary Oddset Rules and match-specific notes take precedence over these general rules on conflict. 3. Rules may be changed/supplemented anytime. 4. Only bets registered in the central IT system are valid; Danske Licens Spil isn’t liable for retailer handling errors.

Odds 6. Fixed odds are shown at placement and can’t change retroactively (future bets can change). Total odds truncated to 2 decimals. 7. Pool games’ preliminary odds reflect current deposits on each outcome; total odds truncated to 2 decimals.

Error 8. IT-system odds generally prevail; Danske Licens Spil may cancel a bet if the customer knew/should have known displayed odds were wrong. 9. IT-system match info generally prevails; significant errors may void the bet if the customer knew/should have known (minor typos, e.g. in a club name, don’t trigger voiding). 10. Match dates/times etc. are guidance-only, not guaranteed accurate. 11. Receipt errors not caused by IT-system misregistration may void the bet if the customer knew/should have known.

Submitting bets 12. Via connected terminals or online/mobile, or other Danske Licens Spil-designated channels. Deposit amount is marked on the coupon (or electronically online); one amount per coupon; system bets multiply combinations × the chosen amount.

Limits 13. Online: DKK 1 minimum per bet unless stated otherwise; upper limits may be set. Retailer: DKK 10 minimum, DKK 1,000 maximum per bet (larger deposits count as multiple bets). Maximum total winnings per betting slip: DKK 1,500,000.

Betting coupon / receipt 14–16. Coupon must be checked before purchase/confirmation. Receipts uniquely identify retailer bets or register online in the IT system upon confirmation. Players must check for processing errors on receipt; neither party is liable once accepted, nor for misuse of a shared receipt.

Cancellation 17. Retailer cancellation: within 5 minutes of printing, at the same retailer (lapses if closed, match started, or closed for cancellation; Live bets can never be cancelled). Receipt must be surrendered; cancels all bets on it. Online bets cannot be cancelled once confirmed.

Postponed / cancelled / interrupted matches 18. Postponed: for non-sports and tennis, badminton, table tennis, beach volleyball, athletics, cricket, snooker, padel, golf, darts, motorsport, skiing, poker, boxing, MMA, chess — bets stand regardless of delay, voided only if postponed beyond 30 days after the scheduled start. Other sports (e.g. football, handball): voided if not started within 6 hours of scheduled start. 19. Interrupted: same sport list as above — bets stand regardless of when completed, voided only if completion takes beyond 30 days. Other sports: voided if not restarted within 6 hours of interruption. If organisers confirm the score at interruption as final before the void deadline, that result settles bets; otherwise (e.g. an awarded win) undecided bets are voided. 20. Cancelled before start:

all bets voided. 21. Result = score at end of regular time (extra time irrelevant unless stated). 22. Partial-match bets (e.g. 1st-half result) settle on that part's completion regardless of full-match completion.

Dead heat 23. Odds reduce proportionally to the number of tied finishers (e.g. two-way tie halves the odds; examples given for 2-, 3- and 6-way ties with partial position overlap).

Sources 24. Results are based on official sources unless the Supplementary Rules/notes state otherwise; post-completion official corrections don't count.

Danske Licens Spil bet cancellation 25. May cancel bets placed after match start but before closing (excluding Live bets); where a result is determined without full completion (e.g. "win without match"); or where not all outcomes were realistically possible at start (e.g. a non-participating team). 26. Cancelled bets get odds set to 1.00 on all outcomes and refund per the payout rules; within a combination, the voided leg gets odds 1.00 and the rest of the bet stays valid.

Insider knowledge, betting on own matches, match-fixing 27–31. Customers may not bet on matches they participate/officiate/influence in; may not exploit inside information; may not manipulate match outcomes (match-fixing); may not exploit odds errors/delays, run syndicates, launder money, defraud, or otherwise misuse the game. Danske Licens Spil may reject/cancel bets or block payout on suspicion, and may disclose customer/bet details to sports bodies, authorities or integrity partners (e.g. United Lotteries for Integrity in Sports) on justified suspicion.

Rejection of bets 32. Danske Licens Spil may refuse/stop betting on any match/combination, for any retailer(s) or online, at any time.

Profit calculation 33. Winnings = product of each correctly predicted leg's odds × stake.

Gambling tax 34. Per applicable law; winnings tax-exempt.

Payout 35–40. Winnings rounded down to nearest whole/half krone. Online winnings post automatically per the Online Gaming Terms. Retailer payout tiers mirror Target Hunt point 25 (≤1,000 / 1,001–5,000 / >5,000 DKK, same rules on ID, copies, altered receipts, changeable limits). Payout may be suspended on suspected incorrect basis, resuming after correction. Payout to a valid receipt + Game ID releases Danske Licens Spil; the receipt becomes invalid after payout. No interest is ever added, regardless of blocking/delay reason.

Blocking 41. May block payout on objection, irregularity, or conduct contrary to these rules or the game's purpose.

Obsolescence 42. 3-year limitation period; claims after that forfeit the prize.

Complaints 43. To Danske Licens Spil, or the Danish Competition and Consumer Authority's Center for Complaints Resolution / EU ODR portal (as above). A successful complaint never yields more than the ordinary immediate payout would have been.

Publication 44. Retailer sales: winning retailer's name/address/sale-time plus bet details (matches, odds, winnings size) may be published. Online: customer's registered hometown plus the same bet details may be published.

Live betting 45. Bets placed on in-progress events. Odds not continuously updated by mistake may cause Danske Licens Spil to cancel affected bets. 46. Livescore info (teletext, site, app) is guidance-only; no liability for errors/omissions. 47. A Live bet already

decided at registration time is cancelled. Registration delay may cause rejection if betting has since closed or odds changed, unless the customer's app settings accept odds changes.

Take the Money 48–55. Online-only partial/full pre-settlement cash-out at an odds-based offered amount; accepted amounts can't be cancelled; registration delay may cause rejection (original bet then stands) if odds/closure changed meanwhile; erroneous payouts may be reversed if the customer knew/should have known of the error; Danske Licens Spil may accept/reject requests and change/suspend/remove the feature anytime, without liability for technical failures.

Build Bets 56–62. Combine multiple part-bets on one event; these rules take precedence over general/Supplementary rules on conflict. A voided part-bet voids the whole Build Bet; one lost part-bet loses the whole Build Bet. A venue change after odds publication may void the whole Build Bet. Match-day (local time) results/partial-results are final for settlement, regardless of later corrections. Yellow/red cards count only for active players from kickoff to full-time of each half (excluding bench/officials and pre/post-match/half-time cards). Settlement source: optaplayerstats.statsperform.com.

The Gambling Authority 63. Subject to Danish Gambling Authority oversight.

Additional Rules for Oddset (Supplementary Oddset Rules)

Valid from April 29, 2026

Regulates individual sports/events under the general Oddset Rules; a specific rule below prevails over the general rules on conflict.

Football (Soccer) - Settled on the score at completion after regular time plus any extra time, unless stated; bets exclude extra time/penalties unless expressly included. - Non-standard formats: 3×30 min → match bets stand, half bets void; 2×40 min → all bets stand; other formats → all bets void. - Danske Licens Spil may cancel bets for: incorrectly-open markets after a goal/card/penalty already occurred; incorrect/missing red card; incorrect time-recording basis for odds; incorrect-score basis for odds; VAR-driven changes to goal/card/penalty situations; omitted essential team-name details (reserves/age group/women). - Venue: reversed home/away voids the match; away-ground relocation with organiser-confirmed home team stands; any relocation elsewhere stands; neutral-venue listing doesn't affect validity. - Statistical bets (goals, shots, shots on target, woodwork, tackles, passes, offsides, assists, etc.) use optaplayerstats.statsperform.com as source unless stated otherwise. - **VAR:** decided by the time the incident originally occurred (e.g. a goal at 8' later confirmed via VAR is timed at 8'). Danske Licens Spil may reverse an incorrectly-settled bet if a later VAR review changes the referee's original call. Bets placed between the incident and the VAR ruling are voided unless the review didn't change the decision, or changed it without affecting the bet. - **Player bets:** named-player bets void if the player gets no playing time; Yes/No or Over/Under player props (and player-vs-player/player-vs-team bets) require the named player(s) to start, or void. Multi-player total/at-least-one bets require all named players to have played, or void. Own goals never count for named-player scorer/assist bets (skip to the next goal/assist if the relevant one is an own goal). First/Next/Last Goalscorer have detailed own-goal-skip and no-goal-settles-as-lost rules; a scorer not offered as a selection makes that player the winner and all others losers. "Scores

from outside the box” includes direct free kicks from outside, excludes own goals. Transfer bets use squad eligibility on the stated date (loans count). “Player of the Match (Opta Points)” uses Opta’s scoring, dead-heat on ties, void if the player doesn’t play. - **Card bets:** only on-field player cards count (not bench/staff/post-match). Card-interval bets settle by time issued. Counting: yellow=1, red=2, yellow+red=3, two-yellow+red=3 (max 3 per player). Points: yellow=10, red=25, yellow+red=35, two-yellow+red=35 (max 35 per player). Extra time/shootout cards excluded unless stated. Half-time cards to active players count toward the 2nd half. A VAR-awarded card counts; a VAR-withdrawn card doesn’t. - **Corner bets:** regular time only unless stated; an awarded-but-untaken corner doesn’t count; a retake counts once; interval bets settle by time taken. - **Time-interval bets:** minute 1 = 0:00–0:59, minute 2 = 1:00–1:59, etc. (a 20:00 goal falls in the 21st–30th-minute interval, not 11th–20th). Events judged within an interval but completed after it don’t count. Injury-time events count toward the relevant interval. Pre-kickoff/half-time-break/post-match events don’t count. 1st/2nd half bets include stoppage time of that half. - **Team bets:** “Team advances/wins the cup” settles per official organiser decisions regardless of early completion. “Win both halves” requires more goals in each half separately. “Clean sheet” = no goals conceded (an own goal breaks a clean sheet). “Both Teams to Score” credits own goals to the scoring-against team. First/Next/Last team to score credits own goals to the opposing team. “Team vs Team” (tournament progress) settles by furthest advancement, void on equal elimination-round exits, decided by the final/bronze match if both reach it, void if both are disqualified at the same stage. - **Penalty bets:** “Penalty awarded Y/N” excludes a later-overturned (e.g. VAR) penalty. “Penalty scored Y/N” excludes a rebound goal after a save/post. “Named player scores from penalty” excludes rebound goals similarly. Shootout bets use only the shootout result (pre-shootout penalties don’t count); void if no shootout occurs. - **Other markets:** Halftime/Fulltime uses the half-time and full-time positions. Odd/Even Goals uses regular-time goals (0 = even). Handicap bets (e.g. (0-1)/-1) add the virtual lead to the actual score for settlement (worked examples given). Asian Handicap has whole-goal, half-goal, quarter-goal and three-quarter-goal variants with the standard Win/Refund/Lose and split-stake logic (detailed in the general “Handicap” rules above). Extra Time bets cover extra time only, not regular time/shootouts. Season bets use final league position (excluding play-offs); team/team-order bets use the league’s own tiebreak rules, or dead heat if undecided. Top-scorer bets (league or final-round) count only goals in that competition, void if the player featured in zero matches of it, dead-heat on ties (even if the organiser names one official top scorer). Scoring-method bets (free kick/corner, penalty, own goal, header, other shots) follow official-source crediting, with headers requiring the scorer’s last touch to be with the head and own goals excluded from header/shot bets. Woodwork bets exclude shots that go in off the woodwork; “shots on target including woodwork” counts a shot only once even if it qualifies as both.

American Football - Full-time markets include overtime unless stated; half/quarter markets exclude overtime except 2nd-half markets in US competitions. - All games must start on the scheduled date (local stadium time) for bets to stand. - Delays keep markets open until play resumes. - US competitions: postponed/abandoned matches void if not played same-day. Non-US: markets void if postponed beyond 48 hours. - US competitions: matches need 55+ minutes played for action; under that and suspended, bets void unless already determined. Non-US: settled at end of regular time; if abandoned before completion, markets void except already-determined bets. - Amended college-game formats (e.g. 10-min 2nd-half quarters) void bets unless paying out is judged in the customer’s best interest. - Settlement sources: nfl.com, cfl.ca, ncaa.com, arenafootball.com. Incorrect team listings void betting. Half/quarter bets require period completion unless already determined. Venue-change bets on the wrong original listing are void.

Baseball - Regular-season games must be played on the scheduled date/venue for action; otherwise void. - Postseason: suspended games stand through any suspension until officially completed; a pre-start date change voids all bets. - Pre-game money-line action requires 5 innings played (4.5 if home team leads); called/suspended games settle by the last full inning's score unless the home team ties/takes the lead in the bottom half, in which case the score at stoppage counts. 9-inning games need 9 (8.5 if home leads) for run-line/totals action; 7-inning games need 7 (6.5). Specified-inning bets need those innings completed in full unless the home team already leads in the bottom half. - Live bets need the full scheduled length (with the same 8.5/6.5 home-team exceptions) for all-market action; otherwise voided except already-determined bets. - Money Line/Total Runs/Run Line definitions match standard sportsbook usage; extra innings count; minimum-length-of-play rules above apply, except totals already unconditionally determined before a call/suspension.

Basketball - All game markets include overtime unless stated; quarter/half-time markets exclude it except NBA/NCAA/WNBA 2nd-half markets. - NBA/NCAA/WNBA games must start on the scheduled date; next-day completions void all bets. - US competitions: NBA needs 43+ minutes played, NCAA/WNBA 35+ minutes, for action; otherwise voided if suspended before that. - Winner = official result at end of game plus overtime. Half/quarter bets need period completion unless already determined. Venue changes void all wagers. Settlement sources: nba.com, ncaa.com, wnba.com, fiba.basketball, euroleague.net.

Boxing and MMA - A fight starts at the bell for round 1. A "no contest" voids all bets except already-determined ones. - Boxing events must complete within 30 days, MMA within 7 days, of the original date, or void. - A fighter substitution voids all bets. Failure to "answer the bell" credits the opponent with a win in the prior round. - A change in scheduled rounds keeps Winner/Result bets valid but voids Method of Victory, Exact Round, Winner+Round, Winner+Round Range, and Distance bets. - Settlement uses the official in-ring result; later overturns (appeal, doping, lawsuit, suspension, sanction) don't affect settlement, except for human error in the original announcement. - Fight Winner/Result: a draw refunds bets on either fighter if only two outcomes were offered; if a draw option was offered, it wins and both fighters' bets lose. - Total Rounds Over/Under settles by completed rounds; the halfway point of a round (1:30 for 3-min rounds, 2:30 for 5-min, 60s for 2-min) determines Under/Over. - "Go the Distance" = all scheduled rounds fought. - Method of Victory: KO/TKO, Decision (scorecards), Submission (MMA only), Draw (scorecard draw).

Golf - A player who tees off is deemed to have played; a later withdrawal/retirement/DQ doesn't void that selection. Non-players' bets void. - Settlement uses official tournament/match results including play-offs/extra rounds; later governing-body changes don't affect settlement. - Events must be played within the scheduled week/course to count, unless stated otherwise. - Matchups: both players must tee off, else void; lower tournament score wins; a missed cut loses to the other player (or, if both miss it, the lowest score wins); single-day matchups use that day's 18 holes (even if completed over two days due to weather); a same-score tie refunds money-line bets and pays stroke-line bets as action. - Outrights: settled on the trophy winner including play-offs; ties trigger dead heat. A shortened tournament (weather etc.) still settles on the trophy winner if 36+ holes were completed and the bet predates the final completed round; void if under 36 holes or bet placed after the last shot of the previous completed round. A play-off winner is the outright winner; all others are runners-up. Tied finishing positions all count at that position (e.g. three tied 4th are all "4th"). Futures offered ≤7 days before the event may refund specific non-starters; futures offered >7 days generally don't refund unless stated. Single-round/single-player props need all 18 holes completed. - Place Top 3/5/10: settled per official rules including play-offs/extra rounds/FedEx Cup starting strokes; a

shortened tournament's bets still stand (except those placed after the last shot of the previous completed round in a shortened event); void if the tournament is abandoned before completion; a player is deemed to have played once teed off in round 1 (bets stand through later retirement/DQ, but void if DQ'd/withdrawn before the tournament even begins); a missed cut still stands; ties use dead heat. - Head-to-Head (round): lowest score in the specified round wins; void if the round is abandoned before completion; a tie is settled per whatever tie/draw-no-bet option was offered. Two-ball/Fourball matches: a player/pairing must tee off to be "in"; retirement/DQ after teeing off still stands (opponent/other pair wins); both retiring on the same hole voids; Fourball is played over 18 holes when a tie option exists, otherwise settled regardless of holes played; dead heat applies. - End of Round Leader / Foursome: settled at end of round (void if abandoned before completion); tied leaders are all winners (dead heat). - Miss the Cut: settled at the end of round 2 (void if the tournament is abandoned before round 2 completes).

Ice Hockey - US pro hockey needs 55+ minutes played, non-US needs 60+ minutes, for official results, unless stated otherwise. Settlement sources: nhl.com, ncaa.com. - Puck Line/Money Line/Total Goals: overtime counts unless marked "Regular Time"; a shootout adds 1 goal to the winner's score and to the game total, regardless of actual shootout goal count. - Period bets settle on that period only, requiring full completion (3rd-period bets exclude overtime unless stated).

Motorsports - A postponed race/qualifier more than 48 hours late voids all markets (within 48 hours, the time simply updates and markets stay open). - **F1/Rally:** settled per FIA (fia.com, formula1.com); the warm-up-lap signal marks the race start — non-participation in the warm-up lap/pit-lane readiness voids that selection; individual race bets settle on the podium-ceremony result regardless of later disqualification; a race abandoned with no official result voids all driver bets. Race matchups need both drivers to start; a double-DNF is settled by laps completed (tied laps void); later penalties/demotions don't affect settlement. Rally Team H2H settles on best-classified car; both unclassified voids. - **IndyCar/NASCAR:** settled per indycar.com/nascar.com; a driver must start for action. Same matchup rules as F1/Rally above. Original results stand as official even after later appeal-driven changes.

Rugby League and Rugby Union - Settled on 80 minutes' play; extra time excluded/void unless offered. - A handicap-bet draw not offered as an outcome voids the bet (stands if a draw option existed). - First-try bets ignore penalty tries; void if the named player enters after the first try. "At least first try" bets require the player to start. - Venue changes stand except moving the away team to home advantage or moving international matches across borders (void in those cases). - Extra time = after the 2nd half until the match ends (excludes shootouts); scored purely on extra-time events.

Snooker - A match starts at the first break of frame 1 (even with a later re-rack); late-arrival-decided frames count for all bets. - A non-starting player voids bets on them (Tattersalls-style Rule 4(c) may apply to the field). - Re-racks: pre-frame bets stand; pre-re-rack points in that frame don't count; bets placed after the break but before the re-rack are voided. - An incomplete agreed frame count (withdrawal/DQ) with no match winner voids correct-frame-score and total-frames bets. - "First colour potted" excludes free balls/fouls (colour = yellow, green, brown, blue, pink or black). - A mid-match withdrawal/DQ makes the advancing player the match winner; other markets (correct frame score, handicap) void.

Tennis - First serve marks a match's start. - Tournament bets on a player stand once their first match starts; a later withdrawal for any reason loses tournament bets on them. - Surface/venue/indoor-outdoor changes don't affect bets. - Pre-start withdrawal/DQ voids single-match bets; an incomplete started match voids undecided bets. - A

postponed match keeps bets valid with an updated start time. - Correct-Set-Score/Total-Sets/Total-Games bets void if the match ends without the statutory number of sets being contested (e.g. a walkover/DQ). - A super tie-break counts as one game (not a tie-break) for game-count markets. - “Score of the next game”: tie-breaks don’t count (voided if the next game is a tie-break); an abandoned-but-same-day-completed game’s bets stand; otherwise void. Eight possible outcomes: server/receiver wins to 0/15/30/after deuce. - Handicap bets void if the match ends without the statutory sets being played.

Poker Rules

Valid from September 4, 2026

Generally 1. Poker is a card game offered by Danske Licens Spil, played against other participants; playable for real money or free (fictitious money). 2. Playable via Danske Licens Spil’s download client or Poker App. Online play requires accepting the “Terms of Online Gaming” (available at www.danskespil.dk). Game-type/instruction info is on www.danskespil.dk. 3. Danske Licens Spil uses a third-party supplier for Danske Spil Poker; the supplier’s Security & Conduct Policy (English: SEP) supplements these rules and takes precedence in case of conflict. 4. Rules may be changed/supplemented anytime; current version on www.danskespil.dk or from the Customer Center. 5. Only Poker games registered in the supplier’s game system count; game history is available by logging into the online gaming account in the download client. 6. Central IT system data prevails over discrepancies with a player’s game history; redress depends on whether the player knew/should have known of an error. 7. Poker is offered as tournaments and cash games. Tournament poker is decided over a series of hands; cash games settle each hand as a separate game. In either format, failing to act within the table’s time limit loses that hand/game. 8. Poker can be played free or with a deposit. Free-play (fictitious) money has no value and can’t be redeemed. Poker points accrue only on real-money play; see danskespil.dk/poker/min-tilbagebetaling for details. 9. Before confirming a transfer to a Poker game, players must verify the displayed details (including real vs. fictitious money) match the intended amount. 10. A blocked/closed account (e.g. for cheating on the Danske Spil Poker network) can affect eligibility for live tournaments where Danske Spil Poker is a partner.

Cheating and other unwanted conduct 11. Danske Licens Spil may warn, quarantine, block or close a player’s account (including withholding/confiscating funds) for any of the following: - Encouraging or assisting cheating via chat. - Violating the chat rules (below). - Collusion, use of bots/applications, or add-ons giving an unfair advantage, and other unwanted conduct, including: - **“Grinding”/big-blind exploitation** — not allowed; in heads-up play, the player receiving the button must play equal numbers of hands as small blind and big blind, finishing the match in the big blind of the hand in which they first received the button. - **“Queueing”** — coordinating with others on when to register for a Sit & Go/Spin to avoid a specific opponent; both deliberately sharing tables/card knowledge (collusion) and deliberately avoiding each other (queueing) are prohibited. - **“Ratholing”** — leaving a table after building a profit, then quickly rejoining the same table for a smaller amount than left with. - Third-party programs assisting real-time decisions. - Using a virtual machine and/or screen-sharing/remote-access software while playing. - Deliberately creating/using multiple accounts with the supplier. - **“Bum Hunting”** — deliberately targeting less experienced players while avoiding stronger ones. - **“Data Mining”** — collecting/using

hand histories beyond one’s own via third-party tools. - **“Unauthorised access”** — returning to any GGPN site after a network-wide ban. - **“Hit and Running”** — systematically leaving a table shortly after winning a big pot, denying opponents a chance to win it back. - **“Circumvention”** — any malicious manipulation of Danske Spil Poker/its software to bypass security measures; exploiting or attempting to exploit software bugs/features for financial gain is strictly forbidden. 12. The chat function aims to support a positive experience; Danske Licens Spil may restrict a player’s chat access based on their conduct. The SnapCam video feature (in GGPoker software) may not be used for offensive content or to harass others; misuse forfeits SnapCam access and may trigger suspension/account closure. All chat use must avoid: defamatory content; unlawful content or content the player has no right to share; racist, vulgar, hateful, obscene, profane, threatening, offensive or discriminatory content; impersonation; advertising; links to viruses/corrupted files/keyloggers/other harmful code; attempts to exploit or collude with/against other players; criminal-activity content; deliberately false/misleading content; attempts to collect personal information (contact details, real name); content protected by IP rights or confidentiality; or spam.

13.1. Danske Licens Spil and its suppliers work to detect/prevent cheating (collusion, bots, AI-assisted play, chip-dumping, scripting, and similar unwanted conduct), including by scanning software running on players’ computers. Not all cheating can be guaranteed to be prevented, and no liability is accepted for that. Where a player has lost money to another player’s cheating/misconduct, Danske Licens Spil will try to reverse it, subject to identifying the offending player and confiscating their funds; multiple affected players share any confiscated funds pro rata by loss.

13.2. **Collusion** — always play against genuine opponents; never play against yourself or deliberately lose money to another player; sharing unavailable information (e.g. cards), coordinating strategy, or agreeing to split winnings is forbidden. Suspected collusion must be reported immediately to kontakt@danskespil.dk.

13.3. **Third-party software** — no software giving real-time advice or making/suggesting decisions on the player’s behalf (HUDs, seating scripts, bots, AI tools, etc.); the player must make and execute their own decisions.

13.4. **Chip-dumping** — deliberately losing a hand to pass chips to another player is forbidden; report suspicions to kontakt@danskespil.dk.

13.5. **Heads-up matches** — the player starting with the dealer button must play an equal number of hands from small blind and big blind, and must finish the match before a hand in which the button returns to them.

Cashout 14.1. Some poker games (client/app) can be fully sold before final settlement via “Cashout.” 14.2. Danske Licens Spil isn’t liable if technical failure prevents a Cashout request/acceptance, or if Cashout is unavailable for a given game. 14.3. The offered Cashout amount is the total credited to the player’s account. 14.4. Accepted Cashout amounts cannot be cancelled. 14.5. If a Cashout credit results from a calculation error, Danske Licens Spil may reverse it (regardless of account balance) if the player knew/should have known of the error.

Table-leaving policy 15.1. Sitting at a cash-game table and leaving within 10 hands may result in a temporary block, treated as a refusal to play at that table. 15.2. Unfinished games 20. Unfinished games are processed promptly, within 90 days at most. A tournament interrupted by a supplier system error is handled per www.danskespil.dk/poker/regler_ved_nedbrud; a cash-game hand interrupted this way is generally declared dead with stakes returned to restore the pre-hand position.

Tips Rules

Valid from June 9, 2026

Generally 1. Tips predicts outcomes in a set of Danske Licens Spil-selected matches, offered from 2 to 25 matches per coupon (Tips 2 through Tips 25). Special per-game rules may appear on the coupon. 2. Applies to both retailer and online/mobile play; online play requires accepting the Online Gaming Terms. A personal Game ID is required at retailers. Online-only provisions are underlined in the source document. 3. Rules may be changed/supplemented anytime; current version on danskespil.dk. 4. Only rows registered in the central IT system participate.

Error 5. IT-system match info generally prevails; on error, Danske Licens Spil may draw a replacement result (trend draw, point 19). 6. Receipt vs. IT-system discrepancies: IT system prevails; redress depends on whether the customer knew/should have known. IT-

system-caused cancellations are fully refunded. 7. Match info on danskespil.dk/teletext/programbladet.dk/match program is guidance-only. 8. Danske Licens Spil isn't liable for retailer handling errors.

The Tips games 9. Coupons of 2–25 matches, up to 10 outcomes per match; first-named team = home team. 10. Danske Licens Spil's row coupon supports selected mathematical systems. 11–12. System coupons (R/U-system) support reduced systems on eligible Tips games; individual rows follow Danske Licens Spil's published system key on danskespil.dk. 13. "LynTips" flash play uses statistically-based combinations, with multiple combination options online.

Betting slip / receipt 14–16. Coupon/electronic coupon must be checked before purchase/confirmation. Retailer receipts uniquely identify the bet; online bets register in the IT system on confirmation, with the receipt shown on-screen. Customers must check for errors on receipt; neither party is liable once accepted, nor for misuse of a shared receipt.

Cancellation 17. Retailer cancellation: within 5 minutes of printing, at the same retailer (lapses if closed/closed-for-cancellation); receipt surrendered cancels all games on it. Online games cannot be cancelled once confirmed.

Decision (settlement) 18. A Tips coupon covers matches starting the same day (local time); Danske Licens Spil may instead use a multi-day coupon (stated on the coupon). A postponed/relocated match outside that period gets a trend draw (point 19). Result = the score when the referee ends the match after regular time (extra time irrelevant unless stated); post-completion official corrections don't count. Interruptions/irregularities may trigger a trend draw or use the score at interruption; a cancelled match ("win without match" = cancelled) gets a trend draw. Partial-result betting (e.g. 1st half) may be set on the coupon; a match interrupted/postponed/cancelled after the partial result is determined uses that partial result. Any doubt about actual vs. drawn results is finally decided by Danske Licens Spil; no claims arise from result changes. 19. Trend draws allocate a replacement result via weighted units reflecting each outcome's likelihood, all outcomes represented; each Tips coupon affected gets its own separate draw (results can differ across coupons for the same match).

Card Tips 20. Only on-field player cards count (not bench/staff/post-match). Counting: yellow=1, red=2, yellow+red=3, two-yellow+red=3 (max 3/player). Extra time/shootout cards excluded unless stated. A VAR-awarded card counts; a VAR-withdrawn card doesn't.

Corner Kick Tips 21. Regular time only unless stated; an awarded-but-untaken corner doesn't count; a retake counts once.

Profit calculation 22. For 3-outcome Tips coupons, winnings follow a fixed table by game size (number of prize groups, prize-distribution %, repayment %): - Tips 2–3: 1 group, 100%, 90% repayment. - Tips 4–7: 1 group, 100%, 80% repayment. - Tips 8–11: 2 groups, 75/25%, 75% repayment. - Tips 12: 3 groups, 40/30/30%, 75% repayment. - Tips 13–19: 4 groups, 45/16/12/27%, 75% repayment. - Tips 20–25: 4 groups, 50/20/15/15%, 75% repayment. Only one win per row. Example (Tips 13): 45% to 13-correct rows, 16% to 12-correct, 12% to 11-correct, 27% to 10-correct; 75% repayment.

23. Exceptions: if a higher prize pool is smaller than a lower one, the pools merge and split equally among that merged group's winners; a prize pool with no winning rows, or winnings under DKK 10, rolls to future prize pools.

24. Results and prize forecasts are published on danskespil.dk.

Gambling tax 25. Per applicable law; winnings tax-exempt.

Payout 26. Winnings rounded down to the nearest whole or half krone. 27. Online winnings post automatically per the Online Gaming Terms; multiple wins on one receipt pay together only once all bets on it are settled. 28. Once entered, winnings register as paid and the receipt is no longer winning-bearing. Tiers mirror Target Hunt/Oddset (≤1,000 / 1,001–5,000 / >5,000 DKK, same ID/copy/alteration rules); winnings of DKK 1.5 million+ pay 3–4 weeks after the coupon ends (to avoid complaints); payout limits may change anytime. 29. Payout may be suspended on suspected incorrect basis, resuming after correction. 30. Payout to a valid receipt + Game ID releases Danske Licens Spil; the receipt becomes invalid after payout. 31. No interest is ever added, regardless of blocking/delay reason.

Blocking 32. May block payout on objection, irregularity, or conduct contrary to these rules or the game's purpose.

Obsolescence 33. 3-year limitation period; claims after that forfeit the prize.

Complaints 34. To Danske Licens Spil, or the Danish Competition and Consumer Authority's Center for Complaints Resolution / EU ODR portal (as above). A successful complaint never yields more than the ordinary immediate payout would have been.

Publication 35. Retailer sales: winning retailer's name/address plus prize size may be published. Online: customer's registered hometown plus prize size may be published.

The Gambling Authority 36. Subject to Danish Gambling Authority oversight.

jeopardized, or the event has been manipulated (odds manipulation, match rigging etc.). Evidence of the above may be based on the size of stakes, the volume and/or pattern of bets placed. A decision given by the relevant governing body of the sport in question (if any) will be conclusive. 7.6 Casino Arizona and Talking Stick Resort reserves the right to conduct an internal investigation on repetitive bets of the same player rewards account, or a syndicate of player rewards accounts, all containing the same outcomes. During the investigation time, Casino Arizona and Talking Stick Resort reserves the right to withhold payment of such bets and/or void such bets. 7.7 Casino Arizona and Talking Stick Resort reserves the right to void bets when: We have evidence the bet was placed after an outcome is already known, or after the backed selection has gained an advantage (e.g., a goal scored in the backed selection's advantage or an incident in which a penalty has been awarded by VAR decision and is subsequently scored). Pre-match Bet was placed after the event had started or after a related event was underway and conditions could have been altered in a direct and indisputable way. Bet was received with incorrect prices due to delayed or failing live coverage. Bet is on obviously wrong prices or line/spread/total/handicap (deviation more than 100% of market price). Bet was accepted after an incident that should affect odds has happened (e.g. bets placed on total goals or next goal while a penalty has been awarded). Bet is received on odds which represent a different score than the actual. Bet is accepted on an already known outcome. Bet is placed after a public announcement has occurred in relation to the bet which affects significantly the odds (e.g., on transfer specials an announcement on media that a player will sign contract). Bet is received on an incorrect fixture; bets on fixtures quoting wrong participants, i.e., teams or players Wrong participant is quoted for any match or event. Bets placed on that participant will be void. Casino Arizona and Talking Stick Resort reserves the right to cancel bets on other affected outcomes. A match does not follow the sports generally accepted format and rules (e.g., unusual period length or match duration, points counting procedure, format of a match, less than the maximum allowed players, distance of a race, amounts of periods etc.); The outcome of a market cannot be verified officially (e.g., in the case of an abandoned coverage of a game that played regularly). Odds have been offered and bets accepted due to an error ("Error" is a mistake, misprint, misinterpretation, mishearing, misreading,

mistranslation, spelling mistake, technical hazard, registration Error, transaction Error, manifest Error, force majeure and/or similar.) Multiple / Parlay bets that combine different selections within the same event are not accepted where the outcome of one affect or is affected by the other. If such a bet (related contingency) is taken in error, the bet will be cancelled.

7.8 We reserve the right to delay the settlement of an outcome or an event until an official confirmation is published.

7.9 In case of an incorrect settlement of markets, we reserve the right to correct them at anytime. 7.10 When a problematic bet, which meet one of the criteria mentioned above (3.6), occurs and/or is identified during live betting or after the event has finished, the bet should not get cashed out. If the cash out bet settlement has been accepted, Casino Arizona and Talking Stick Resort reserves the right to reverse cash out or/and cancel bet. 7.11 Sports reasons bet cancellation:

Unless otherwise stated, in the betting offer or in the special rules of each sport.

 If a match is not completed or not played (e.g., through disqualification, interruption, withdrawal, changes in draws etc.) all undecided markets are considered void. The event or tournament is cancelled or declared void. Head-to-Head (H2H) bets: If one or more participants withdraw before they have started the event/tournament. 7.12 In a combo/multi bet, the cancelled event selection is set to odds 1.00 and the overall bet odds are adjusted accordingly. Stakes on single bets are returned and accounts refunded. In parlays the selection is treated as a void / push and, as an example, a 4-team parlay would become a 3-team parlay. In case of technical difficulties for the Operator to cancel a bet, the Operator reserves the right to deduct any invalid winnings from the bet winnings. 7.13 Casino Arizona and Talking Stick Resort reserves the right to amend, suspend or remove Cash Out availability at any time on any market or to any customer. 7.14 In the event of an error in the odds, the affected selection/s may not be Cashed Out. If Cash Out has been accepted in error, then the Cash Out transaction will be made void. In case bet is a combo the selection(s) with wrong odds will be settled as void and the remaining parts of the original bet will be settled on the result. 7.15 Where an ‘error’ results in an incorrect amount being offered that is subsequently Cashed Out, then the Cash Out transaction will be made void, and the original bet will be settled on the final result with the correct prices applied to the bet. a. Event has been called into question or b. Match-fixing has taken place. Evidence may be based on the size, volumes or pattern of bets placed with Casino Arizona and Talking Stick Resort across any or all our betting channels.

8. Lost or Damaged Tickets

Tickets that are lost may also be redeemed by verifying the validity. To verify validity players must have used a Salt River Rewards Card when placing bet. Players would present loyalty card and ID when claiming lost tickets. Once verified within the system using the player rewards card, a new ticket may be issued to redeem. All lost ticket requests must be placed on a lost ticket claim form with player loyalty account number and proper ID. Lost tickets will be held for a fifteen (15) days after the event ends before paid. Damaged tickets may be reprinted if the ticket is original and has at least the serial numbers present or players rewards card was used when placing the wager. A photo, video, or Xerox copy will not be honored as a lost or damaged ticket.

9. System Failure

In the event of a system failure no manual tickets will be issued or cashed. All winning tickets must be validated through the SportsBook System.

10. Dead-Heat rule

When two or more selections share one of the places Casino Arizona and Talking Stick Resort permits the entry of win dead-heat and place dead-heat reductions, which are fractions indicating by how much the returns to the bettor are reduced.

If two, or more, selections finish in the same position, the stake will be divided proportionally. A Dead heat is calculated by dividing the stake proportionally between the number of winners in the event. In a two-way Dead-heat (2 winners), your return will be half of what it could have been. Dead-heat rules are that it is the stake that is halved not the betting odds. In a three-way tie / dead-heat then the stake would be reduced to one third of the original stake. A $3 bet placed at 2.5 odds would become a $1 bet placed at 2.5.

When calculating how many places are paid, Casino Arizona and Talking Stick Resort counts as many selections as there are places, unless there is a dead heat for the last available place. So, if three places are offered and two selections dead-heat for first, the next-finishing selection takes third place. However, if there are three places and three selections dead-heat for third, Casino Arizona and Talking Stick Resort pays out on all five selections finishing in the top three places.

Dead-heat rules apply to the stake and not to the odds.

Example:

The final positions in golf competition are the following:

1st Position: Player A -20

2nd Position: Player B -18

3rd Position: Player C -16

3rd Position: Player D -16

3rd Position: Player E -16

6th Position: Player F -17

7th Position: Player G -15

8th Position Player H -14

a) Bet on Player E (each way 1-2-3): 3rd position is shared by 3 players C, D and E so the payment
will be 1/3 stake X each way odds.
b) Bet was placed on Player E (each way 1-2-3-4): 3rd and 4th (not really 4th position since there are
3 players in 3rd position) positions are shared by 3 players. Two positions pay, out of the 3 players
who reached those positions: 2/3 stake X each way odds.

11. Maximum Payouts

The maximum winnings classified in the table below:

Results are taken from those published by the official governing body and in the absence of these, for example In-Play, from Casino Arizona and Talking Stick Resort feed provider. Casino Arizona and Talking Stick Resort recognizes those results achieved on the field. Results awarded by a sport federation without action and results decided by the outcome of disciplinary measures from the sport federation or another court of law over 24 hours after an event has finished are not considered.

Sports	Payable limits

Baseball $250,000 for any question relating to a match (fight or round), to the Basketball performance of a team or tennis player or golf player during a season, to the Football playoffs or to the winning team or winning player of a cup or championship (outright). Hockey Boxing Other questions: $50,000 for any question relating to player propositions, to MMA drafts, to managers or coach’s (for example relating to the next manager), to Golf the draft lottery, to players transfers, to players exchanges, to the signatures of players and any other question that is not related to the outcome of a match, a Soccer league, or a tournament. Tennis

12. Accumulators/Parlays/Combo bets

Each Parlay risk limit depends on the limits of each selection of the parlay. The payout is calculated by multiplying the exact odds.

If one or more legs of the parlay are ‘no action’, cancelled or pushed, the odds of this selection will be 1.00 and the payout of the accumulator will be recalculated based on the remaining legs.

In case of postponement of a game which is selected in a parlay, it will follow the specific sports Term and Conditions.

Casino Arizona and Talking Stick Resort reserves the right to restrict parlays on some events at its sole and absolute discretion.

You may select up to 24 legs in a parlay.

The maximum winnings for parlays are: $250,000.

13. Refusal of Bet

Casino Arizona and Talking Stick Resort reserves the right to refuse any bet that is submitted to us, without giving a reason.

B) Main markets rules

Bets on “Half / Period / Quarter/ Set/ Game/ Map/ Round”, etc., refer to the result achieved in the relevant timeframe. This does not include any other goals/points/runs etc. achieved from other parts of the event. The overtime period is excluded unless otherwise is stated.

1. Money Line /Winner

Predict the winner of the game. The option of a draw is removed, and the market is offered with 2 outcomes (Team A vs Team B or Player A vs Player B). Bets on Player or Team to win an event include overtime if played. Bets on a Player or Team to win an Inning, Game, Set, Period, Quarter, Half and Map bets do not include overtime unless otherwise is stated (please check specific sport betting rules).

If the game or relevant timeframe ends in a draw, bets will be void and full stake will be refunded (push or no action).

2. Match Result/ 3-way Money line

Predict the winner of the game. The market has 3 outcomes and draw option is offered (Team A or Player A, Draw, Team B or Player B). The bets do not include overtime period.

3. Draw no Bet

Predict which team will be the winner. Draw no bet is like Winner and Money line market but overtime period is excluded unless otherwise is stated. In case of a draw, all bets will be void and full stake will be refunded.

4. Spread and Handicap Markets

Predict the winner of the game, applying the given spread (handicap). In handicap betting, a team is awarded a ‘‘virtual’’ goal/points/set/games advantage. This advantage will be added to the

official result for grading purposes.

Depending sport, Spread is applied on points, goals, sets, games. There are 2 major categories of Handicap markets:

a) 2-way Handicap
b) 3-way handicap

2-way Handicap market name varies per sport and are the following:

2-way handicap Sport Point Spread American Football, Basketball, Puck Line Ice Hockey Handicap Soccer & Tennis Run Line Baseball Asian handicap Soccer

Examples:

1) American Football. (Team A) +3 vs (Team B) -3. We place a bet of $100 on Team B to win. Team B
must win the game by a margin more than 3 for the bet to win. If Team B wins with exact 3 points,
bets are considered as void and stakes are refunded. If Team wins or lose game by less than 3
points bets on Team B are lost.
2) Basketball: (Team A) -2.5 vs (Team B) +2.5. We place a bet of $100 on Team B +2.5. Bets win if
Team B wins or lose by 2 points or less. If Team B loses by 3 or more points bet is lost.

Asian handicap: The Asian Line is a special type of handicap used for Soccer matches. Depending on the strength of each team, a handicap is awarded. This enables the odds for each side to be more similar. All bets on the Asian Handicap in live betting (including 1st/2nd half bets/ extra time/ 1st half extra time and 2nd half extra time) are settled according to the score line. Any goals prior to the bet being placed are ignored for settlement purposes.

Matches can be handicapped in ½ and ¼ intervals as to eliminate the possibility of a push since no one can score a half-goal. Quarter (¼) handicaps split the bet between the two closest ½ intervals. For instance, a $100 bet with a handicap of 1¾ (or 1,75) is the same as betting $50 at 1½ (or 1,5) and $50 at 2. With ¼ handicap bets, you can win and draw (win ½ of wager) or lose and draw (lose ½ wager). The ¼- goal handicap may be expressed as ‘’ 0,25’’ or “0 and ½”, or as “pk and ½”.

The bettor’s stake is automatically divided equally and placed as 2 separate bets. This means that with a handicap point of 0-0.5 or 0 and ½, half of your stake is on the 0-point handicap and the other half is on the 0.5 handicap.

Example: Match: Team A vs Team B Handicap: Team B +1.0, +1.5 (or +1.75)

This handicap states that half of our bet goes on Team A to win, draw, or lose by less than 1 goal; and half on Team B to win, draw, or lose by less than 1.5 goals.

If the final score is Team A 1-0 Team B, half your bet would be refunded due to draw (Team B lost by exactly one goal). The second half would win (Team B lost by less than 1.5 goals).

In a 3-way Handicap, the line is set so that there is also a draw outcome.

Example:

Team A vs Team B.

Team A Handicap (-2): Bet will win if Team A wins the match with a goal difference of three or more.

Tie (-2): Bet will win if Team A with (-2) Handicap wins the match with exactly 2 goals difference.

Team B Handicap (+2) - Bet will win if Team A loses or draws or wins by 1 goal.

Example:

Handicap (-2) - You will win if your team wins the match with a goal difference of three or more.

Handicap (+2) - You will win if your team loses / draws / wins by 1 goal.

 A player is deemed to have played once they have teed off. If the player withdraws, retires or is disqualified after having teed off then the selection will stand. Wagers on golfers who does not play in the tournament will be void. Wagers will be settled using the official tournament and match results of the respective governing body. This includes a play-off, additional round, or any other process which is used to determine the placings. Any changes or adjudications made by governing bodies after the event has finished will not affect settlement. Golf events must have tournament play within the scheduled week and on the scheduled course to be considered action unless otherwise specified in writing.

Matchups

 Bets stand only if both players tee off, otherwise bets are void (no action). The player with the lower score over the tournament is the winner of the matchup. If one player misses the cut the other player is the winner. If all players within the group miss the cut, the player with the lowest overall score will be the winning selection in this market. Single day matchups are wagers on the particular day's 18-holes. Should a day's round be shortened, or otherwise affected, due to weather conditions and the round is continued the next day, the full 18 holes shall be considered in determining the outcome of the bet even if they are played over two days. Both golfers must tee off for action. If both players end the 18 holes in a tie, the money line wagers shall be refunded, and stroke line wagers will be deemed 'Action'.

Outrights

 All outright bets are settled on the player awarded the trophy. The result of the playoffs is taken into account. If there is a tie for placings, dead heat rules will apply. If a tournament does not go to the scheduled number of completed holes and is reduced by the officials (e.g., due to bad weather conditions): - Bets will be settled on the player awarded the trophy, if 36 holes of the tournament have been completed and outright bets are placed prior to the final completed round. - Bets are void, if less than 36 holes have been completed - Bets are void if outright bets were placed after the last shot of the previous completed round. When two or more golfers are tied for the lead at the end of regulation play and a playoff is used to determine the winner, the winner of the playoff is settled as the winner and all the others as second-place finishers. In the event of a tie for a finishing position, the tied position will count; for example, if three players tie for fourth place, all three will be considered to have finished fourth. Futures wagers that are originally offered seven (7) days or less from the start of the specified event may allow refunds on specific non-starters. Futures wagers that are originally offered more than seven (7) days from the start of the specified event will have no refund unless otherwise specified. Fourball matches.

Bets stand once both pairings have teed-off the first hole. If the market includes a tie selection the result will be determined over the scheduled number of holes. Fourball matches are played over 18 holes.

However, if it is less than 48 hours the start-time of the event will be updated, and markets will be left open. If a match is interrupted/suspended but subsequently resumed (from the point in the match at which it was interrupted) within 48 hours of the original scheduled kick off time, all bets will stand. 48 hours after initial kick-off date
    betting.
    the team names or category are displayed incorrectly.
    score or card/corner/penalty related changes on any video
assistant referee (VAR) situation occur.
```

Goal markets are settled based on the time the ball crosses the line.

Penalties awarded but not taken are not considered.

Use of VAR

On any video assistant referee (VAR) situation, offsides and penalty markets will be settled based on the time the referee gives the decision. The event which led to the referral (VAR) will be deemed to have occurred at the actual time of its occurrence; For example, assuming a 9:30 start time, if a bet has been placed for a goal to be scored within the first 10 minutes of a game. A goal is scored at 9:40 and the assistant referee makes an offside call. VAR is used and the goal is deemed normal. The goal time will count at 9:40 and the bet will be a winner.

Bets being placed between the occurrence of an incident which leads to a VAR review and the related VAR decision will be settled as void unless:

- the review of VAR review and subsequent decision taken did not alter the decision made by the on-field referees.
- the review of VAR review and subsequent decision taken altered the decision made by the referees but did not have any influence on the bet(s) in question.

If a bet is settled due to a subsequent VAR decision, it is proven that such settlement was not correct, and we reserve the right to reverse such settlement.

These Game Conditions include the following: a) the rules set out in Sections 1 through 30 (the “Sports Betting Rules”); b) the definitions set out at Schedule A; and c) the specific sports betting conditions (the “Sports Betting Conditions”) set out at Schedule B. 2. BCLC may from time to time amend these Game Conditions. 3. In these Game Conditions, the terms: a) “includes” and “including” means “includes (or including, as applicable) without limiting the generality of the foregoing.”; and b) “wager” and “bet” have the meaning commonly assigned to them and are used interchangeably. 4. Unless the context otherwise requires, words importing the singular include the plural and vice versa, and words importing gender include all genders. 5. Any provision in these Game Conditions relating to discretion or determination is in BCLC’s sole and unfettered discretion or determination. 6. If any provision of these Game Conditions is determined by a court of competent jurisdiction to be void or unenforceable, such determination will solely affect such provision and will not, in itself, render void or unenforceable the remaining provisions, but rather these Game Conditions will be construed as if not containing that void or unenforceable provision. 7. In the case of a conflict between the Player Agreement and these Game Conditions, the Player Agreement will take priority. 8. Any Market terminology that is capitalized and placed in single inverted commas will have the industry meaning to which it relates, for instance ‘Winning Margin’ Acceptance of Bets. 9. BCLC may prohibit any person from wagering on PlayNow Sports Betting generally or on certain Events therein, and may limit the amount that a Player may wager without prior notice. 10. Once placed, bets cannot be cancelled by a Player. 11. BCLC may change or remove Events, Markets or Selections on offer without prior notice. Without limiting the generality of the foregoing, Odds for any Selection on offer are dynamic and are subject to change without prior notice. Results and Settlement. 12. BCLC may Settle bets based on the official result published by the governing body at the time of Settlement, according to the statistics of our official data providers or based on other information it determines to be reliable. After Settlement, subsequent corrections, or amendments by the governing body to the Result may not apply. 13. BCLC may Resettle where BCLC determines there was an error made in offering a bet, or Cash Out, as described in Section 21 below, or where BCLC determines an error was made in processing a Settlement such as an incorrect score or Result being entered. In all cases, BCLC’s decision to Resettle or not will be final. 14. Resettlement may result in a negative Account balance. BCLC may claim from the Player the amount of any such negative Account balance. 15. BCLC may apply the Dead Heat Reduction rule on Results with a Dead Heat.

16. BCLC reserves the right, in its discretion, where in a fixed match-up or bracket competition (for
instance a Tennis tournament) a team or player is withdrawn, suspended or disqualified, to Settle
any bets on the subsequent Odds once the bet has been revised without the withdrawn
team/player.
17. If a Selection is made void and is part of a parlay bet, the bet will otherwise stand based on the
Results of the remaining Selections.
18. Certain Markets will be offered on an All-in Play basis as defined below and described in the
Sports Betting Conditions.
19. Bets placed on Events that are undecided, incomplete or without a Result, as determined by
BCLC, will be made void.
20. To the extent any Settlement rules displayed with any Market on the PlayNow.com website
contradict the Settlement rules contained in these Game

Conditions, the Settlement Rules on PlayNow.com will govern.

Errors and Late Bets. 21. Errors may occur in the offering of PlayNow Sports Betting from time to time. Such errors may include: listing incorrect Event, Market or Selection details such as competitors, home or away team, start time, Market name, Odds, spreads, totals or any index value; continuing to offer bets after the cut-off time established by BCLC; or otherwise offering bets at a stage where the Player could have an indication of the outcome. Where BCLC discovers such error prior to the relevant Event(s) commencing, BCLC will make reasonable efforts to notify affected Players. Further, where possible, BCLC may give the option to affected Players to either void an affected Selection or allow the Selection to stand with revised Odds. 22. Where BCLC determines a bet has been placed which may be prohibited by the Criminal Code (Canada), the bet is void from the outset and the wager amount will be returned. 23. For bets in which all Selections are void, the Player's entire bet is void and the wager amount will be returned. 24. Any dispute over the time a bet was placed, Settled, Cashed Out (full or partial), or reassigned Odds will conclusively be deemed to be at the time recorded in the Internet Gaming System. Set Off. 25. BCLC may at any time set off any amount on deposit in a Player's Account against any amounts owed by the Player to BCLC. Payment of Prizes. 26. BCLC has no obligation to pay or deliver a Prize unless the winner: a) is a valid Player and satisfies BCLC that the Player is lawfully entitled to possession of the winning Ticket;

b) gives BCLC the right to publish their name, address, place of residence and recent image
without any remuneration or liability, and without any claim for broadcasting, printing, royalty
or other rights; and
c) if requested by BCLC, gives:
i) satisfactory evidence of identification;
ii) any information requested by BCLC related to the Ticket, including the purchase of the
Ticket, reasonably required for BCLC to process the Prize claim under this Section;
iii) a valid release of any further claims relating to the winning Ticket; and
iv) an undertaking to indemnify and save BCLC harmless from any further claims made by
either such winner or by any other person regarding such Prize.
27. Except where the Prize is money, BCLC may, in its sole discretion, substitute for any Prize either
the cash equivalent to BCLC's cost of such Prize, or a Prize of an equivalent cost to BCLC. No
representation or warranty as to the fitness and serviceability of any merchandise, property or
service is given or implied. Prizes must be accepted as awarded.
28. BCLC reserves the right to adjust Players' accounts upon Resettlement.

Payout and Bet Limits. 29. Unless stated otherwise in the relevant Sports Betting Conditions and with the exception of payouts from PlayNow Pools, every Player is subject to a cumulative $200,000 CAD maximum payout limit for all bets Settled in a Calendar Day regardless of the number of winning bets or the total value of such bets Settled in that Calendar Day (the ("Maximum Payout Limit"). For

clarity, winnings from Novelty Bets and Cash Out Settlements are included in the Maximum Payout Limit. 30. Unless otherwise stated in the relevant Sports Betting Conditions, any single bet (or parlay which includes a minimum of one Novelty Selection) will be subject to a maximum payment of $50,000 CAD (the “Novelty Bet Payout Limit”). For clarity, the Novelty Bet Payout Limit applies to all bets with the same Selection such that if a Player places multiple winning bets based on the same Selection, the combined maximum payout will be $50,000 CAD. 31. The maximum amount that could potentially be won at the time the wager was placed, if not for the Maximum Payout Limit, or Novelty Bet Payout Limit, may be shown on the betslip when placing the bet. The onus of responsibility rests firmly with the Player to stay within the limits and to account for the Maximum Payout Limit and Novelty Bet Payout Limit across all bets placed. Players waive any claim to amounts in excess of the Maximum Payout Limit or Novelty Bet Payout Limit. 32. Maximum bet limits may vary on an individual basis, and by sport, league or Selection, and BCLC may manage liability by limiting the amount that can be wagered on a given Event. 33. BCLC reserves the right to limit the number of picks in a parlay, in its sole discretion. Claims. 34. No claim or right of action exists against BCLC with respect to any Ticket or Prize, unless the claimant satisfies BCLC that the claimant is a winner and that the conditions of Section 24 of these Sports Betting Rules have been fulfilled. 35. BCLC reserves the right to delay or withhold payment during an investigation of a payout, in its sole discretion. 36. In the event of any dispute with regard to a Prize, BCLC may pay or deliver the Prize or evidence of entitlement thereof to a court of competent jurisdiction pending direction for or determination of the matter.

37. A person who makes a claim for a Prize is conclusively deemed to represent and warrant to
BCLC to be lawfully entitled to receive such Prize, and such representation and warranty will
survive the awarding of the Prize.

1: GENERAL SPORTS CONDITIONS The following general sports conditions apply to all PlayNow Sports Betting unless otherwise stated in the specific conditions for individual sports and Events described further below.

1.1 Championship, League/Tournament, Cup/Trophy Competitions.
Unless BCLC specifies other terms, BCLC Settles ‘Futures’ or ‘Outright’ betting on the player or team that ‘lifts the trophy’.

1.2 Competitors with the Same Name.
Where there is more than one competitor with the same surname and a Selection has not been otherwise identified, including by first name, team, or qualifying Odds, the competitor with the lowest advertised Odds will be taken as the Selection. If more than one of such competitors is offered at the lowest advertised Odds, then the wager will be divided between such competitors.

1.3 Fraud or Suspicious Activity, Event Rigging or Fixing.
Where there is evidence or suspicion of illegal or fraudulent activity including Ticket tampering, or of Odds, race, game, match or Event rigging or fixing, BCLC reserves the right to suspend Accounts and withhold payment, pending the outcome of any subsequent investigation or to declare bets on that

Event as void. Where evidence of rigging exists or where there is evidence of a series of bets each containing the same Selection(s) having been placed by or for the same individual or by a syndicate of individuals, BCLC reserves the right to require claims for payment to be made as directed by BCLC.

1.4 Injuries.
This condition applies to bets placed after such announcement and prior to the revision of the offer in question. In the case of an injury being announced which affects the Odds of a Selection or bet, BCLC reserves the right to void such Selection or bet, or amend the Odds for such Selection or bet to revised Odds taking into account the injury.

1.5 Event Information.
BCLC may provide Event information such as live scores and other statistical information from third parties for PlayNow Sports Betting. The display of such Event information may feature some delay and is supplied for convenience only. BCLC does not provide any warranty as to their accuracy. BCLC disclaims any liability for bets placed in reliance on such scores and information.

1.6 Void Selections.
For single bets where the Selection is deemed void the Player's wager amount on that bet will be returned to the Player's account. For a parlay bet where one or more picks are deemed void and there remains at least one valid pick within the original parlay, those void picks will be reassigned Odds of 1.00 and the bet will otherwise stand. For a bet in which all picks are deemed void, the Player's wager amount on that bet will be returned.

1.7 Point Spread (Handicap).
Predict the winner of the game, applying the given spread (handicap). In spread betting, a participant is awarded a 'virtual' goal/points/set/games advantage or disadvantage. This advantage (or disadvantage) will be added to the official final result for Settlement purposes.

There are 2 major categories of Spread markets: 2-outcome and 3-outcome.

If the outcome of a 'Point Spread' (handicap) Selection Settles on the exact spread offered in a bet, that Selection is void, unless the bet specifically includes an exact 'Spread' or 'Tie' Selection as offered with 3-outcome Spread markets.

Asian handicap: The Asian Line is a special type of handicap used for Soccer matches. Depending on the strength of each team, a handicap is awarded. This enables the Odds for each side to be more similar. All bets on the Asian Handicap in live betting (including 1st/2nd Half bets/ Extra Time/ 1st-Half Extra Time and 2nd-Half Extra Time) are Settled according to the score line. Any goals prior to the bet being placed are ignored for Settlement purposes.

Matches can be handicapped in ½ and ¼ intervals as to eliminate the possibility of a Push since no one can score a half-goal. Quarter (¼) handicaps split the bet

between the two closest ½ intervals.
For instance, a $100 bet with a handicap of 1¾ (or 1.75) is the same as betting $50 at 1½ (or 1.5) and
$50 at 2.
With ¼ handicap bets, you can win and draw (win ½ of wager amount) or lose and draw (lose ½
wager). The ¼-goal handicap may be expressed as “0.25’’ or "0 and ½", or as "pk (pk means zero
handicap) and ½”. The bettor's stake is automatically divided equally and placed as 2 separate bets.
This means that with a handicap point of 0-0.5 or 0 and ½, half of your stake is on the 0-point handicap
and the other half is on the 0.5 handicap.

Examples:
Match: Team A vs Team B
Handicap: Team B +1.0, +1.5 (or +1.75)
This handicap states that half of the bet goes on Team A to win, draw, or lose by less than 1 goal; and
half on Team B to win, draw, or lose by less than 1.5 goals.
If the final score is Team A 1-0 Team B, half the bet would be refunded due to draw (Team B lost by
exactly one goal). The second half would win (Team B lost by less than 1.5 goals).

In a 3-way Handicap, the line is set so that there is also a draw outcome.
Team A vs Team B.
Team A Handicap (-2): Bet will win if Team A wins the match with a goal difference of three or more.
Tie (-2): Bet will win if Team A with (-2) Handicap wins the match with exactly 2 goals difference.
Team B Handicap (+2) - Bet will win if Team A loses or draws or wins by 1 goal.

1.8 Total (Over/Under).
If the ‘Over/Under’ outcome of a ‘Total’ (‘Total Points’, ‘Total Goals’, etc.) Selection matches the exact
total offered in a bet, that Selection will Settle as a Push, unless the Market specifically includes an
exact ‘Total’ Selection.

1.9 Head-To-Head (H2H) and Triple Head (H3H) betting.
Predict which one of the teams/competitors in the Head-To-Head gets the best finishing
result/position/points. Both participants in a H2H have to start for bets to stand, and at least one of the

participants has to finish with an official result. Otherwise all bets will be void and full stakes will be refunded.

For H3H the same rules apply, only in a H3H there will be 3 competitors/teams available to select.

1.10 Season Head-To-Head
Season H2H: Predict which team/participant will get the highest final position in a competition. Play-offs are not included unless stated otherwise.

1.11 Teasers.
'Teasers' allow adjustment of point spreads and game totals on two or more teams. When available, once Selections have been added to the betslip, a fixed number of points can be added with corresponding adjusted Odds on all Selections in the 'teaser'. The number of teams selected, and the number of points selected determine the payout. 'Teaser' bets may be available on pre-game Events on football (NFL,NCAAF & CFL) and basketball (NBA, NCAAF & WNBA).

Teaser General rules.
a) Two-team teasers: A Push in a two-team teaser, without a loss, will be considered No Action and
   the stake will be refunded.
b) All Selections must be successful for the bet to win. If a Selection in the teaser is a Push, the teaser
   will drop to the next lower level, in case a lower level is offered for that particular teaser.

1.12 Power Picks & Odds Boosts.
All outcomes within a 'Power Pick' or 'Odds Boost' must be correct, as specified in the posted terms, in order to be Settled as a win. 'Power Picks' cannot be parlayed with any other bets. BCLC may void any

‘Power Pick’ that is comprised of an Event that is not completed (e.g. abandoned, postponed, or
featured participant for player prop is Non-Starter) or is otherwise void.

Unless specifically stated otherwise, the Event/Market listed refer to the next official Event/Market that
the listed participants are scheduled to take part in.

1.13 Related Contingencies (Correlated Bets).
Parlay bets are not accepted where the outcome of one Selection has been deemed to contribute
wholly or partly to the outcome of another or whereby Odds have not been adjusted to account for the
correlation. However, BCLC will allow certain Markets to feature multiple outcomes which may be
correlated at its discretion, provided BCLC has accounted for such correlation in the Odds for that bet
(such bets may include ‘Power Picks’, ‘Specials’ and ‘Match Result/Total Points’ or ‘Point Spread/Total
Points’ doubles). A correlated parlay bet that is initially taken on PlayNow.com without accounting for
correlation will be considered a bet taken in error and subject to Section 21 of the Sports Betting Rules,
set out above. Further, where the correlated Events are resolved at different times, BCLC reserves the

right to Settle the bet with the Odds for the second or subsequent bets within the parlay being
determined at each individual stage.

Example #1:
A two-Selection parlay on the Vancouver Canucks to win the Pacific Division and the Los Angeles
Kings to qualify for a Wild Card position is taken in error with the total Odds not taking into account the
correlation of the related outcomes.

BCLC may Settle or Resettle with the higher Odds of the Selections that are deemed correlated.
Example #2:
A two-Selection parlay on Canucks to win the Western Conference Finals and Canucks to win the
Stanley Cup Finals is taken in error without taking into account the correlation of the related outcomes.

BCLC may Settle or Resettle the bet with the Odds for Canucks to win the Stanley Cup adjusted to the
opening Odds offered by BCLC after the Western Conference Final has concluded.

1.14 Rounding.
Normal mathematical rounding (rounding up if a half cent or more and rounding down if less than a half
cent) is used to present numbers that are more than two decimal places long.

1.15 Top Goalscorer/ Point Scorer.
‘Top Goal Scorer/Point Scorer’ in a competition will be Settled in accordance with the Dead Heat
Reduction Rule if players finish on the same number of goals/points scored, regardless of whether an
official result is determined by other means by the sport’s ruling body.

1.16 Venue Changes.
If an Event is no longer taking place at the venue advertised, bets

will still stand as long as the venue
has not been changed to the opponent's ground (or in the case of international matches, as long as the
venue remains in the same country). However, BCLC reserves the right to void any bet where it is
determined that a change of venue has had a significant impact on the Odds of the match.

1.17 Event Postponement.
Unless otherwise stated:
a) If an Event is postponed but completed before the end of the next Calendar Day, Event local time,
    bets on that Event will stand.
b) If an Event is postponed and not completed before the end of the next Calendar Day, Event local
    time, bets on that Event will be void.

1.18 Cut-off time.
An Event cut-off date and time for placing bets is displayed for every Event. The cut-off time may be
revised by BCLC in its discretion.

1.19 Odds Changes Settings.
If a Player selects the ‘Odds Changes - Accept Any’ option within the ‘Settings’ tab on the betslip, the
Selections on the betslip will indicate any subsequent Odds change while the bet is being built, but the
Player will not be required to actively confirm any Odds change prior to bet placement.

If a Player selects the ‘Odds Changes – Accept Higher’ option within the ‘Settings’ tab on the betslip,
the Selections on the betslip will indicate any subsequent Odds change while the bet is being built, but
the Player will only be required to actively confirm lower Odds prior to bet placement.

Players should confirm this setting each PlayNow Sports Betting session as it may return to the default
setting.

All changes other than odds change which may occur during the bet process will require the Player to
accept these changes before proceeding with their transaction.

1.20 Confirm bet before placing or choose to skip bet confirmation.
When starting a sportsbook session, the default setting (located by clicking the Settings icon on the
betslip Settings) for ‘Confirm my bet before placing’ is set to ‘on’; so that when Player has created a
valid potential bet on the betslip, when the ‘Place Bet’ button is selected, the system will require the
Player to confirm their bet(s) before the system will attempt to place the bet.

If a Player chooses to deselect the ‘Confirm my bet before placing’ option within the ‘Settings’ tab on
the betslip (by moving the slider to the left in the ‘off’ position), when the Player has created a valid
potential bet on the betslip and the ‘Place Bet’ button is selected, the system will immediately attempt
to place the bet.

Players should confirm their desired setting each sportsbook session as it may return to the default
setting after log out.

1.21 Quick Bet.
The ‘quick bet’ feature is available to players when using a tablet or mobile device. When placing a bet
using the ‘quick bet’ feature turned ‘on’, the bet confirmation process is not activated and thus bet
placement will be immediately attempted by the system when players have created a valid potential bet
and select the ‘Place Bet’ button.

The ‘quick bet’ feature is turned ‘off’ by default setting at the start of each sportsbook session, but can
be enabled within the betslip settings by moving the ‘Quick Bets’ button to the right (into the ‘on’
position).

Players should confirm this setting each sportsbook session as it may return to the default setting after
log out.

1.22 Dead Heat Reduction.
BCLC permits the entry of win Dead Heat and applies Dead Heat Reductions with respect to such
bets. BCLC will set Dead Heat Reductions for each Dead Heat offered. Dead Heat Reductions take
into account other reductions (such as place terms reductions, or Non-Starter Deduction). To calculate
how many places are paid, BCLC counts as many Selections as there are positions, unless there is a
Dead Heat for the last available position. So, if three positions are offered and two Selections Dead
Heat for first, the next-finishing Selection takes third place. However, if there are three places and
three Selections Dead Heat for third, BCLC pays out on all five Selections finishing in the top three
places. The chart below shows various possibilities for four places and how BCLC handles them. The
Selections are labelled A, B, C, etc. and each Selection-letter appears in the column for where they
place. If two or more letters share a column then they have Dead Heated for that place; N/A indicates
the place is not available because it's been eliminated by Starters Dead Heating in another position.

Row	1st Place	2nd Place	3rd Place	4th Place
1	A	B	C	D
2	A	B,C	N/A	D
3	A	B,C,D	N/A	N/A
4	A,B	N/A	C	D
5	A,B	N/A	C,D	N/A
6	A,B	N/A	C,D,E,F,G,H	N/A
7	A,B,C	N/A	N/A	D
8	A,B,C,D	N/A	N/A	N/A

The last row indicates a general principle: as many Starters as possible can Dead Heat for the last
place offered, but only as many Starters as there are positions can Dead Heat for any of the earlier
positions (contrast row six with the last row. BCLC only applies

Dead Heat reductions to the last
available position, because prior to that the Selections are using up positions that would be paid out
even if there hadn't been a Dead Heat. So, in the table above, in row six again, there are no Dead
Heat Reductions because there are four Selections finishing in the top four, and four positions to be
paid. Dead Heat rules apply to the stake and not to the Odds.

Example:
The final positions in golf competition are the following:
   1st Position: Player A
   2nd Position: Player B
   3rd Position: Player C
   3rd Position: Player D
   3rd Position: Player E
   6th Position: Player F
   7th Position: Player G
   8th Position: Player H

a) Bet on Player E (Each Way 1-2-3): 3rd position is shared by 3 players C, D and E so the payment
   will be 1/3 stake X Win/Place (or Each Way) Odds.
b) Bet was placed on Player E (Each Way 1-2-3-4): 3rd and 4th (not really 4th position since there are
   3 players in 3rd position) positions are shared by 3 players. Two positions pay, out of the 3 players
   who reached those positions: 2/3 stake X Win/Place (or Each Way) Odds.

1.23 Win/Place Bet or Each Way Bet.
A ‘Win/Place’ bet or ‘Each Way’ bet consists of 2 equal stake bets. For the Win part of the bet the
Selection must finish first. For the Place part of the bet, the Selection must either win or finish in one of
the specified top places for the Event, such as first place or second place (usually up to 5th position).
For example, a $100 Win/Place bet means your total stake is $200. The Odds on the Place part of the
bet are calculated as a fraction of the winning Selection Odds: 1/2, 1/3, 1/4, 1/5. If selected outcome
finishes 1st, both the win and place parts of the bet will return a profit.

1.24 Same Game Parlay (SGP).
All SGP Selections must win (no ties, draws or Pushes) for a bet to be a winner. A Selection that does
not win, unless stated otherwise in the Game Conditions, will be Settled as a loss. For example,
Selections on a team to win a match where it is a tie after overtime, even where the draw or tie may
not have been offered through SGP, will be Settled as a loss. Similarly, ‘Race to X’ Selections where
neither team reaches the selected score will be Settled as losers, regardless of whether a ‘neither team
to reach X’ Selection was available as an alternate Market or not. If a quarter, half or game finishes
scoreless, then touchdown or point-scoring Markets for that period (e.g. For football: Player to Score a
1st Half Touchdown) will be settled as losers.

SGP bets with one or more Selections that are deemed void, will be Settled (in full) as void,
regardless of the number of Selections in the bet.

Sports freebets (tokens) currently cannot be used to place Same Game Parlay bets.

2: LIVE BETTING CONDITIONS 2.1 Live Betting. ‘Live Betting’, ‘Live Bet’, ‘In Play’ or ‘Betting in Running’, or ‘BIR’ with respect to PlayNow Sports Betting means betting that occurs while an Event is in progress. Unless otherwise stated, the ‘Sports Specific Conditions’ below, including Settlement conditions, apply to Live Betting. 2.2 Events Not Completed. BCLC reserves the right to void any part or all, of any bets, on any Event that is not completed (e.g. abandoned, postponed), on which Live Betting is offered.

2.3 Live Betting Event Information.
BCLC provides Event information for the convenience of Players only (as further described in Section
1.5 of these Sports Betting Conditions). As such, there may be discrepancies between Event
information displayed on PlayNow Sports Betting and how a bet is Settled based on these Game
Conditions.

2.4 Information Delay.
Players may not be provided with the most up-to-date information in relation to an Event, including as
a result of slow connection speed or equipment, system flaws, faults, errors or service interruption. As
well, BCLC may, in its discretion, provide for a delay to be added at the time of bet confirmation for
‘Live Betting’. BCLC disclaims any liability to a Player based on the Player not having up-to-date
information or for delays in bet placement.

3: CASH OUT 3.1 Availability. Cash Out may be available on bets where all Selections are from eligible Cash Out Markets. Bets that are potentially eligible for Cash Out will display as available under the Cash Out section on the betslip. Ongoing availability of Cash Out offers for any given bet is not guaranteed. As such, Players should not place bets with the sole intention to cash them out. Subject to time delays and errors discussed in Section 3.3 below, once a successful Cash Out message is returned for a full Cash Out, the bet is Settled immediately and is final. No further Event outcome will contribute to the Cashed Out bet. Where an Auto Cash Out request has been made and Cash Out is unavailable, and not made available again before the end of an event, bets will be settled based on the final Result.

3.2 Settlement.

Settlement of a bet, or portion of the bet in the event of a partial Cash Out, will be indicated by a message on the betslip. If a full or partial Cash Out is actioned by a Player manually for a bet, then any existing Auto Cash Out request relating to that bet will automatically be removed and no longer apply.

3.3 Time Delay and Errors.
As with all PlayNow Sports Betting, errors may occur in Cash Out from time to time. BCLC may exercise
it discretion to address such errors as set out in Sections 21 through 24 of the Sports Betting Rules,
which deal with ‘Errors and Late Bets’. Where a Cash Out offer has been made in error, then the Cash
Out transaction will be made void and the original bet will be settled on the final Result with the correct
Odds applied to the bet. Cash Out offers are subject to a time delay. Odds changes or Selection
suspensions during this time delay may result in a new Cash Out offer being made and the removal of
a subsequent Cash Out offer, despite prior acceptance by a Player.

3.4 Automatic (Auto) Cash Out.
Auto Cash Out provides the option to create a Cash Out request on qualifying bets, whereby if the

Cash Out value reaches or exceeds the threshold the Player has set, the bet will automatically be
Settled (and the funds credited to the account). Players can create (and delete) Auto Cash Out rules
on the Betslip in the ‘Cash Out Settings’.

Once a Player has successfully added an Auto Cash Out request (or rule) to a bet, a green indicator
will display on the cog icon on the betslip. The active request can be removed up to the point of bet
Settlement by clicking on the cog icon and select ‘Remove Rule’. Alternatively if a Player manually
Cashes Out or partially Cashes Out any part of their bet, the active Auto Cash Out request will be
removed for that bet. Players may need to activate the ‘reload’ button on the betslip in order to see the
display that the rule has been removed.

3.4 Bonuses.
Unless otherwise stated, any bets which have applied a full or partial Cash Out do not qualify for a ‘bet-
back bonus’ or other bonuses.

4: NOVELTY BETS - GENERAL 4.1 Novelty Bets. The Novelty Bet category may also be listed as ‘Novelty & Specials’.

Federations. All games must start within twenty-four hours of the original start time for bets to stand.
Both competitors must complete at least two legal moves each. Otherwise, all bets will be void. Results
changed by a regulatory body more than six hours after the end of the game will not be applied to
Settlement

5.3 Game Betting.
‘Game Betting’ is based on the final result of an individual match. Three results are possible: win, draw,
or lose.

counts as one point, the draw is worth half a point and losing is worth zero points.

5.5 Handicap Game Betting.
The winner is the competitor with more points after the addition of the handicap to one side. For
example: competitor “A” -0.5 -versus- competitor “B” +0.5. Result: competitor “A” wins the handicap if
she or he wins; competitor “B” wins the handicap if she or he wins or draws.

5.6 Handicap Match Betting.

The number of moves in a game is considered to be the number of valid moves made by the competitor
who manages white pieces.

5.8 White/Black Piece Moved on Xth Move.
If the move is a castle, the winner of this bet will be "king". If the Xth move is not played because the
game finished before the Xth move, the bet on this Selection will be void.

5.9 Live Betting.
If the result of a match is a draw, all bets placed after the last move will be void.

6: ESPORTS 6.1 Esports as Novelty Bet. Esports are offered as Novelty Bets and therefore all Game Conditions applicable to Novelty Bets apply.

6.2 Start Dates/Times.
The start dates and times displayed on PlayNow.com for esports matches are an indication only and
are not guaranteed to be correct. If a match is suspended or postponed, and not resumed within forty-
eight hours from the actual scheduled start time, then bets on the match will be void. If the Event is
cancelled or takes place after this period, all bets will be void. All bets that are identified as ‘late’ in
accordance to the relevant official eSports website start times will be void.

6.3 Maps.
An esports match can be played best of two, three or five maps depending on the sport and tournament,
with the winner of the match (‘Match Betting’) winning more maps. A draw will occur if each team wins
an equal number of maps.

6.4 Incorrect Names.
If the name of a player or team is spelled incorrectly, all bets will stand unless BCLC determines it was
obvious that the wrong player or team was displayed. BCLC’s decision in this regard will be final.

6.5 Retirements and Disqualifications.
If a match or map starts but is not completed due to retirements or disqualifications, then all Markets
will be void. In the case of retirements or disqualifications, all bets on completed maps will stand.

All esports bets will be Settled in accordance with the official results of the tournament. All results will
be Settled in accordance with the official website for each tournament’s governing body.

b) A tournament must be completed in full for all Markets relating to the tournament’s outcome to
stand.
c) For ‘Tournament Match Betting’, both teams or players must start the match in the tournament
for bets to stand. If players or teams progress to the same round of the tournament, bets will
be void.

6.12 Esports Props.
If props for a specific player on a specific map is offered, bets will stand only if the player starts on that
map. If props are offered for a specific player for a whole match, bets stand only if the player starts on
all maps of that match.

6.13 Esports handicaps.
A handicap in eSports can be rounds, maps or other counting measures related to the match.
‘Map Handicap’ refers to the handicap between maps in an Event. For ‘Counter-Strike’ matches,

7.2 Head to Head.
On head to head (H2H) best finishing position proposition bets, both quoted participants (Selections)
must compete (be declared Starters) for bets to stand. If any, or both participants do not compete,
Markets will be resulted as void. The resulting criteria are the following:
a) The athlete who advances to latest round of the competition will be Settled as the winner of the
matchup (e.g. Athlete A reaches final heat and Athlete B is eliminated in the semi-final heat thus
does not reach the final heat, Athlete A will be the winner of the matchup).
b) If both athletes are disqualified in the same round but they compete in:
i. Same race: the athlete with the better time of finishing will be Settled as the
winner of the matchup
ii. Different race: wagers will be settled as ‘No Action’ (void)
c) If the listed competitors of the matchup qualify for the final, the best finishing position will be
decided by the order of finish in the final.

7.3 Group Betting.
a. If two or more participants finish at the same place, then the Dead Heat Rule applies. Bets on athletes
who do not compete (Non-Starters) are settled as a loss.

b. If a participant or team is disqualified or retires from an event, bets placed on this Selection will stand

Medals, then the number of gold, then silver and then bronze medals won, will be used to
determine the winner.

c. Most Gold medals: If two or more countries finish with an

equal number of gold medals, the
number of silver medals will be used to determine the winner. If the number of medals is still
equal, the number of bronze medals will decide.

d. Most Silver medals: If two or more countries finish with an equal number of silver medals, the
number of gold medals will be used to determine the winner. If the number of medals is still
equal, the number of bronze medals will decide.

e. Most Bronze medals: If two or more countries finish with an equal number of bronze medals,
the number of gold medals will be used to determine the winner. If the number of medals is still
equal, the number of silver medals will decide.

f. Most medals, Most Gold medals, Total number of medals o/u, Total number of gold
medals u/o, Outright markets: If all scheduled medal Events are not completed before the

the Event reached its natural conclusion. Undetermined Markets will be made void.

Examples:
I. Most medals Market: Tournament finished without one scheduled medal Event. At the
time of closing ceremony, United States had 22 medals and the 2nd country was
Sweden with 20 medals. Bets on United States will be settled as winner and all other
outcomes as losers.

time (extra time is not included).

8.5 Rescheduled/Aboandoned/ Postponed Events
If a match is abandoned or interrupted before the completion of the regular time, then match Markets
such as ‘handicap’, ‘match result’, ‘odd/even’, ‘half time/full time’, ‘highest scoring half’ etc. are void.
However, Markets for which the Results have already been determined will be Settled accordingly.
Where a match is abandoned or postponed and resumed within 48 hours of the original scheduled
date, all bets with Selections related to that match will stand. Once the 48 hours have expired, all
Selections are void.

8.6 First Goalscorer.
For ‘First Goalscorer’ (both ‘Game’ and ‘First Quarter Only’), if the chosen player is not in the starting
twenty-one players for that game, all Selections will be void. All Selections for ‘First Goalscorer’ on any

respective team. For bets on ‘First Goalscorer’ of the first quarter, Selections are void if no goal is
scored within the nominated quarter of play.

and against’. Points deducted because of breaches of the sport’s rules and regulations are excluded
for Settlement purposes. All-in Play applies.

8.10 Miss 4/Miss 8.
Any team which has points deducted due to breaches of the sport’s rules and regulations will be
deemed a Starter. If at the time a breach is announced, the loss of points means only one eventually
can occur (i.e. ‘Miss the 8’ must occur) then all Selections for that competitor are void. All decisions
made by the AFL regarding penalties will be considered final by BCLC.

8.11 Premier State.
For the ‘Premier State’ Market, Settlement is determined by the home state of the team that wins the

8.18 Player Markets
All player Selections will be considered active if a player takes to the field of play as an active player at any point of the relevant match, regardless of whether the selection in question references a specific

period of the match. If a player never enters the field of play during a match, Selections specific to that player will be void. For instance, a Selection on a certain player to kick a goal in the second-half would be active (and therefore Settled as a loser) if that player played the first two minutes of a match, was injured, and did not return to the game, regardless of having never been on the field during the second-half. However, if that player was injured shortly before the game commenced, was withdrawn from the starting lineup (or interchange/emergencies) and never took the field, the Selection would be void.

9: BADMINTON 9.1 General Conditions. A match will be deemed to have begun once the first serve has been struck. Where applicable, the podium presentation will determine the Settlement of bets. Subsequent disqualifications and/or appeals will not affect bets. For all Markets, where a setting option is implemented in the form of point-based tie-break/decider, this will be counted as one point for Settlement purposes.

bets on that set, game, or point will be void. If the nominated point is awarded as a penalty point, all
bets on that point will be void.

9.10 Points Deduction.

all bets which refer to 1st half or 2nd half which will be void.

10.4 Outright/ Futures betting.
All future changes which may occur for whatever reason, do not affect the Settlement of the Markets
(relegation, promotion, to win, to progress etc.).

11: BASEBALL 11.1 Baseball specific definitions “4½ Innings Rule” in baseball means Market Results are official after five innings of play (or 4½ innings if the home team is leading). If a game is ‘called’ or suspended, Results are determined by the score after the last full inning (unless the home team score to take the lead in the bottom half of the inning, in which case the winner is determined by the score at the time the game is suspended). Selections will be made void if the home team ties the game prior to the game being suspended “8½ Innings Rule” in baseball means a minimum of nine innings (8½ innings should the team scheduled to bat in the bottom of the ninth inning be ahead) are required to be played in order for bets to stand and failing that all bets are void.

11.2 General Rules
a) All Settlements are based on information provided by the relevant league’s governing body.
b) If played, extra innings will count for all Markets unless otherwise stated.
c) If an Event venue is changed to a reversed match, all wagers on the Event will have ‘no action’.
d) If an Event is nominated as a 7 inning game and later changes to 9 innings or vice versa, Bets
are void unless the odds are deemed correct by the gaming authority at the time of bet
placement.
e) If starting pitchers are listed with the Event or Selection, then those pitchers must start the
game or all Selections on that game are void, with the exception of World Baseball (unless
otherwise stated).
f) If starting pitchers are not listed with the Event, bets will have Action and stand regardless of
which pitchers start the game.

11.3 General Settlement Rules for Scheduled 9 Inning games.
The 8 ½ Innings Rule applies to all betting Markets, unless otherwise stated then the 4 ½ Innings Rule
applies. Extra innings, where applicable, count for Settlement purposes.

11.4 General Settlement Rules for Games Scheduled Less Than 9 Innings.
If MLB schedules a game for less than 9 innings, then ‘Money Line’ Markets are settled as per the 4 ½
Inning Rule and all additional Markets are settled based on the amount of innings the game is scheduled

for. For example, if the MLB Schedules a 7 Inning game, then the game must complete 7 innings (6 ½
If the Home Team is Leading in the 7th inning) for all Markets that fall under the normal 8½ Inning Rule,
to have action. Extra innings, where applicable, count for Settlement purposes.

11.5 Delayed/ Postponed/ Suspended Games
If the scheduled start time of a game is delayed and/or suspended before completion and not resumed
on the same day (Event local time), then all Selections will be void, however, exceptions may occur if
the” 4½ Innings Rule” is applied which takes precedent. In the case of a suspended MLB Playoff or
College tournament game, all bets will stand until the game is completed.

11.6 Exhibition/Pre-season games
Winners and losers for betting are official after five innings of play (or 4½ innings if the home team is

leading). A bet that includes a Selection that does not win, will be Settled as a loser, unless stated otherwise in the Game Conditions. For example, Selections on a team to win a match where there is a tie after overtime (or normal time if no overtime is to be played), even where the tie may not have been offered through SGP, will be Settled as losers. This will not be relevant to NBA or NBL matches as they play repeated

overtime periods until a team wins, but may be applicable to other basketball leagues or competitions
as per their individual competition rules. Similarly, ‘Race to X’ Selections where neither team reaches
the selected score will be Settled as losers, regardless of whether or not a ‘neither team to reach X’
Selection was offered. SGP bets with one or more Selections that are deemed void, will be Settled (in
full) as void, regardless of the number of Selections in the bet.

13.2 Overtime.
All basketball matches will be Settled on the official declared Result, including any overtime.

13.3. Second Half/ Fourth Quarter Markets.
All second half and fourth quarter Market Selections include overtime periods if they occur. For
example, a ‘Total 2nd-Half Points’ Selection would include the points scored in both the second half
and any overtime periods played.

13.4. Player Specific Markets.

All player Selections will be considered active if a player enters the court as an active player at any
point of the relevant match, regardless of whether the Selection in question references a specific period
of the match. If a player never enters the court during a match, Selections specific to that player will be
void. For instance, a Selection on a certain player to score 10.5+ points in the second half would be
active (and therefore Settled as a loser) if that player played the first two minutes of a match, was
injured, and did not return to the game, regardless of having never been on the court during the second
half. However, if that player was injured shortly before the game commenced, was withdrawn from the
starting lineup (or bench) and never took to the court, the Selection and therefore bet would be void.

13.5. Postponed and Incomplete Matches.
Where a match is postponed or incomplete, and subsequently resumed within 48 hours of the original
scheduled start time, all bets will stand. All bets placed on games played which commence more than
48 hours past the originally scheduled start time will be void. Once the 48 hours have expired, all bets
are void and stakes will be refunded.

13.6. Abandoned Matches.
If a game is abandoned prior to commencement, it falls within the 48-hour rule for postponed matches
as described above. If it is abandoned after commencing but before its natural end point, the following
rules apply:

a) SGPs will be void if they include at least one Selection involving a player who has not yet entered the court as an active player. The rules outlined below are all applied subject to and subsequent to the application of this rule.

b) If every Selection within a SGP on the game is already a winner where the fact of abandonment had no impact on the outcome of each Selection, the SGP in its entirety will be treated as a winner. For example, a 2-Fold SGP containing an ‘Over’ Selection on a ‘Total Points’ Market and a certain player to score 10.5+ points, in a game where the required points have been reached and the player scored more than 10 points before the game was subsequently abandoned, will be treated as a winner. In this case, the abandonment had no impact on either Selection. The same would not apply to an ‘Under Total Points’ Selection where a game is abandoned while the total score is still under the chosen number, as the abandonment would impact that outcome.

c) If a single Selection of an SGP has lost and a match is then abandoned, the SGP will be treated as a loser, where regardless of the fact of abandonment, the Selection(s) in question had been irrevocably concluded. For example, an SGP including a ‘First player to score’ Selection, in a game where a different player scored first and the match was subsequently then abandoned, will be treated as a loser. In this case, the bet had already lost, and this outcome could not be affected in any way by whether the game was subsequently abandoned or not.

d) If there are no losing Selections within an SGP and at least one void Selection at the time of a match abandonment, the SGP will be treated as void. This rule applies where one or more Selections are still undecided at abandonment, and may have won or lost if the game had been completed as scheduled. For example, an SGP bet including an ‘Over Total Points’ Market, in a game abandoned while the total points are still below the required amount, will be treated as void. In this case, the ‘Total Points’ Selection was still undecided and may have won or lost but for the abandonment, so the bet will be voided.

13.7. Venue Change.
If the venue of a match is changed from the one advertised, all bets on that match will be voided.

14: BEACH SOCCER 14.1 General Rules. All Markets are considered for regular time only unless otherwise specified.

14.2 Interrupted/Postponed/Abandoned Matches.
All Markets on an interrupted or postponed match will be treated as void if the Event has been moved to more than 48 hours in the future. If a match is abandoned or interrupted all bets on undecided Markets are void unless the Result of a Market has already been determined.

14.3 Change of Venue/ Neutral Venue.
If the home and away team are reversed (match is played at the away team's ground) then bets will be void and full stakes will be refunded. If the venue changes to a venue other than the away team's ground but the home team is still designated as such, bets will stand. If a match is played at a neutral venue, whether indicated or not, bets will stand regardless of which team is listed as the home team.

15: BOWLS 15.1 Outright/Futures. Selections will be void on players or teams withdrawn prior to the start of an Event. BCLC reserves the right to use the Dead Heat Reduction rule when Settling the ’Outright’ due to the voiding of Non-Starters.

15.2 Match Markets.
If a match starts but is not completed then ‘Match Betting’ Selections will be void. In such circumstances all other bets on the match will be void unless their Result has already been unequivocally decided.

15.3 To win Xth End.
If an end is judged a tie, then all related Selections will be void.

15.4 Abandoned or Postponed Matches.
A match must be played within forty-eight hours of the original scheduled start time for bets to stand. If a match does not take place for whatever reason within this period, bets will be void.

16: BOXING AND MIXED MARTIAL ARTS (MMA) 16.1 General Rules. a) Once an official fight date is announced and displayed with the betting Event on the official promoter or organization’s website, bouts/matches must start and complete within thirty (30) days for Boxing; and seven (7) days for MMA of the initial scheduled date for bets to have action. b) Fights where betting is offered before the exact official fight date is known, may be initially listed with the Event date of December 31 (of expected year of fight), until an official date

announcement is made. Bets on these fights will stand, as long as the fight takes place in the current year, or within the following calendar year (e.g. bets placed on a fight listed on site

December 2021 will stand as long as the fight takes place up to and including December 31,
2022; after which point bets will be made void. Bets will be void where a fight is cancelled
before an official date is announced.

c) When the bell sounds for the beginning of first round, the fight is considered to have officially started.

d) If a fight does not take place and is declared as ‘’no contest’’ all Markets will be void. Bets on Markets where the outcome has already been determined will stand and get resulted accordingly.

e) If either fighter is replaced with another fighter all bets will be void and full stakes are refunded.

f) If a fighter fails to ‘’answer the bell’’ for the next round, then his opponent will be deemed to have won in the previous round.

g) If the number of scheduled rounds in a fight is changed;

i. Bets on ‘Fight Winner’ and ‘Fight Result’ stand.

ii. All other Markets including: ‘Method of Victory’, ‘Exact round of ending’, ‘Winner and exact rounds’, ‘Winner and Round’ range, ‘Will the fight go the Distance’ will be resulted as void.

h) Market Results are based on the official result announced in the ring. Settlement of bet is not affected if an official or unofficial sanctioning body overturns a fight decision based on appeal, drug testing result, lawsuit, suspension or any other fighter sanction. For all competitions, an exception is made if the amendment was made due to human error when announcing the result.

16.2 Fight Winner / Fight Result.

a) If the outcomes of the Market include only the two fighters and the fight ends in a draw, Selections will be void. If the draw is offered as a third option and the match ends in a draw, bets on the draw will be paid as winner, while bets on both fighters will be lost.

b) ‘Total Rounds Over/Under’ refers to the total number of completed rounds. The halfway point of a round is at exactly one minute and thirty seconds into a three-minute round; for up to 1 minute and 29 seconds play of a round, the result is determined as ‘under’. From 1 minutes and 30 seconds and after the result is determined as ‘over’. For a 5 minutes round, the half round point is 2 minutes and 30 seconds. For 2 minutes round, the half round point is 60 seconds.

16.3 Fight to Go the Distance.

A fighter goes the distance when he/she fights through to the end of all the scheduled rounds.

16.4 Method of Victory (Boxing).

a) KO, TKO or DQ.
Knockout (KO) in boxing is when the boxer fails to stand up after a 10 count. Technical Knockout (TKO) is the 3 knockdown rule per round or if the

```
referee steps in; TKO is declared
       when the referee decides, during a round, that a fighter
cannot safely continue the match for

actively defend themself or the fighter
       cannot safely continue the match for any reason. DQ is a win

For example, if a team with a total wins line of 9.5 has a 2-14 record at the end of the season, the one game that got cancelled would have no impact on the Result and bets will be Settled as win or loss. 25: SAME GAME PARLAY (SGP) NFL FOOTBALL MARKETS 25.1 Selection and Results. All NFL SGP Selections must win (no ties, draws or Pushes) for a bet to be a winner. A Selection that does not win, unless stated otherwise in the Game Conditions, will be Settled as a loss. For example, Selections on a team to win a match where it is a tie after overtime, even where the draw or tie may not have been offered through SGP, will be Settled as a loss. Similarly, 'Race to X' Selections where neither team reaches the selected score will be Settled as losers, regardless of whether a 'neither team to reach X' Selection was available as an alternate Market or not. If a quarter, half or game finishes scoreless, then touchdown or point-scoring Markets for that period (e.g. Player to Score a 1st Half Touchdown) will be settled as losers. SGP bets with one or more Selections that are deemed void, will be Settled (in full) as void, regardless of the number of Selections in the bet.

25.2 Overtime.
All NFL matches will be Settled on the official declared Result including any overtime.

25.3 2nd Half/ 4th Quarter Markets.
All SGP 2nd Half and 4th Quarter Market Selections do include overtime if it occurs. For example, a total
2nd Half points Selection would include the points scored in both the 2nd Half and overtime.

25.4 Player Markets.
All player Selections will be considered active if a player participates in at least one play at any point of
the relevant game, regardless of whether the Selection in question references a specific quarter/half of
the game. If a player does not take part in a single play on the field during a game, Selections specific
to that player will be void. For instance, a Selection on a certain player to score a touchdown in the
2nd-Half would be active (and therefore Settled as a loser) if that player played in the first play of the
match, was injured, and did not return to the game, regardless of having never been on the field during
the 2nd-Half. However, if that player was injured shortly before the game commenced and did not take
the field for any plays whatsoever, the Selection and therefore bet would be void.

25.5 Match Player Touchdowns.
Only players who score the touchdown will be credited with a touchdown for this Market, (For example,
for a passing touchdown, only the player receiving the pass and scoring the touchdown (and not the
Passer) qualifies as a touchdown scorer on the play. The Selection '1+' means one or more touchdowns
must be scored by the player to be Settled as a winner. The Selection '2+' means two or more
touchdowns must be scored by the player to be Settled as a winner etc.)

25.6 Both Teams Total Points/ Field Goals/ Touchdowns.

Each team listed must individually score over (or under depending on your Selection) the Total line in
the Market.to be a winner.

25.7 Postponed/ Incomplete Games.
Where a game is postponed or incomplete, and resumed within 48 hours of the original scheduled start
time, all SGP bets will stand. All bets placed on games played which commence more than 48 hours
past the originally scheduled start time will be void. Once the 48 hours have expired, all bets are void
and stakes will be refunded.

25.8. Abandoned Games.
If a game is abandoned prior to commencement, it falls within the 48-hour rule for postponed matches
as described above. If it is abandoned after commencing but before its natural end point, the following
rules apply:

a) Bets will be void if they include at least one Selection involving a player who has not yet taken part in at least one play on the field. The rules outlined below are all applied subject to and subsequent to the application of this rule.

b) If every Selection within an SGP bet on the game is already a winner where the fact of abandonment had no impact on the outcome of each Selection, the SGP bet in its entirety will be treated as a winner. For example, a 2-Fold SGP bet containing an over total points Selection and a certain player to score a touchdown, in a game where the required points have been reached and the player did score a touchdown before the game was subsequently abandoned, will be treated as a winner. In this case, the abandonment had no impact on either Selection. The same would not apply to an under total points Selection where a game is abandoned while the total score is still under the chosen number, as the abandonment would impact that outcome.

c) If a single Selection of an SGP bet has lost and a match is then abandoned, the bet will be treated as a loser, where regardless of the fact of abandonment, the Selection(s) in question had been irrevocably concluded. For example, an SGP bet including a ‘First Team to Score’ Selection, in a game where the other team scored first and the game was subsequently then abandoned, will be treated as a loser. In this case, the bet had already lost, and this outcome could not be affected in any way by whether the game was subsequently abandoned or not.

d) If there are no losing Selections within an SGP bet and at least one void Selection at the time of a match abandonment, the bet will be Settled as void. This rule applies where one or more Selections are still undecided at abandonment and may have won or lost if the game had been completed as scheduled. For example, an SGP bet including an ‘Over” Total Points’ Selection, in a game abandoned while the total points are still below the required amount, will be treated as void. In this case, the ‘Total Points’ Selection was still undecided and may have won or lost but for the

abandonment, so the bet will be voided.

25.9 Venue Change.
If the venue of a game is changed from the one advertised, all bets on that match will be voided.

26. FUTSAL 26.1 General Rules. All match Markets are based on the Result at the end of regular time. This includes any added injury or stoppage time but does not include extra time, penalty shoot-out or golden goal.

    26.2 Abandoned/ Postponed Matches. All Markets on an interrupted or postponed match will be made void if the Event has been moved to more than 48 hours in the future. A game must be completed in full for bets to stand, unless Settlement of bets is already determined.

27: GAA (GAELIC ATHLETIC ASSOCIATION) 27.1 General Conditions. a) Unless otherwise stated all Gaelic Sports bets are settled on regulation time, including injury- time but extra time does not count unless specified. Where a Market specifically includes overtime and the game finishes level after overtime then bets will be void. b) Bets will be settled on official GAA (Gaelic Athletics Association) result only.

c) If a match venue is changed, bets already placed will stand, unless home and away are reversed, then bets placed based on the original listing will be void.

Amendments can be made for any corrections to scores up to 24 hours after the initial Settlement of the Market. 27.2 Abandoned, Postponed or Shortened Event.
a) Should a tournament be shortened, or otherwise affected due to weather conditions the trophy presentation will govern Settlement of outright Markets, including ‘Tournament Groups’, ‘Place Only’, ‘Top 10’ provided the official minimum number of holes requirement has been satisfied. If the official minimum number of holes requirement is not satisfied then all bets on that Event will be void except bets that have already been decided (e.g. 'First Round 3-Balls');. Tournament Matchbets, Tournament Prop Bets and Player Tournament Prop Bets will be void except for bets on which the result has already been decided.
b) If some holes are played which do not contribute to the Result, all bets struck after the last official shot will be void, except for bets on Markets that have been unconditionally determined.

27.4 Futures (Outright) & Outright Winner.

a) When more than one player shares the same lowest score in a tournament and there is no play-off, then ‘Win/Place’ (Each Way) bets are Settled by the Dead Heat Reduction rule.

b) If there is a play-off then the result of the play-off will determine the winner of the tournament. Even if three or more contestants take part, such a play-off has the sole purpose of deciding the winner of the tournament (meaning that the relative finishing positions, within the tournament, of unsuccessful play-off contestants is not affected by their placing in the play-off).

c) For ‘Win/Place’ (Each Way) bets, Dead Heat Reduction rules apply. For example, if ‘Each Way’ terms are offered for a tournament and they are for the first four places, the three players tying for third place will be deemed to have Dead Heated for third, fourth and fifth place with one-third wager lost and two-thirds wager Settled at full place Odds for ‘Win/Place’ (Each Way) bets on those players.

27.5 Dead Heat.
When two or more Selections share one of the places BCLC permits the entry of both ‘win’ and
‘place’ Dead Heat Reductions.

27.6 ‘Futures/Outright’ Markets.

‘Futures’ or ‘Outright’ bets placed are Non-Starter No Bet and BCLC reserves the right to apply the
Non-Starter Deduction rule to reflect returning wagers on non-players.

27.7 Tournament Group & Tournament Match Markets

a) In ‘Tournament Group’ Markets the winner will be the player with the highest placing at the end of the tournament. Players missing the cut will be eliminated. If all listed players miss the cut the player with the lowest score at the cut will be deemed the winner. In the event of a tie, Dead Heat Reduction rules apply.

b) In ‘Tournament Match’ Markets the winner will be the player with the highest placing at the end of the tournament. If both players miss the cut, then the one with the lowest score will be deemed the winner. Bets are settled on complete rounds only and if all players fail to complete the first round all bets are void. If a player completes more rounds than his opponent, that player is deemed the winner regardless of scores. If both players fail to complete a round, bets are settled on the scores at the end of the last completed round. If the tournament is shortened, all bets are void unless the result has already been decided.

c). In ‘Tournament Match’ Markets, a tie voids all bets.
d) If a listed player is withdrawn or disqualified prior to both players teeing off in the match, then that match is void.
e) All ‘Top’ players (i.e. ‘Top European’ players, ‘Top US’ player etc.) are Settled in the same way as ‘Tournament Group’ Markets.

a) If a player in the ‘2 Ball’ or ‘3 Ball’ does not tee-off, all bets in that ‘2 Ball or ‘3 Ball’ are void. However should a player retire during the round, they will be deemed to have played and lost. If all players fail to complete the round bets are void.
b) The winner will be the player in the pairing or group with the lowest score over eighteen holes.
c) All bets will stand, irrespective of whether the players play in the same group or not.
d) If a player posts a score but is later disqualified, all bets will be Settled on the score that the player initially signs for that round. Signing of the card is deemed as the weigh-in and subsequent disqualification or amendment of result will be ignored for Settlement purposes.
e) If odds for a tie are offered in ‘2 Ball’ betting and there is a tie, bets on both players are non-winners and bets on the tie are winners. If there is no tie offered in ‘2 Ball Betting’ all bets are void in the event of a tie. Dead Heat Reduction rules apply if there is a tie in ‘3 Ball’ betting.
f) Any tournament that applies the stableford scoring system, the highest point scorer during the round will be deemed the winner.

27.9 To Make/Miss the Cut.

33.5 First Tryscorer .
Any Selection that does not take part in the match will be void, as will Selections where the player

33.8 Player Markets.
All player Selections will be considered active if a player takes to the field of play as an active player
at any point of the relevant match, regardless of whether the Selection in question references a
specific period of the match. If a player never enters the field of play during a match, Selections
specific to that player will be void. For instance, a Selection on a certain player to score in the second
half would be active (and therefore Settled as a loser) if that player played the first two minutes of a
match, was injured, and did not return to the game, regardless of having never been on the field
during the second half. However, if that player was injured shortly before the game commenced, was
withdrawn from the starting lineup (or substitutes) and never took the field, the Selection would be
void.

34: SAME GAME PARLAY (SGP) RUGBY LEAGUE MARKETS 34.1. Selection and Bet Results. All Rugby League SGP Selections must win (no ties, draws or Pushes) for a bet to be deemed a winner. A Selection that does not win, unless stated otherwise in the Game Conditions, will be Settled as a loser. For instance, Selections on a team to win a match where the game finishes in a draw, whether the

final Result has been determined with or without extra time, and even where the draw or tie may not have been offered through SGP, will be Settled as losers. Similarly, ‘Race to X’ Selections where neither team reaches the selected score will be Settled as losers, regardless of whether a ‘neither team to reach X’ Selection was available as a Selection or not. If a half or match finishes scoreless, then goal or point-scoring Selections such as First or Last Tryscorer for that period will be Settled as losers. SGP bets with one or more Selections that are deemed void, will be Settled (in full) as void, regardless of the number of Selections in the bet.

34.2. Extra Time.
All Rugby League matches will be Settled on the official declared Result including any extra time.

34.3 Second-Half Markets.
All second-half Market Selections do include extra time if it occurs. For example, a total second-half points Selection would include the points scored in both the second-half and extra time.

34.4. Player Specific Markets .
All player Selections will be considered active if a player takes to the field of play as an active player at any point of the relevant match, regardless of whether the Selection in question references a specific period of the match. If a player never enters the field of play during a match, Selections specific to that player will be void. For instance, a Selection on a certain player to score in the second half would be active (and therefore settled as a loser) if that player played the first two minutes of a match, was injured, and did not return to the game, regardless of having never been on the field during the second half. However, if that player was injured shortly before the game commenced, was withdrawn from the starting lineup (or substitutes) and never took the field, the Market and therefore bet would be void.

34.5 Postponed and Incomplete Matches.
Where a match is postponed or incomplete, and subsequently resumed or played within 48 hours (inclusive) of the original scheduled start time, all bets will stand. All bets placed on games played which commence more than 48 hours past the originally scheduled start time will be void. Once the 48 hours have expired, all bets are void.

34.6. Abandoned Matches.
If a game is abandoned prior to commencement, it falls within the 48-hour rule for postponed matches as described above. If it is abandoned after commencing but before its natural end point, the following rules apply:

a) SGPs will be void if they include at least one Selection involving a player who has not yet entered the field of play. The rules outlined below are all applied subject to and subsequent to the application of this rule.

b) If every Selection within an SGP on the game is already a winner where the fact of abandonment had no impact on the outcome of each Selection, the SGP in its entirety will be treated as a winner. For example, a 2-Fold SGP bet containing an ‘Over’ Selection on a ‘Total Points’ Market and a certain player to score a try, in a game where the required

points have been reached and the player did score a try before the game was subsequently abandoned, will be treated as a winner. In this case, the abandonment had no impact on either Selection. The same would not apply to an under total points Selection where a game is abandoned while the total score is still under the chosen number, as the abandonment would impact that outcome.

c) If a single Selection of an SGP has lost and a match is then abandoned, the SGP will be treated as a loser, where regardless of the fact of abandonment, the Selection(s) in question had been irrevocably concluded. For example, an SGP including a first team to score Selection, in a game where the other team scored first and the match was subsequently then abandoned, will be treated as a loser. In this case, the bet had already lost, and this outcome could not be affected in any way by whether the game was subsequently abandoned or not.

d) If there are no losing Selections within an SGP and at least one void Selection at the time of a match abandonment, the SGP will be treated as void. This rule applies where one or more Selections are still undecided at abandonment, and may have won or lost if the game had been completed as scheduled. For example, an SGP including an over Total Points Selection, in a game abandoned while the Total Points are still below the required amount, will be treated as void. In this case, the Total Points Selection was still undecided and may have won or lost but for the abandonment, so the bet will be voided.

34.7 Venue Changes.
If the venue of a match is changed from the one advertised, all bets on that match will be voided.

35: MOTORSPORTS 35.1 Postponed Events. All Markets on a postponed race or qualifier will be made void if the Event has been moved to more than 48 hours in the future. If any Selection does not take part in the warm-up lap, or ready to start from the pit lane then the Selection will be Settled as void. Individual race betting is settled on the Results of the podium presentation, regardless of any subsequent disqualifications. c) If a race is abandoned and no official result is declared, then all drivers for that race will be Settled as void. 35.3 Formula 1 and Rally Race matchups. a) Bets have action only when both drivers start the race. If both drivers do not finish the race, the driver completing more laps will be the winner of the matchup. b) If both drivers do not finish the race and both drivers completed the same number of laps, bets will be void. Subsequent penalties or demotions will not affect the resulting of Markets. 35.4 Championship Markets. Championship Markets are resulted after the final race of the season. 40: SOCCER 40.1 General Settlement Conditions. a) All bets are on the basis of 90 minutes play unless otherwise stated for that particular Market. In this sub-section, the phrase ‘90 minutes play’ includes regular time plus time added on by referee for stoppages. b) If a match finishes, before the completion of a scheduled 90 minutes play, unless otherwise is stated, bets will be void except for: • Bets of which the outcome has already been determined at the time of abandonment. Nevertheless, the market must be fully determined for bets to stand e.g. first player to score, first team to score, over 0.5 goals or time of the first goal bets will stand provided a goal has been scored at the time of abandonment. • Bets on whether a team advances in a cup competition, next round or raises the cup • In friendly matches, if the match is scheduled for 90 minutes but is completed early due to the referee’s decision, all bets will stand on the final result. This does not include abandonments, which will be treated as normal. c) Some Soccer matches may have a play format other than two 45-minute halves.              ii) the VAR review (and subsequent decision) altered
the decision made by the on-field
                  officials but did not have any material influence
on the bet(s) in question. All bets which
                  BCLC determines were not materially influenced by
the VAR review (and subsequent
                  decision) will stand.
    g) For clarity, BCLC will consider the VAR as having been used
if it may be implied from the
       referee's gestures (e.g. hand gestures or stopping the match
to review the incident themselves)
       or VAR usage is confirmed by the match report issued by the
official governing body who is
       ultimately responsible for oversight of the applicable match.
In cases where it is unclear
       whether the VAR has been used due to missing TV coverage or
conflicting reports, BCLC will
       Settle the bets in its discretion based on the information
acquired from feed providers and
       generally reputable online sources.
    h) Settlement will be at the Odds prevailing at the time the bet
was placed and confirmed. Dates
       and kick-off times of matches shown are for guidance purposes
only.
    i) If BCLC inadvertently offers bets in respect of which it is
impossible for the outcome to occur
       (for example, PlayNow.com continues to offer bets on a player
to be the first goalscorer after
       that player has been substituted), the Markets in question
will be void.
    j) The statistics provided by whoscored.com of the applicable
Event's governing body will be
       used to determine the Settlement of any Markets which are
placed on:
          i) a given player to achieve a certain number of shots or
shots on target,
          ii) the total number of offsides awarded in a match or
against a particular team,
          iii) the total number of shots on target achieved by both
sides, or either side, in a match,
                and
          iv) the total number of tackles made by either team in a
match.
    k) An ‘Offside’ is awarded to the player deemed to be in an
offside position where a free kick is
```

awarded. If two or more players are in an offside position when the pass is played, the player considered to be most active and trying to play the ball is given offside.

l) A ‘Tackle’ occurs where a player connects with the ball in a ground challenge where he or she successfully takes the ball away from the player in possession. The tackled player must clearly be in possession of the ball before the tackle is made in order to be counted.

i) A tackle is won where the tackler, or one of his or her team-mates, regains possession following the challenge, or where the ball goes out of play and is ‘safe’. A tackle is lost where a tackle is made but the ball goes to an opposition player.

ii) It is not a tackle, when a player cuts out a pass by any means.

iii) ‘Missed Tackles’ occur where a player attempts to challenge for the ball and does not make it, calculated by adding fouls with an attempted tackle qualifier to the number of times a player is beaten by a dribble (challenge lost).

m) ‘Clearance’ is a defensive action where a player kicks the ball away from his own goal with no intended recipient.

n) ‘Interception’ is where a player reads an opponent’s pass and intercepts the ball by moving into the line of the intended pass.

o) A ‘Blocked Pass’ occurs where a player tries to cut out an opposition pass by any means (similar to an interception except there is much less reading of the pass).

p) A ‘Block’ occurs where a player blocks a shot on target from an opposing player.

q) In the absence of an official source or when significant conflicting evidence for a Result is present, bets will be settled based on video and/or the feed provider scouting data with BCLC determining the final Result.

40.2 Enhanced Odds Specials.
Players may only bet on one ‘Enhanced Odds Special’ for any one match. BCLC reserves the right to void bets when Players have placed more than one bet.

40.3 Time of bets.
Bets on ‘Time of the First/Last Goal’, ‘Time of First Corner’, ‘Time of First Booking’ and ‘Interval’ Markets will be Settled as the time shown by the host TV broadcaster for the match.

a) For ‘Time of First Corner’, the time that the corner is taken will count.

b) For ‘Time of First Booking’, the time that the player is shown the card will count.

For ante-post bets, divisional play-offs do not count for the purposes of divisional ‘Win/Place’ (Each Way) bets (i.e. bets are settled on final league placing before play-offs). Any subsequent demotions or points deductions after the last game of the season on the basis All-in Play.

40.4 Abandoned, Postponed, Venue Changed or Unplayed Matches.

a) If a match has not started (or if BCLC believes that a match

will not have started) by 11:59 PM,
Event local time, on its scheduled start date and is postponed, then all Selections will be void
unless BCLC determines that the match has been rescheduled to be resumed within 48 hours
of its original start date.
b) If the venue of a match is other than is indicated on PlayNow.com, Selections will stand
provided the match has not been switched to the opponent's ground, in which case Selections
will be declared void.
c) If a match is interrupted/suspended but subsequently resumed (from the point in the match at
which it was interrupted) within 48 hours of the original scheduled kick off time, all bets will
stand. Otherwise, if the match is resumed post the 48 hours of the original scheduled kick off
time, all undecided bets will be void. If a match is interrupted and is replayed in full, all
undecided bets on the original fixture will be void and the decided ones will be Settled
accordingly.
d) If BCLC determines that the game will be resumed within 48 hours and the game is resumed
within 48 hours, then Selections placed before ‘Live Betting’ was offered for the original match
will stand and Settle based on the results of the replayed match. Selections placed during ‘Live
Betting’ on the original match will be void, except for any Selections placed during ‘Live Betting’
on Markets which have been unequivocally determined in the original match, which will stand.
This condition does not apply to bets involving ‘First Goalscorer’, which will stand provided a
goal has been scored prior to abandonment. Bets on ‘Last Goalscorer’ will be void in the event
of abandonment.

40.5 Change of match venue..
a) If the home and away team are reversed (e.g. match is played at the away team's ground) then
bets will be void and full stakes will be refunded.
b) If venue changes to other than to the away team's ground but the home team is still designated
as such, bets will have action and get resulted after end of match.
c) If a match is played at the away team’s venue but the home team listed is considered the home
team by the official governing body of that fixture, all bets will have action.

40.6 Neutral venue..
a) Whether indicated on our site or not, bets will stand regardless of which team is listed as the
home team.

40.5 First/Last Goalscorer.
a) Own goals do not count for Settlement. If the own goal is the only goal of the game, ‘no goal
scorer’ will be settled as the winner.
b) ‘First Goalscorer’ Market will be void if the Selected player does not take part in the game or
comes on after the first goal is scored.
c) ‘Last Goalscorer’ Market will be void if the Selected player does not take part in the game or
does not come on as a substitute.
d) If there is a dispute over the award of a goal for

‘First/Last Goalscorer’ or ‘Scorer Special Purposes’ Markets, Settlement will be in accordance with the result at the final whistle. Any subsequent changes to the result will be ignored for Settlement purposes.

40.6 Win/Place (Each-Way) First Goalscorer.

a) ‘Win/Place’ (Each Way) bets will be Settled on first goal, second goal, third goal, fourth goal and fifth goal only. Players who do not score until after the fifth goal has been scored will be treated as losing Selections. If less than five goals are scored in any given match BCLC will Settle bets on those goals that are scored. If no goals are scored, all ‘Win/Place’ (Each Way) bets will be deemed non-winners.

b) If a player enters the field of play after the first goal is scored, both the ‘Win’ and ‘Place’ part of the bet will be void unless the first goal is an own goal in which case bets will stand. If a player is sent off or substituted before the first goal is scored, bets on that Selection are deemed non-winners.

c) If a player scores the first goal of the match, both his or her ‘Win’ and ‘Place’ Selections are winners. If a player scores the second, third, fourth or fifth goal, only his or her ‘Place’ Selection is a winner.

d) A player cannot be ‘Placed’ twice (e.g. if he or she scores the second and third goal, only the second goal is deemed a winner).

e) ‘Win/Place’ (Each Way) bets on ‘No Goalscorer’, ‘Last Goalscorer’, ‘First Team Goalscorers’ and ‘Scorecasts’ are not accepted. If any such bets are taken in error then the full wager amount will be deemed a win-only bet.

f) Extra time does not count.

g) Own goals do not count. In cases where an own goal is one of the first five goals then the sixth goal will be Settled as a winner on the place part of the ‘Win/Place’ (Each Way) bet. If two of the first five goals are own goals then the sixth and seventh goals will be Settled as winners on the place part of the ‘Win/Place’ (Each Way) bet, etc.

40.7 Anytime Goalscorer.

40.8 Live Betting Goalscorer.

Own goals do not count for first, second or subsequent goalscorer. If any goal is an own goal, the result of the following goalscorer bet will count for the Settlement of the original one (e.g. second goal of the game is an own goal). The scorer of the third goal will be Settled as the winner for both the second goalscorer and third goalscorer bets.

40.9 Man of the Match.

a) For UK matches live on Sky Sports, the Market will be Settled based on who Sky Sports gives the award to during their live broadcast. If no award is made during the live broadcast the Result will be Settled on the player who is listed as the ‘Man of the Match’ in the match report on skysports.com. If the result on skysports.com is different

from the result of the Sky live
broadcast then the Markets will be Settled on the outcome of the live broadcast.

b) For live UK matches on BT Sports, Market will also be Settled in accordance to who the
broadcaster names during the program. In the case of BT games, if no player is named during
the program then all bets will be void. The player must be specifically named as the ‘Man of
the Match’, and not just simply referred to as such by one of the announcers.
c) For matches in other competitions that are broadcast live on Sky Sports as well as another
channel, preference for Settlement will be given to Sky Sports unless PlayNow.com has
specifically outlined for that bet, that the Result will be Settled on the official tournament or
sponsor award. Likewise, an official tournament or sponsor award outlined in the naming of the
Market will take precedence over the BT, BBC, and ITV pundits award.
d) Any player who takes the field for any part of a match will be considered as a Starter for
Settlement purposes. Only players not in the squad or unused substitutes will be considered
Non-Starters.

40.10 Number of Corners/Number of Goals/Number of Bookings.

substitutes) or have already been substituted off the field do not count.
c) If a match is abandoned then all Selections on these bets will be void unless the maximum
quote has been obtained. For example, should a Player bet ‘12 or More Corners’ in a match
and that match is abandoned when thirteen corners have already been taken, then that bet will
be Settled a winner with all other bets on corners non-winners.
d) Bets on 'Number of Corners' refers to corners taken and not corners awarded.

time it was awarded.
b) For ‘Odd or Even Corner’ Markets, zero is counted as an even number.
c) ‘Multi Corners’ refers to number of first half corners multiplied by number of second half corners.
d) ‘Team Multi Corners’ refers to number of first half team corners multiplied by number of second
half team corners.
Markets for ‘Race to X Corners’ will be Settled on whatever team reaches "X" corners first. For
example, a ‘Race to 3 Corners’ Selection will be Settled on the first team to take three corners
in the match.

40.12 Half-Time Result.
‘Half-time Result’ Markets are Settled on the result of a match at half-time including all injury and

b) If a player is shown a yellow card and subsequently sent off, this counts as thirty-five points.

40.14 Total Number of Cards/Most cards
a) Yellow card counts as 1 card and red or yellow-red card as 2.

40.17 Relegation.
If a team is relegated from a league because, at the end of a season, it has finished within the relegation positions which are relevant to that league, bets on that team to be relegated will be Settled as winning bets. If a team is otherwise disqualified, thrown out or removed from a league (i.e. in circumstances other than those where it has finished the season within the relevant relegation positions):
a) If such team is disqualified, thrown out or removed from the league before the relevant season has started, all bets on the affected Market will be void (and a new Market may subsequently be loaded), and
b) If such team is disqualified, thrown out or removed from the league after the relevant season has started (or a determination is made by the applicable governing body, during the season, that the team will be thrown out or removed from the league following the season's conclusion), all bets on the affected team will be void.
For the avoidance of doubt, if a points deduction is imposed on a team such that it finishes the season within the relegation places which are relevant to the applicable league, bets on that team to be relegated will be Settled as winning bets.

40.18 Scorecasts.
a) 'First Player to Score/Correct Score' parlay bet is available on Selected matches.
b) Winning bet on this Market must successfully predict both the player who will score the first goal in a Selected match and also the correct score after ninety minutes of play.

40.19 Shots on Target Specials.
For any bets involving a given player to achieve a number of 'Shots on Target', the final determination of whoscored.com will be used to determine the number of shots on target which the relevant player achieved. These bets are Settled on the basis of ninety minutes of play (plus injury time) unless otherwise stated. A 'Shot on Target' is any goal attempt that:
a) goes into the net regardless of intent; or
b) was a clear attempt to score that would have gone into the net but for being saved by the goalkeeper or being stopped by a player who is the last-man with the goalkeeper having no chance of preventing the goal (last line block).
Shots directly hitting the frame of the goal are not counted as

‘Shots on Target’, unless the ball goes in
and is awarded as a goal. Shots blocked by another player, who is
not the last-man, are not counted
as ‘Shots on Target’.

40.20 Mythical Matches.
‘Mythical Match’ Markets are offered on the highest number of goals, corners or yellow cards (as
applicable) achieved by, or awarded to, two teams who are playing in different matches. For example:
where matches are due to occur between team “A” and team “B” (on the one hand) and team “C” and
team “D” (on the other), BCLC may offer a ‘Mythical Match’ Market on whether, within those matches,
Team “A” scores more goals, or is awarded more corners or yellow cards, than Team “C” (even though
those teams are playing in separate matches).The winning Selection is the team with the highest
number of goals, corners or yellow cards compared to its mythical opponent in their respective next
fixtures.

If both teams score the same number of goals, then ‘Draw’ is the winning Selection.

The respective next fixtures of both teams are provided on PlayNow.com. If a team’s next fixture is
played on a different day from that provided on PlayNow.com, all ‘Mythical Match’ Markets involving
this team will be void.

A team’s next fixture must be completed and have its result upheld by the competition’s official
governing body (e.g. the FA Premier League) in order for ‘Mythical Match’ bets involving this team to
stand. In the case of a fixture not starting or being shortened due to external factors, all ‘Mythical Match’
Markets involving either of the two competing teams will be void.

In the case of a fixture not starting or if a match official shortens a match for any reason all ‘Mythical
Match’ Markets involving either of the two competing teams will be void.

40.21 Double Chance.
Normal ninety minute conditions apply. A ‘Double Chance’ bet allows a Player to cover two of the three
possible outcomes in a soccer match with one bet. For example:
    a) If Player chooses ‘home team’ and ‘tie’, the bet is a winner if the home team wins or ties the
        match.
    b) If Player chooses ‘visitor team’ and ‘tie’, the bet is a winner if the visitor team wins or ties the
        match.
    c) If Player chooses ‘home team’ and ‘visitor team’, the bet is a winner if the home team or the
        visitor team wins the match.

40.22 Goal Minutes.
    a) The ‘Goal Minutes’ bet is the total of the time, measured in minutes, of each goal scored. Goal
        minutes will be rounded up to the next whole number. For example, a goal scored at twenty-
        three minutes and twenty-five seconds will be Settled as the twenty-fourth minute.
    b) All injury time goals will be counted as either forty-five minutes for injury time at the end of the

first half or ninety minutes for injury time at the end of the second Half.

For ‘Team Goal Minutes’, own goals count for the team that are awarded the goal.

40.23 Insurebet First Goalscorer.

score the first goal of the match. If the player fails to score the first goal of the match but does score a
goal in the match then the wager is returned.

40.24 Futures/ Outright Markets.
For ‘Futures’ or ‘Outright’ Markets, divisional play-offs do not count for the purposes of divisional
‘Win/Place (Each Way) betting (e.g. bets are Settled on final league placings before play-offs). Any
subsequent demotions or points deductions after the last game of the season will not apply.

40.25 Who will win the League/ Who will finish higher in the League.
Result based off regular season game results only.

40.26 Insurebet Futures/Outrights.
Odds offered are for the team to win the tournament. If the team fails to win but finishes second then
the wager is returned.

40.27 First and Anytime Assist.
For the purpose of Settlement, results will be obtained from statbunker.com. In the case where
statbunker.com does not offer a result for the assist of the first goal then the bet will apply for the second
goal (and continue on to the third goal and so on) until an assist is awarded for a goal. In addition:

a) Own goals count for Settlement purposes where the preceding touch was by a member of the attacking team.

b) If a player wins a penalty or a free kick that leads to a goal, it does not count as an assist.

c) If a player enters the field of play after the first goal is scored and an assist is awarded for that goal, the bet will be void. If a player is sent off or substituted before the first goal is scored and an assist is awarded for that goal, bets on that Selection are deemed non-winners.

d) Bets taken on ‘First Assist’ will be void if that player does not take part in the game, or if he or she comes on after the first goal is scored and an assist is awarded for that goal.

e) If a goal is scored directly from a penalty kick without assist, the player to have been fouled for the penalty or to have played the final ball before the penalty was awarded is deemed to be the winner unless that player has also scored the penalty.

f) If no goals are scored in the match or statbunker.com does not award any assists for any of the goals scored then all Selections in the bet will be Settled as non-winners.

40.28 Wincast.
Selections which successfully predict both a player to score in a Selected match and the match result
after normal time will be winners. If a player is selected who takes no part in the match then Market
will be void regardless of the match result. If the relevant match is abandoned, Market will be void.

40.29 Next Minute Markets.
‘Next Minute’ Markets may be available during ‘Live Betting’ on certain matches on ‘What Will
Happen’ in the next minute (or in the minute-long period as displayed in the Market). Settlement will
use the time of the Event supplied to BCLC by its data provider, which BCLC will select at its sole

discretion from time to time. If none of the stated outcomes occur during the stated period, all
Selections will be Settled as a non-winner.

a) For the ‘Goal’ Selection, a goal will be deemed to have been scored the moment the ball completely crosses the goal-line within the confines of the goal posts, provided that the referee ultimately awards the goal. For example, if the ball completely crosses the goal-line but the goal is not awarded because a foul occurred before the ball crossed the line or because the referee did not believe that the ball crossed the line, then a goal will not be deemed to have been scored. Own goals scored will count towards Settlement of this Market.

b) For the ‘Free Kick’ Selection, a free-kick will be deemed to have been awarded the moment the referee and or assistant referee signal any of the following:

i) a direct free-kick following a foul,

ii) an indirect free-kick following a foul or offside offence, or

iii) a penalty kick, other than a corner or drop ball.

c) For the ‘Corner’ Selection, a corner will be deemed to have been awarded the moment the referee or assistant referee signal for the award of a corner.

d) For the ‘Goal Kick’ Selection, a goal kick is awarded and timed according to when it was indicated by the referee or assistant referees. A kick out from the hands of the goalkeeper or a free kick taken by the goalkeeper is not a ‘Goal Kick’.

e) For the ‘Throw In’ Selection, a throw in will be deemed to have been awarded the moment the referee and or assistant referee signal the award of the throw in.

40.30 10 Minute Markets.

a) ‘Goal Scored X – Y’ Markets are bets on whether there will be a goal scored by one of the teams within a specified time period (e.g. time X to time Y) of the Event’s match clock. Only goals scored within that time period will count for Settlement. Selection needs to win by the number of goals specified in the bet.

b) ‘Corner Awarded X – Y’ Markets are bets on whether there will be a corner awarded to one of the teams within a specified time period (e.g. time X to time Y) of the Event’s match clock. Only corners awarded within that time period will count for Settlement.

c) ‘Card Shown X – Y’ Markets are bets on whether there will be a yellow or red card shown to a player within a specified time period (e.g. time X to time Y) of the Event’s match clock. Only cards shown within that time period will count for Settlement.

SGP bets placed on Soccer apply to 90 minutes plus injury time, unless stated otherwise in Game Conditions that the bet applies to extra-time and/or penalties. If any individual Selection is void, or a player who is a Selection in the bet does not take any part in the match, then the whole bet will be made void, regardless of the rest of the Selections within the bet.

41.2 Change in Venue.
BCLC reserves the right to Void any bets on events where the venue is changed after the publication
of Odds.

41.3 Subsequent Changes.
All Markets will be Settled on the result of the match on the day that it is played and completed. Any
results that are changed retrospectively, for example: dubious goals panel reviews, results reversed for
ineligible players, will not alter the Settlement of the Market.

41.4 Abandoned Events.
If an Event is abandoned, any bets where the outcome has already been decided (e.g. Half-time Result
or First Team to Score) will stand. All other bets will be made void regardless of the score-line at the
time of abandonment. Abandoned matches will be deemed to be matches which do not reach their
natural conclusion by midnight local time. Matches where a referee removes the players from the field

of play for a temporary period, but the remaining minutes of play take place by midnight local time on
that same day, will not be deemed as abandoned.

41.5 Postponement.
Any Event that has had its kick-off date/time altered well in advance (e.g. to accommodate live TV or
to ease fixture congestion) will not be considered as postponed.

41.6 Neutral Venues.
For matches played at a neutral venue, all bets will still count regardless of the order the teams are
listed and whether we have indicated it is as being played at a neutral venue.

41.7 Bet Period Rules. All below periods (a-f)) are periods that can be taken with Markets listed in Section 30.7 below. For example, taking 90 Mins (2.2) period with ‘Who will win?’ (3.1), you are betting on the result over the entirety of the match (90 Mins plus injury time). a) 90 Mins – This refers to the entirety of the match. All bets involving 90 Min Selections apply to 90 minutes plus injury time. Match officials determine whether the full 90 minutes and injury time is to be played or has been played. Any Event occurring before the official start of the match, during the half-time break (any time after the whistle for half-time and before the start of the 2nd-Half) or after the final whistle do not count. b) 1st 10 Mins – This refers to the first 10 minutes of the match (00:00 and 09:59). For example, a corner awarded in this period but not taken until after 10:00 will not count. Any Event that occurs 10:00 or later within the match will not count. Any Event occurring before the official start of the match does not count. c) 1st-Half – This refers to the first-half of the match only, including any injury time minutes played within it. Any Event occurring before the official start of the match or during the half-time break (any time after the whistle for half-time) will not count. d) 2nd-Half – This refers to the 2nd-Half of the match only, including any injury time minutes played within it. Any Event occurring before the 2nd-Half (1st-Half or during the half-time break) or after the final whistle will not count. e)

Each half – This refers to an Event happening in both halves of the match. If the chosen Event happens in neither half nor within only one of the halves this will be deemed a losing Selection. Any Event occurring before the official start of the match or during the half-time break (any time after the whistle for half-time and before the start of the 2nd-Half) or after the final whistle will not count. For any player 'each half' period bets, if the player plays in any part of the 1st-Half then this Selection will stand. If they don't play in the 1st-Half, then this Selection will be voided. f) Either half – This refers to an Event happening in one, or both halves of the match. If the chosen Event doesn't happen within the match this will be deemed a losing Selection. Any Event occurring before the official start of the match, during the half-time break (any time after the whistle for half- timeand before the start of the 2nd-Half) or after the final whistle will not count. For any player related bets in relation with 'either half', if the player participates at any point in the match then this Selection will stand. For example, for a player to score either half, if they score in the 1st-Half but do not play in the 2nd-Half, this will be a winning Selection. If they don't play in the match at all, then this Selection will be voided.

41.8 Bet Type Settlement Rules.
Selections are as follows:

LQ rules:

Mise-o-jeu+ is governed by the By-law respecting forecast contests and numbers games, which includes
limitation of liability.

A. General Rules The General Rules are applicable at any time as long as they are not modified by the Specific Rules applicable to certain types of events (section B).

    1. Selections

        1.1 For each selection, make your predictions by answering up to a maximum of 12 questions contained in the Mise-o-jeu+ Betting Offer in effect. Each question concerns the performance of individuals, teams or other contingencies related to sports or other events. For the purposes of these rules, “event” means any event, part of an event (e.g. a period of a hockey match, first half of a football match) or other contingencies, as determined by Loto-Québec and being the subject of a question.

        1.2 In order for a selection to be a winning selection, and subject to the following, at least one prediction of the selection must relate to a completed event as defined below, and all of the predictions on “completed” events must be accurate according to Loto-Québec’s official results. If no event referred to by a selection is “completed”, the selection is void and the participant is only entitled to a refund of the amount wagered on that selection.

          Moreover, a prediction may be accurate only if at least two individuals or teams concerned

by a same question have taken part in their respective “completed” event, failing which that prediction is void and cannot be a part of a winning selection. In cases where this condition is met, but where one or several individuals or teams referred to by such prediction do not take part in their respective “completed” event in accordance with the Specific Rules, only the predictions on such individual(s) or team(s) shall be considered void and cannot be a part of a winning selection.

For questions related to opposing individuals who should take part in a same event consisting of only one match, if the two individuals don’t face each other during a same event consisting of only one match, any prediction on such individuals is considered void and cannot be a part of a winning selection.

1.3 Subject to the Specific Rules, an event is “completed” in all cases where a result or final score or score that is considered final is determined as such by the authorities in charge of the event in question and Loto-Québec issues an official result for that event. All other event is deemed to be not completed and a prediction on such event is void and cannot be a part of a winning selection, except for predictions on any questions whose outcome has been unconditionally determined. 1.4 Where a question relates specifically to a part of an event (e.g. the second period of a hockey match, the first five innings of a baseball match, the first half of a football match, or a portion of a non-sporting event), the outcome of the question is determined solely by what occurs during that part of the event, without consideration to what happens in the remainder of the event. Unless otherwise stated, the results are therefore determined by excluding overtime period (or extra time, extra innings, shootouts or other), if applicable.

1.5 Unless otherwise indicated or where Live Betting is concerned, the continuation of a suspended event started on a previous date is never part of the daily Mise-o-jeu+ Betting Offer.

1.6 Unless otherwise stated in the Specific Rules, if an event is not played at the venue advertised, all predictions on this event remain valid as long as the venue has not been changed to the opponent’s team’s ground, in which case the predictions are void and cannot be part of a winning selection. However, Loto-Québec reserves the right to void any prediction on an event where it is determined that a change of venue has had a significant impact on the odds.

1.7 The team indicated first (left) in the Mise-o-jeu+ Betting Offer is considered to be the “away” team, and the team indicated second (right) is considered to be the “home” team.

1.8 When an event is played on neutral venue, whether or not indicated in the Mise-o-jeu+ Betting Offer and regardless of which team is considered the “home” team, all predictions on this event remain valid.

2. Live Betting (bets on an event in progress)

2.1 All information provided by Loto-Québec in the “Live Betting” section of the Mise-o-jeu+ Betting Offer in connection with an event, such as scores during a match, is provided for information purposes only. Loto-Québec shall not be held in any way liable for the accuracy of this information and declines any responsibility with regard to the bets registered on the basis thereof.

3. Dead Heat Rule

3.1 Unless otherwise specified, the Dead Heat Rule applies when a question’s outcome constitutes a tie between two or more players or teams and such an outcome is not offered for said question. In such case, the odds corresponding to your prediction on such individuals or teams will be divided by the number of players or teams tied.

3.2 However, if a question’s outcome constitutes a tie between all the players or teams having taken part in their “completed” event, any prediction relating to the question is considered void and cannot be a part of a winning selection.

4. Cashout

4.1 When available, the Cashout option allows the opportunity to fully withdraw a bet at the displayed value (“Cashout”) before all the events of which it is composed are finished and cash out a portion of the potential return.

4.2 A Cashout offer is subject to a time delay; odds changes or question suspensions during this time may result in a new Cashout offer being made or the removal of the Cashout offer.

4.3 In the event of an error as described in Section 6.3, the affected selections may not be cashed out. If Cashout has been accepted in error, such Cashout transaction are void. In such case, the prediction(s) associated with wrong odds are void and the remaining predictions will remain valid and their outcome will be determined in accordance with the present rules.

4.4 In the event an incorrect amount being offered is subsequently cashed out, then the Cashout transaction are void and the predictions will remain valid and their outcome will be determined in accordance with the present rules.

5. Early Payout

5.1 When available, Early Payout applies only to bets placed pre-game. The goal or point lead required for Early Payout may vary by sport and eligible event.

5.2 When Early Payout is available, a bet will be a winner if the team selected takes the required goal or point lead at any point during the game. The bet will be settled once the applicable settlement delay and any additional Early Payout delay have elapsed.

5.3 Notwithstanding anything to the contrary in these Rules, once the applicable settlement delay has elapsed, the score that triggered Early Payout is considered final for settlement purposes, regardless of any subsequent change in the score.

5.4 Bets on a draw or tie are not eligible for Early Payout.

6. Register a selection

6.1 Except for Live Betting, the cut-off date and time or the remaining time to register a prediction are specified in the Mise-o-jeu+ Betting Offer in connection with each event (“time limit”) and can be revised by Loto-Québec at any time, at its discretion.

6.2 Check all your selections information. ONLY SELECTIONS REGISTERED IN THE CENTRAL COMPUTER SYSTEM PARTICIPATE IN THE GAME.

6.3 Subject to the terms of the Cash Out feature, a registered selection cannot be cancelled or changed.

7. Determination of results

7.1 The results are determined by Loto-Québec in accordance with the present rules and at a time of its own choice. Loto-Québec does not recognize protest(s), overturned decisions or amended results after it has entered the final result of the event into the on-line system.

7.2 A void prediction is a prediction that is cancelled. A prediction that has been void cannot be a part of a winning selection.

7.3 A prediction may be void due to an error. For the purposes of these rules, such errors include:

a. Obviously wrong odds (including due to an incident, public announcement or delayed video replays that affect or should have affected significantly the odds, as well as due to delayed or failing live coverage (Live Betting));
b. Error in the Betting Offer, such as incorrect events, teams or players, spread or total;
c. When the event’s integrity has been jeopardized;
d. When an event does not follow the sport’s generally accepted format and rules (e.g. unusual period length or match duration, points counting procedure, format of a match, less than the maximum allowed players, distance of a race, number of periods etc.).
e. In case of an incorrect result entry, Loto-Québec reserves the right to correct it anytime and therefore make corrections by deducting or adding funds to any affected Espacejeux account.

8. Maximum Payout limit

8.1 Subject to the application of the “Dead Heat Rule” and Same-Game Combos “SGC” below, the amount to be won for each winning selection (“potential return”) is equal to the product of the odds indicated in the Mise-o-jeu+ betslip multiplied by the amount wagered (e.g. 1st odds X 2nd odds X wager).

8.2 In the case of Same-Game Combos, the amount to be won for each winning selection (“potential return”) is equal to the odds indicated in the betslip, multiplied by the amount of its stake.

8.3 Notwithstanding the above, in the case of Same Game Combos, the amount to be won for each winning selection (“potential return”) is equal to the odds indicated in the ”SGC” section of the Mise-o-jeu+ Betting Offer with respect to accurate participant predictions, multiplied by the amount wagered.

8.4 However, in any case, regardless of the number of winning selections or the total value of potential returns of such selections, each participant is subject to a cumulative maximum payable prize limit for all his winning selections in a same day (the “Maximum Payout Limit”). For the purposes of the determination of the

Maximum Payout Limit, the payable prizes limit for a winning selection of a participant is set based on the prediction contained in such selection corresponding on the question with the lowest limit, in accordance with the following terms:

Baseball, Basketball, Football, Hockey, Boxing, MMA, Golf, Soccer, Tennis

$250,000 for any question relating to a match (fight or round), to the performance of a team or tennis player or golf player during a season, to the playoffs or to the winning team or winning player of a cup or championship (outright).

(for example relating to the next manager), to the draft lottery, to players transfers, to players
exchanges, to the signatures of players and any other question that is not related to the
outcome of a match, a league or a tournament.

Other sports and non-sporting events:
$50,000 for any question.

9. Other general provisions

9.1 If a match (including a part of a match) or a non-sporting event referred to by a question starts before the time limit, or if a result associated with a question is announced or known before the time limit, only the predictions regarding that match or event, registered before the actual beginning of the match or event or before the announcement or knowledge of the result are valid.

9.2 Loto-Québec may, at any time and at its discretion, modify the odds of the Betting Offer. The odds applicable at the time of the transaction take precedence over any other odds associated with any of your predictions. For the purposes of these rules, “transaction” means transaction that leads to the registration of a selection in the central computer system.

8.3 Loto-Québec cannot guarantee that the odds of a selection will at all times be higher than the odds of this same selection made up elsewhere in the betting offer.

8.4 Loto-Québec may, at its discretion and at any time, refuse to accept part or all requested bets and to perform a transaction bearing any selection or any question which it may determine, for any reason whatsoever, in which case the Participant is only entitled to a refund of his stake. Without limiting the generality of the foregoing, Loto-Québec reserves the right, in its discretion, to increase or decrease the limit on the amounts that may be wagered, at any time and without notice.

8.5 Loto-Québec may, at its discretion and at any time, remove or suspend a question, event or possible outcome to a question.

8.6 Free Bets cannot be redeemed for cash. In the event a wager includes Free Bets, the Free Bet amount wagered is deducted from the potential return.

8.7 Loto-Québec may amend the Mise-o-jeu+ Rules at its discretion at any time.

8.8 Loto-Québec may change the Betting Offer, betting limits, and payable prizes limits at its discretion at any time.

8.9 Unless otherwise stated, Mise-o-jeu+ is in no way authorized, sanctioned or sponsored by
sports league or any of its teams, nor by any player, athlete, personality or other person or entity

connected thereto.

10. Main Questions Rules

10.1 Match or Event winner

Predict the winner of the event.

a. Match or event winner with 2 outcomes
For questions offered with only 2 outcomes, the results are determined by including
overtime periods, extra innings, shootouts or other if applicable. If however the event
ends in a draw, the predictions on such question shall be void and cannot be part of a
winning selection.

b. Match or event winner with 3 outcomes
In the event that a “draw” outcome is also offered, the results are determined by
excluding any overtime periods, extra innings, shootouts or other, if applicable.

10.2 Draw No Bet

Questions are offered with only 2 outcomes, and, unless otherwise stated, the results are
determined by excluding any overtime periods, extra innings, shootouts, or other, if
applicable. If the event ends in a draw, the predictions on such question shall be void and
cannot be a part of a winning selection.

10.3 Spread Questions

Predict the winner of the event, applying the given spread. For questions with spreads, Loto-
Québec sets out in the Mise-o-jeu+ Betting Offer a number (the spread) used to determine
by how many goals (or points, strokes or other) a team or player must beat his opponent for
a prediction to be accurate.

a. 2-way Spread
For 2-way spread questions, 2 outcomes are offered. If the question’s outcome
constitutes the exact spread sets out in the Mise-o-jeu+ Betting Offer, any prediction
related to the question shall be considered void and cannot be a part of a winning
selection.

Examples:
American Football: “Team A +3” vs. “Team B -3”. You make a prediction on “Team B -3”.
Your prediction will be accurate if Team B wins the game with a margin of more than 3
points. Your prediction will be lost and a prediction on Team A will be accurate if:

(1) Team B wins the game by less than 3 points, (2) the game is a tie (draw), or (3) Team A wins the game. If Team B wins with exactly 3 points, your prediction are void.

Basketball: “Team A -2.5” vs. “Team B +2.5”. You make a prediction on “Team B +2.5”.
Your prediction will be accurate if: (1) Team B wins the game, (2) Team B loses the game
by 2 points or less or (3) the game is a tie (draw). Your prediction will be lost and a
prediction on Team A will be accurate if Team B loses the game by

more than 3 points.

b. 3-way Spread For 3-way spread questions, a “draw” outcome is also offered.

Example 1: “Team +1” vs. “Team -1”, with a draw outcome “Draw -1”:

You make a prediction on “Team -1”. Your prediction will be accurate if this team wins the game with a difference of 2 goals or more.

You make a prediction on “Team +1”. Your prediction will be accurate if: (1) this team wins the game or (2) the game is a tie (draw).

You make a prediction on “Draw -1”. Your prediction will be accurate if the “home” team wins the game with a difference of exactly 1 goal.

If the draw outcome is rather “Draw +1”:

You make a prediction on “Draw +1”. Your prediction will be accurate if the “away” team wins the game with a difference of exactly 1 goal.

Example 2:

“Team +2” vs. “Team -2”, with a draw outcome “Draw -2”:

You make a prediction on “Team -2”. Your prediction will be accurate if this team wins the game with a difference of 3 goals or more.

You make a prediction on “Team +2”. Your prediction will be accurate if: (1) this team wins the game (2) the game is a tie (draw) or (3) this team loses the game by a difference of 1 goal.

You make a prediction on “Draw -2”. Your prediction will be accurate if the “home” team wins the game with a difference of exactly 2 goals.

If the draw outcome is rather “Draw +2”:

You make a prediction on “Draw +2”. Your prediction will be accurate if the “away” team wins the game with a difference of exactly 2 goals.

10.4 Total (Over/Under)

Predict if the total number of points (or goals, runs, games, shots, minutes played, hits,
rebounds, bases, strikeouts or other) scored during the event(s) specified in the question will
be over, under or equal to (if an “exact” outcome is offered) the number sets out in the Mise-
o-jeu+ Betting Offer. Loto-Québec then determines the outcome of these questions based
on whether the total number of points scored during the event(s) concerned is greater (+),
lesser (-) or equal to the indicated number.

Where an event is abandoned and considered non completed in accordance with these rules,
if the total number of points (or goals, games, hits, minutes played or other) made at the
moment of the abandon is greater than the total indicated in the Mise-o-jeu+ Betting Offer,
the event will be deemed to be completed regarding these questions and the result or score
at the moment of the abandon will be considered final for the

purposes of determining the
 results by Loto-Quebec.

 a. 2-way Total
     For 2-way total questions, 2 outcomes are offered. If the question’s outcome constitutes
     the exact total set out in the Mise-o-jeu+ Betting Offer, any prediction related to such
     question shall be considered void and cannot be part of a winning selection.
 b. 3-way Total
     For 3-way total questions, an “exact” outcome is also offered.

10.5 Double Chance

 Predict two of the three possible outcomes of an event in only one question. The following
 possible outcomes are offered:

 “Team A or Draw”: Your prediction will be accurate if Team A wins the match, or if the
 match ends in a tie.
 “Team B or Draw”: Your prediction will be accurate if Team B wins the match, or if the
 match ends in a tie.
 “Team A or Team B”: Your prediction will be accurate if Team A or Team B wins the match.

 The results are determined by excluding any overtime periods, extra innings, shootouts or
 other.

10.6 Winning Margin

 Predict the winner of the event and the margin of points (or goals or other) by which the
 event will be won.

10.7 Half-time/Full-time

 Predict which team will lead the event at halftime and the winner of the event. The results are determined by excluding any overtime periods, extra innings, shootouts or other, if applicable. In baseball, half time is defined as the first 5 innings of a game.

10.8 Race to X points (or goals, runs, games, corners or other)

  Predict which team or player will be the first to score the number of points (or goals, runs,
  games, corners or other) specified in the question during an event.

  If no team or player reaches the specific number of points at the end of the event and such
  outcome is not offered, any prediction related to the question shall be considered void and
  cannot be part of a winning selection.

10.9 Highest scoring half/quarter/period (points, goals or other)

  Predict in which half (or quarter, period or other) of an event most points (or goals or other)
  will be scored. If two or more halves (or quarters, periods or other) have the same highest
  score and the “equal” outcome is not offered, the Dead-Heat rule will apply.

10.10 Odd/Even

  Predict if the total number of goals (or points, runs or other)

scored during the event will be
an odd or even number. A score of zero (for example no goals are scored), is deemed to be
an “even” number. If an event is abandoned, predictions on such question are void, except
for predictions on any questions whose outcome has been unconditionally determined.

10.11 To Win To Nil

Predict which team or if a team will win the event by shutout.

Unless otherwise stated, the results are determined by excluding overtime periods, extra
innings, shootouts or other, if applicable.

10.12 Outrights / To Qualify / Win the Cup / Advance to Next Round/ Win the Group

Predict which or if a team or player will accomplish the indicated action or which will win the
event. If a team or player is disqualified from the event prior to a match, and a bye is awarded,
the event will be deemed to be not completed and all predictions on such event are void and
cannot be part of a winning selection. In the event of a change during the event in the official
competition rules (for example, if there is a change in the number of teams relegated), Loto-
Québec reserves the right to void any prediction on such question.

One-leg match: If the referee declares a match as abandoned (for example due to crowd
disturbances, unplayability of the pitch, or one team not having enough players to continue),
the match will be deemed to be completed and the question’s outcome will be determined
in accordance with the official results of the relevant league’s governing body.

10.13 Division Betting

Predict which team will win the division. In the event of a change during the event in the official competition rules (for example, if there is a change in the number of teams relegated), Loto-Québec reserves the right to void any prediction on such question.

Question’s outcome is determined in accordance with official standings of the relevant
league’s governing body. If, according to the official standings, two or more teams are tied,
the Dead-Heat rule will apply.

Subject to the Specific Rules, if a team does not complete all of its matches and such matches
are considered not completed in accordance with these rules, the event will be deemed to
be completed regarding this question and the standing at the end of such event will be
considered final for the purposes of the determination of the results by Loto-Québec. If a
team is disqualified or excluded during the season, then all predictions on such team shall be
void and cannot be part of a winning selection.

10.14 Head-to-Head (H2H) and Triple Head (H3H) Betting

Predict which one of the teams or players will achieve the best finishing result (or position,
points or other) at the end of the event. All teams or players

in a H2H or H3H have to take
part in their respective event for predictions to be valid, and, when applicable, at least one
of the teams or players has to complete the event. Otherwise, any prediction related to such
question shall be void and cannot be part of a winning selection.

Season H2H and Season H3H: Predict which one of the teams or players will achieve the best
finishing result (or position, points or other) at the end of the season. Play-offs are not
included, unless otherwise stated. Question’s outcome will be determined in accordance
with the official standings of the relevant league’s governing body. If, according to the official
standings, two or more teams or players are tied, the Dead-Heat rule will apply.

10.15 Correct Scores

Predict the points (goals or others) scored by both teams during the event specified in the
question. Unless otherwise stated, the results are determined by excluding any overtime
periods, extra innings, shootouts or other, if applicable.

If the score at the end of such event is not offered as an outcome for the question and the
"Other" outcome is also not offered, any prediction on this question is deemed to be a loser.

11. Same-Game Combos (SGC)

Predict the outcome of more than one prediction during a same event.

The overall odds associated with the SGC is displayed in the calculator. It is calculated based on the predictions chosen but does not represent the product of the odds of each chosen prediction.

Notwithstanding anything to the contrary in these rules, if at least one prediction of the SGC is considered void, the SGC is considered void (notwithstanding the number of predictions contained in the SGC) and the participant is only entitled to a refund of the amount wagered on this SGC.

Notwithstanding anything to the contrary in these rules, for a SGC to be a winner, all predictions
composing it must be winners. If the result of a prediction is not offered as an outcome for such
question, this prediction is deemed to be the loser.

12. Boosted SGC

Notwithstanding anything to the contrary in these rules, if at least one prediction of a selection of the boosted SGC section is considered void, the selection is considered void (notwithstanding the number of predictions contained in the selection) and the participant is only entitled to a refund of the amount wagered on this selection.

A selection from the boosted SGC section cannot be combined with any other prediction.

13. Combo boost

When offered, the combo boost will apply to a main combo with three (3) predictions or more registered before the start of the game.

Odds for all predictions in a combo boost selection must be higher than 1.10.

If a combo boost selection is a winning selection, the potential winning boost of 3% to 20% will apply based on the number of predictions in the combo boost. See the boost percentage breakdown below.

Boost Percentage Breakdown Combo with 3 predictions: 3% Combo with 4 predictions: 5% Combo with 5 predictions: 8% Combo with 6 predictions: 10% Combo with 7 predictions: 15% Combo with 8 to 12 predictions: 20%

If a prediction within a combo boost selection is considered void, the number of winning predictions will determine the final boost percentage. For example, a 7-prediction combo with one prediction considered void will qualify for a 10% boost (as would a 6-prediction combo selection).

The maximum boost amount is $10,000.

If a selection is cashed out, the boost does not apply.

Bets placed using Free Bets or Boosted odds do not qualify for a boost.

Loto-Québec will deposit the boosted portion of the winner's return in their account within 24 hours after the last game in their selection was played.

Loto-Québec reserves the right to withdraw a combo's boost percentage without notice.

TOTO rules:

2 – General: Bet Options

Below is an explanation of the Bet Options most commonly found across the various sports. First, a few general principles applicable to all Bet Options. If the explanation of a Bet Option for a specific sport conflicts with the general description of the Bet Option, the explanation and description for that specific sport takes precedence. Note: Bet Options may sometimes have a slightly different name depending on the sport.

TOTO looks only at regular playing time, i.e. playing time including stoppage/injury time. Extra time does not count, unless stated otherwise below in the general description of Bet Options or in the sport-specific section.

All Bet Options can be offered for a particular period of a match (such as a half, or a set), for the home or away team, a specific athlete, or a combination thereof (for example, “How many goals will Team 2 score in the 1st half?”). This will be explicitly stated for the relevant Bet Option.

For each sport individually it is indicated how matches that are cancelled or abandoned are handled. If TOTO learns from official sources that the relevant match will not be completed within the given time frame, TOTO has the right to settle Bet Options on that match earlier.

Where there is a change of venue at which a sports match is held, or a different designation of sports team(s) as home and/or away team, the following rules apply:

a. If the home and/or away team is offered reversed, all Bet Options on this match will be declared void.

   Example: The match is offered as Ajax–Feyenoord, but in reality the match is played at Feyenoord's ground. All Bet Options on this match will therefore be declared void.

b. If the sports match is relocated to a venue other than that of the away team, and the home team is still designated as the home team by the official match organiser, the Bet Options on this sports match remain valid.

   Example: The match Napoli–Juventus is relocated due to circumstances from Naples to Rome. The Italian football association officially confirms that Napoli remains the home team and Juventus the away team. All Bet Options on this match remain valid and will be settled if the match is completed according to the rules.

c. If the sports match is played on neutral ground, the Bet Options on this sports match remain valid regardless of how the match is presented by TOTO.

   Example: The (friendly) match Real Madrid–Bayern Munich is played in New York as part of the International Champions Cup. TOTO offers the match as Bayern Munich–Real Madrid. Since the match is played on neutral ground, all Bet Options on this match remain valid and will be settled if the match is completed according to the rules.

The Dead-Heat rule may apply to certain Bet Options. TOTO determines whether this rule applies. In general, this rule applies when there is a tie between several teams or athletes, and a tied result is not itself an available Bet Option outcome. If an event nonetheless ends in a tie, the following rules apply regarding the amount of the prize money: the stake is divided by the number of winning options, which is then multiplied by the odds of the selection chosen.

Example of the Dead-Heat rule The Participant predicts the Bet Option "Who will become top scorer of the Eredivisie" and Haller, Zahavi and Tadic all score the same number of goals. - Player A selects S. Haller and stakes €10 at odds of 5.00. - Player B selects E. Zahavi and stakes €20 at odds of 10.00. - Player C selects D. Tadic and stakes €5 at odds of 7.50.

Player A wins: €10.00/3 = €3.33 × 5.00 = €16.65 Player B wins: €20.00/3 = €6.67 × 10.00 = €66.67 Player C wins: €5.00/3 = €1.67 × 7.50 = €12.52

The most common Bet Options

1. Result (or "Fulltime") With the "Result" Bet Option (also called "Fulltime"), the Participant predicts whether a match will end in a win for the home team, a draw, or a win for the away team.

2. Winner (or "Fulltime (1,2)") With the "Winner" Bet Option (also called "Fulltime (1,2)"), the Participant predicts whether a match will end in a win for the home team/player (1) or a win for the away

team/player (2). Where necessary and applicable to the match, the result after extra time applies.

The “Winner” Bet Option can also be offered for a specific part of a match (such as a half, inning or set). The Participant predicts which team or player wins that part of the match. For this Bet Option the result is determined after the regular playing time of that period. Extra time does not count, unless stated otherwise in the sport-specific rules.

If the match, or part of it, nonetheless ends in a draw, the odds are set to 1.00.

3. Draw No Bet With the “Draw No Bet” Bet Option, the Participant can only predict which team or player will win. If the match ends in a draw, the odds are set to 1.00.

4. Handicap (or Spread) With the “Handicap” (or spread) Bet Option, the Participant predicts the result taking into account a virtual lead (Handicap) for one of the two teams. This lead counts towards the (virtual) result to be predicted by the Participant. The Handicap can differ per sport or match and may be a decimal figure, making a draw result impossible.

Depending on the sport, the “Handicap” Bet Option is applied to (goal) points, sets, games or other quantifiable parts or points of a sports match.

There are two main categories within the Handicap Bet Option: the “2-way Handicap” and the “3-way Handicap”. Below is a list of Handicap variants that sometimes have a different name per sport:

2-way handicap	Sport
Point Spread	American Football, Basketball
Puck Line	Ice Hockey
Handicap	Aussie Rules, Basketball 3x3, Beach Volleyball, Esports, Football, Futsal, Handball, Rugby League, Rugby Union, Snooker, Table Tennis, Tennis, Volleyball, etc.
Run Line	Baseball
Asian Handicap	Football

5. Asian Handicap With the “Asian Handicap” Bet Option, the Participant predicts the result taking into account a virtual lead (Handicap) for one of the two teams. Participants can choose a negative handicap (-), meaning the chosen team must win by more goals than the handicap for the prediction to be correct, or a positive handicap (+), which is added to the result to determine whether the prediction is correct.

There are three different forms of Asian Handicaps:

A. Whole goal (e.g. Team A -0, Team A -1.0, Team A -2.0) The handicap is applied to the match result, and the team with the most goals after the handicap is applied is the winner. If the number of goals for each team is equal after the handicap is applied, the odds of the prediction are set to 1.00.

Suppose you choose the prediction “Team A -2.0” or “Team B +2.0”: - If Team A wins by three or more goals, “Team A -2.0” is correct and “Team B +2.0” is incorrect. - If Team A wins by exactly two goals, the odds of both “Team A -2.0” and “Team B +2.0” are set to 1.00 (stake refunded / prediction disregarded in a combination bet). - If Team A wins by exactly one goal, the match is a draw, or Team B wins, then “Team B +2.0” is correct and “Team A -2.0” is incorrect.

B. Half goal (e.g. Team A -0.5, Team A -1.5, Team A -2.5) The handicap is applied to the match result and the team with the most goals after the handicap is applied is the winner.

Suppose you choose “Team A -1.5” or “Team B +1.5”: - If Team A wins by two or more goals, “Team A -1.5” is correct and “Team B +1.5” is incorrect. - If Team A wins by exactly one goal, the match is a draw, or Team B wins, then “Team B +1.5” is correct and “Team A -1.5” is incorrect.

C. Split Asian handicaps (e.g. Team A -0.5/-1.0) For a split-value Asian handicap, the stake is divided evenly between the whole and half value of the Asian handicap.

Suppose you choose “Team A -1.0/-1.5” or “Team B +1.0/+1.5”. If you place a €100 bet on “Team A -1.0/-1.5”, the bet is split into two bets of €50 each: one on “Team A -1.0” and one on “Team A -1.5”.

- If Team A wins by two or more goals, all predictions on “Team A -1.0/-1.5” are correct and predictions on “Team B +1.0/+1.5” are incorrect.
- If Team A wins by exactly one goal, the stake on “Team A -1.0” is refunded and “Team A -1.5” is incorrect; the stake on “Team B +1.0” is refunded and “Team B +1.5” is correct.
- If the match ends in a draw or Team B wins, all predictions on “Team B +1.0/+1.5” are correct and all predictions on “Team A -1.0/-1.5” are incorrect.

Handicap	Team result	Bet result
0	Win / Draw / Lose	Win / Stake refund / Lose
0.0 / -0.5	Win / Draw / Lose	Win / Half lose, half stake refund / Lose
-0.5	Win / Draw / Lose	Win / Lose / Lose
-0.5 / -1.0	Win by 2+ / Win by 1 / Draw / Lose	Win / Half win, half stake refund / Lose / Lose
-1.0	Win by 2+ / Win by 1 / Draw / Lose	Win / Stake refund / Lose / Lose
-1.0 / -1.5	Win by 2+ / Win by 1 / Draw / Lose	Win / Half win, half stake refund / Lose / Lose
-1.5	Win by 2+ / Win by 1 / Draw / Lose	Win / Lose / Lose / Lose
-1.5 / -2.0	Win by 3+ / Win by 2 / Win by 1 / Draw / Lose	Win / Half win, half stake refund / Lose / Lose / Lose
-2.0	Win by 3+ / Win by 2 / Win by 1 / Draw / Lose	Win / Stake refund / Lose / Lose / Lose
-2.0 / -2.5	Win by 3+ / Win by 2 / Win by 1 / Draw / Lose	Win / Half win, half stake refund / Lose / Lose / Lose
-2.5	Win by 3+ / Win by 2 / Win by 1 / Draw / Lose	Win / Lose / Lose / Lose / Lose
-2.5 / -3.0	Win by 4+ / Win by 3 / Win by 2 / Win by 1 / Draw / Lose	Win / Half win, half stake refund / Lose / Lose / Lose / Lose
-3.0	Win by 4+ / Win by 3 / Win by 2 / Win by 1 / Draw / Lose	Win / Stake refund / Lose / Lose / Lose / Lose
-3.0 / -3.5	Win by 4+ / Win by 3 / Win by 2 / Win by 1	Win / Half win, half stake refund / Lose /

/ Draw / Lose Lose / Lose / Lose

(The mirrored positive-handicap side, e.g. +0.5, +1.0, +1.5 ... +3.5, follows the corresponding inverse outcomes: Win, Draw and a loss within the handicap margin are wins or half-wins; a loss beyond the margin loses.)

6. Under/Over (Total) With the “Under/Over” Bet Option, the Participant predicts whether a certain number of quantifiable match components or points achieved (such as goals, sets, runs, rounds) will be fewer (Under) or more (Over) than a number set in advance by TOTO. The number set in advance will not be a whole number but a decimal (e.g. 2.5). Further explanation of how the result of this Bet Option is determined for the various sports is given in the sport-specific rules.

7. Asian Under/Over With the “Asian Under/Over” Bet Option, the Participant predicts whether a certain number of quantifiable match components or points achieved (such as goals, sets, runs, rounds) will be fewer (Under) or more (Over) than a number set in advance by TOTO. Predictions can be made on a whole decimal, half decimal or quarter decimal number.

There are three different forms of the “Asian Under/Over” option:

A. Asian Under/Over with a whole decimal (e.g. over 2.00) Suppose you choose “Under 2.00” or “Over 2.00”: - If three or more goals are scored, “Over 2.00” is correct and “Under 2.00” is incorrect. - If exactly two goals are scored, the odds of both “Under 2.00” and “Over 2.00” are set to 1.00. - If at most one goal is scored, “Under 2.00” is correct and “Over 2.00” is incorrect.

B. Asian Under/Over with a half decimal (e.g. over 1.5 goals) Suppose you choose “Under 2.5” or “Over 2.5”: - If three or more goals are scored, “Over 2.5” is correct and “Under 2.5” is incorrect. - If two or fewer goals are scored, “Under 2.5” is correct and “Over 2.5” is incorrect.

C. Split Asian Totals (e.g. over 1.75 goals) Suppose you choose “Under 1.75” or “Over 1.75”. If you place a €100 bet on “Over 1.75”, it is split into two €50 bets: one on “Over 1.5” and one on “Over 2.00”: - If three or more goals are scored, all predictions on “Over 1.75” are correct and “Under 1.75” is incorrect. - If exactly two goals are scored, the odds on “Over 2.0” are set to 1.00 (stake refunded/disregarded in a combo bet), and “Over 1.5” is correct. - If fewer than 2 goals are scored in the match, both predictions are incorrect.

The quarter/three-quarter line Asian totals (0.75, 1.25, 1.75, 2.25, 2.75, 3.25, 3.75 ...) follow the same split-stake logic as the Split Asian Handicap above: the stake is divided between the two neighbouring whole/half lines, and each half is settled independently as Win, Lose, or Stake refund, giving combined outcomes of Win, Lose, Half win/half stake refund, or Half lose/half stake refund, depending on the exact number of goals scored relative to the two component lines.

8. Double Chance With the “Double Chance” Bet Option the Participant combines two of the three (1, X, 2) results into one prediction: home win/draw (1,X), draw/away win (X,2), or home win/away win (1,2). If either of the two covered results occurs, the prediction wins.

9. Winning Margin With the “Winning Margin” Bet Option, the Participant predicts which team or athlete will win the match and by what margin.

Example: The Participant bets on this option for the New York Giants vs New England Patriots match and picks “1-6” in favour of the Giants. If the Giants win by a margin of 6 points or fewer, the prediction is correct.

10. Halftime/Fulltime With the “Halftime/Fulltime” Bet Option, the Participant predicts both the result at half-time (1,X,2) and the result of the full match. Both predictions must be correct for the bet to win. This option can also be offered as a correct-score variant, predicting the score at half-time and the final score; again both must be correct.

11. Race To With the “Race To” Bet Option, the Participant predicts which team or athlete will be first to reach a number of quantifiable match components or points set in advance by TOTO (e.g. goals, sets, games, runs, rounds), or that neither reaches that result. Example: “Which team will be first to score 2 goals in the match?”

12. Half/Quarter/Period with Most (Goal) Points The Participant predicts in which part of the match the most quantifiable components or points will be scored. An option to predict an equal number across the different parts of the match may also be offered.

13. Odd/Even The Participant predicts whether the total number of quantifiable components or (goal) points in a match is Odd or Even. A total of 0 always counts as Even. This option can also be offered for a specific part of a match (a half, inning or set) or for the home/away team or a specific athlete.

14. To Qualify / Who Advances to the Next Round? / Who Wins the Cup? The Participant predicts which team or player qualifies for the next round of the tournament, or who wins the tournament if it is the final (i.e. there is no next round). If a match is abandoned and not completed within the tournament’s timetable, predictions on this Bet Option are settled based on the decisions of the official match organiser.

15. Tip The Participant predicts the winner (player or team) of a match or event, or whoever achieves a specified result. The winner is the player/team that finishes first or achieves the requested result. If the Participant’s selected player or team turns out not to take part in the match or event, the Bet Option is voided. If several teams/athletes achieve the requested result, the Dead-Heat rule applies.

16. Head-to-Head (H2H) The Participant predicts which of two teams or athletes chosen by TOTO will achieve a better result, position or ranking. Both chosen teams/athletes must start the match, and at least one must achieve an official result; otherwise the odds are set to 1.00. This Bet Option can also be offered as a three-way variant where TOTO selects three teams/athletes; the same rules apply.

17. Correct Score The Participant predicts the exact final score of the match.

18. Combi Boost A combination bet selected by TOTO that carries higher odds (“boost”) than the combined odds of the individual matches within it. All matches in a Combi Boost must start and be completed in full. If a match is cancelled or not completed in full, its odds are set to 1.00, unless the required result had already been reached or could no longer be reached. For football, if a match is abandoned after at least 80 minutes of regular playing time have been played, the score at the time of abandonment is used to settle the Combi Boost.

19. TOTO Boost / Boost of the Day / Sharpshooter Boost / Goalgetter Boost A (combination) bet selected by TOTO carrying higher odds (“boost”) than the combined odds of the individual match(es) within it. The same completion rules apply as for Combi Boost above: all matches must start and be completed in full, with cancelled/incomplete matches set to odds 1.00 unless the required result was already achieved or could no longer be achieved; for a match abandoned after at least 80 minutes of regular time that is not replayed/completed on the original date, that result is used for settlement.

20. Bet Builder The Participant can combine several Bet Options relating to a single match into one “Bet Builder” bet with one combined price.

Example: You could combine “First Goalscorer”, “Goal” and “Number of Goals” into a single Bet Builder bet with one combined price for all chosen options together. You win only if all predictions are correct.

It is not possible to combine multiple Bet Options that share the same outcome, e.g. “1st half draw”, “Correct Score 0-0” and “Total number of goals 0” together.

TOTO determines how many Bet Options from a single match can be combined into a Bet Builder bet, and this can vary by match. If one of the selected Bet Options within a Bet Builder bet is voided, the entire Bet Builder bet is voided and the Participant’s stake is refunded.

Example: If a goalscorer you selected does not play, the entire Bet Builder bet is cancelled regardless of the outcome of the other selected options within it.

TOTO determines for which matches and Bet Options the “Bet Builder” is available and may change and/or remove it at any time. TOTO reserves the right to decline any Bet Builder bet. Cash Out, Partial Cash Out and/or Change Your Bet are not available for Bet Builder bets.

21. Combi Extra For eligible combination bets on football matches, TOTO may apply Combi Extra. When applied, a winning combination bet that pays out receives a profit boost on its net winnings.

Combi Extra can apply to football combination bets placed before the relevant matches start. Whether Combi Extra applies, and what boost percentage, is shown to the Participant before the bet is placed.

Conditions for Combi Extra to apply: - the combination bet contains at least three (3) selections; - each selection has odds of at least 1.40; - the combination bet is placed before the relevant matches start; - the combination bet concerns football; - Combi Extra does not apply to live bets; - system bets are excluded; - Bet Builder bets are excluded; - bets placed using a Free Bet are excluded; - bets placed using a promotional offer are excluded; - the maximum stake to which Combi Extra can apply is €10,000 per bet; and - the profit boost is capped at €25,000 per bet.

The applicable boost percentage is determined by the number of selections and the Combi Extra scale in effect at the time the combination bet is placed. If selections are later changed, the applicable boost percentage may be adjusted accordingly under the scale then in effect.

The profit boost is calculated on the net winnings of a fully winning combination bet. The total payout, including the boost, is added to the Participant’s withdrawable balance, and cannot exceed the maximum payout amount applicable to that bet.

Illustrative example: A combination bet with a €10 stake on five (5) selections, each at odds of 1.50, all winning: total odds 7.59, regular payout €75.90, net win €65.90. If a 10% boost applies for five selections, the boost is €6.59, making the total payout €82.49.

Cash Out: Combi Extra is forfeited if Cash Out is used.

Cancelled or postponed selections: If one or more selections in a combination bet are cancelled or postponed, Combi Extra continues to apply. The applicable boost percentage is determined, when the combination bet is settled, based on the number of selections that ultimately remain valid and winning.

3 – Sport-Specific Rules

1. American Football

Sport-specific rules for American Football - An American Football match consists of 4 periods of 15 minutes. The first half comprises the first 2 periods; the second half the last 2 periods. - Results of Bet Options on a match are based on the result of matches completed according to the rules, including overtime, unless stated otherwise. - Bet Options on halves or quarters of a match exclude overtime, unless stated otherwise. - Bet Options on the 2nd half for US American Football competitions include any overtime. - If a match is cancelled, postponed, abandoned or otherwise not completed with fewer than 5 minutes of regular playing time remaining on the clock, and it is not completed or replayed within 2 days of the original date, all Bet Options are settled as if the match had been completed in full. - If a match is cancelled, postponed, abandoned or otherwise not completed, and not completed/replayed within 2 days of the original date, Bet Options whose result has already been achieved are settled as if the match had been completed in full; all other Bet Options are voided. - Bet Options on halves and quarters apply only if that period was completed under the rules, unless the Bet Option’s result was already achieved. - Results of Bet Options are based on the rules of the game and match results as determined by the official match organiser. - The Dead-Heat rule may apply to certain Bet Options.

Bet Options for American Football

1st half: Settled on the result of a first half completed under the rules. If the match is abandoned/interrupted before half-time, all 1st-half Bet Options are voided unless already determined. If the match is abandoned during the second half, all 1st-half Bet Options remain valid.

2nd half: Settled on the result of a second half completed under the rules, including any overtime. If abandoned/interrupted, all Bet Options are voided unless already determined. If fewer than 5 minutes remain on the clock and the match is not completed within two days of the original date, Bet Options are settled as if the match had been completed in full.

Quarter of a match: Settled on the result of the quarter completed under the rules. Results for the 4th quarter include any overtime, unless stated otherwise. If the match is not completed, Bet Options on a specific quarter remain valid if that quarter was completed; Bet Options on incomplete quarters are voided unless already determined.

Halftime/Fulltime 1,2 Over Time: The Participant must correctly predict both the 1st-half result (1,X,2) and the Fulltime result (1,2) after regular time including any overtime of the same match. Both predictions must be correct. The draw (X) option is only available for the first half.

Most Points: The Participant predicts which half or quarter of the match will have the most points, including any overtime. If multiple halves/quarters tie exactly, the Dead-Heat rule applies.

Player Specials: A TOTO-selected Bet Option asking whether a player achieves a specified result (e.g. “T. Brady throws for more than 300 yds & NE Patriots win”). If the selected player did not start and/or come on and can no longer achieve the result, the Bet Option is voided. If the player had the opportunity to achieve the result, regardless of how long they played, the Bet Option stands. Results are based on the rules of the game and results as determined by the official match organiser, including overtime.

Live Betting: Bets placed during the match (Live Betting) are settled per the rules above, unless stated otherwise for that Bet Option.

2. Athletics

Sport-specific rules for Athletics - Named athletes must start the race/event for Bet Options to be valid. If a named athlete is declared a non-runner, Bet Options relating to that athlete are voided. - Results of Bet Options are based on the outcome at the podium ceremony. Disqualifications and/or protests during or after the podium ceremony are disregarded when determining results. - If an event is cancelled, postponed, abandoned or otherwise not completed within its tournament's timetable, Bet Options whose result was already achieved are settled as if completed in full; the rest are voided. - If a tournament is cancelled, postponed, abandoned or otherwise not completed, and is not started and finished within thirty (30) days of the original scheduled date, all Bet Options on the tournament are voided. - Results of Bet Options are based on the rules of the sport and results as determined by the official organiser. - The Dead-Heat rule may apply to certain bets.

Bet Options for Athletics

Winner (Head-to-Head/H2H): The Participant predicts which of the named athletes finishes in the better position. If a named athlete does not start, the Bet Option is voided. A disqualification (DQ) counts as having started the event. If, in a H2H, both athletes are eliminated in the same round, the Bet Option is settled on whichever had the better qualifying ranking. The result is determined as follows: a) The athlete who progresses further in the tournament/competition is the winner (e.g. Athlete A reaches the final, Athlete B is eliminated in the semi-final → A wins the H2H). b) If both athletes are disqualified in the same round: (i) if both took part in the same race, the athlete with the better finishing time is deemed the H2H winner; (ii) if they took part in different races, the H2H Bet Option is voided. c) If both athletes qualify for the final, the H2H winner is determined by the better final placing.

3. Aussie Rules

Sport-specific rules for Aussie Rules - Results of Bet Options on an Aussie Rules match are based on matches completed under the rules including overtime, unless stated otherwise. - If a match is cancelled, postponed, abandoned or otherwise not completed and not completed/replayed within 2 days of the original date, Bet Options whose result was already achieved are settled as if the match had been completed in full; the rest are voided. - For Bet Builder bets, all selections must win (no draws/pushes) to be considered a winner. If one or more selections are void (e.g. a player does not take the field), the whole bet is voided. If a match is abandoned with no losing selections while at least one selection remains undecided, the bet is also voided. However, if all selections are already winning and the abandonment has no effect on the outcome, the bet remains a winner. If a single selection has already lost, the bet is settled as a loser regardless of the abandonment. - The Dead-Heat rule may apply to certain bets.

Player-related Bet Options: Various Bet Options where the Participant predicts whether one or more players achieve a specified result, offered individually or under a heading such as "Player Specials", including but not limited to: Goals; Disposals (successful passes/kicks). If the selected player does not take part by neither starting nor coming on as a substitute, the Bet Option is voided. If the player takes the field at any point, the Bet Option is valid regardless of the duration of participation or the specific period the bet covers — meaning the bet is settled on the final result even if the player is injured shortly after entering and does not return.

Example: A bet on a player to score in the second half is valid (and can be settled as a loss) if the player plays the opening minutes, then is injured and does not play the second half — since the player had the

opportunity to achieve the predicted result. However, if the player is injured before kick-off, removed from the line-up and never takes the field, the bet is voided.

Results are based on the rules of the game and match results as determined by the official organiser, including overtime.

4. Badminton

Sport-specific rules for Badminton - The maximum number of games played in a badminton match can vary by competition/tournament; generally matches are played over a maximum of three (3) or five (5) games. - Results of Bet Options are based on matches completed under the rules, disregarding overtime or protests, unless stated otherwise. - If a match is cancelled, postponed, abandoned or otherwise not completed within its tournament’s timetable, Bet Options whose result was already achieved are settled as if completed in full; the rest are voided. - A match is deemed to have started once the first serve has taken place. - TOTO may void Bet Options, including in the following situations for individual badminton matches: (i) a match that has started is not completed for any reason (e.g. a player withdraws); (ii) a match is played under a time limit and is not completed for that reason; (iii) the number of games is changed or differs from that assumed when the Bet Options were offered; (iv) a player is replaced by another player; (v) a walkover occurs. - Where applicable, results of Bet Options are based on the outcome at the podium ceremony; disqualifications/protests during or after are disregarded. - For Bet Options relating to a set, a points-based tie-break counts as one point for settlement purposes. - If the set, game or point named in the Bet Option is not played, all Bet Options on that set, game or point are voided. If a point is awarded as a penalty point, all Bet Options on that point are voided. - Official point corrections (e.g. a shuttle initially called “in” but later ruled “out”) are taken into account when settling Bet Options.

5. Bandy

Sport-specific rules for Bandy - Results of Bet Options are based on matches completed under the rules, disregarding protests or overtime, unless stated otherwise. - Results of Bet Options are determined based on match results as published by the official organiser. - If a match is cancelled, postponed, abandoned or otherwise not completed, and not completed/replayed within 2 days of the original date (or, where applicable, within its tournament’s timetable), Bet Options whose result was already achieved are settled as if the match had been completed in full; the rest are voided. Some Bandy matches may be played in a different format (e.g. 3 × 30 minutes); in that case all Bet Options are valid based on 90 minutes, but all 1st/2nd-half Bet Options are voided.

6. Basketball

Sport-specific rules for Basketball - A basketball match is played in four periods (NBA: 12-minute periods; FIBA: 10-minute periods). The “first half” is the first 2 periods; the “second half” the last 2 periods. - Results are based on matches completed under the rules including overtime, unless stated otherwise. Bet Options on halves/quarters exclude overtime unless stated otherwise; Bet Options on the 2nd half/4th quarter of US competitions include overtime. - If a match is cancelled/postponed/abandoned before regular time ends: **US competitions** — at least 43 minutes must have been played for NBA and at least 35 minutes for WNBA for Bet Options to be valid; if under that threshold and not completed within 24 hours of the original date, already-achieved results settle as if completed in full and the rest are voided. **Other competitions** — the general 2-day rule applies (already-achieved results settle as completed; rest voided). - Results

are based on the rules of the game and results as determined by the official organiser. - Bet Builder: all selections must win (no draws) to be a winner. Any voided selection voids the entire bet. A selection on a team to win a match that is drawn after overtime (or after regulation with no overtime) is settled as a loser even where a draw option wasn't offered in the Bet Builder — except NBA/NBL, where overtime is replayed until there is a winner, though this can still apply under other competitions' own rules. If the match is abandoned with no losing selections while at least one is undecided, the bet is voided; if all selections already won and the abandonment doesn't affect the outcome, the bet stays a winner; if a single selection has already lost, the bet loses regardless. - The Dead-Heat rule may apply to certain bets.

Bet Options for Basketball

Winning Margin (Match/Half/Quarter): Predict which team wins and by how many points.

Overtime: Predict whether the match will go to overtime. Voided if the match is cancelled/postponed/abandoned before overtime starts; also voided if overtime occurs despite the scores not being level after regulation.

Player-related Bet Options: As with other sports — Points, Assists, Rebounds, Blocks, Steals, and combinations thereof (including multi-threshold achievements like "Double-Double" and "Triple-Double"). Voided if the player neither starts nor comes on; valid (and can be settled as a loss) once the player takes the field at all, regardless of playing time, per the same injury-example logic as under Aussie Rules above. If the player is injured pre-match and never plays, the bet is voided. Results are based on the rules and outcomes as determined by the official organiser, including overtime.

1st player to score: Voided if the selected player is not on the court at the moment the first point is scored, or comes on only after the first point.

1st half: Settled on a first half completed under the rules. Voided if the match is abandoned before half-time (unless already achieved); remains valid if the match is abandoned during the second half.

2nd half — NBA/WNBA: Settled on a second half completed under the rules, including overtime. If cancelled/postponed/abandoned, undetermined Bet Options are voided; if fewer than 5 minutes remain on the clock and the match isn't completed within two days, Bet Options settle as if completed in full. **Other competitions:** settled on the second half excluding overtime unless stated otherwise; if abandoned before the 2nd half is completed, 2nd-half Bet Options are voided unless already achieved.

Quarter of a match: Settled on the relevant quarter completed under the rules. **NBA/WNBA and other competitions alike:** if the match isn't completed, Bet Options on a specific quarter remain valid if that quarter was completed; those on incomplete quarters are voided unless already achieved.

1st half 1x2: A draw can be predicted; only the first-half result counts.

Halftime/Fulltime — NBA/WNBA: Voided if the match is cancelled/postponed/abandoned or otherwise ends in a draw with no overtime played. **Other competitions:** voided if the match ends in a result that cannot be bet on (e.g. a draw); overtime is disregarded.

Live Betting: Settled per the rules above unless stated otherwise for that Bet Option.

7. Boxing

Sport-specific rules for Boxing - Results are based on the official result announced in the ring, unless there was human error in announcing it — with the exception of a technical draw (see "Technical decision/draw" below).

Technical decision/draw: - A *technical draw* occurs when the referee stops the fight due to an accident before the required number of rounds (as set by the official bodies) is completed — e.g. an accidental head clash injuring a boxer. - A *technical decision* occurs when the fight cannot continue for a reason other than KO/TKO or disqualification, but the required number of rounds has been completed and the result is decided on the judges' scorecards. - If a deliberate foul causes an injury that later stops the fight: (i) the injured boxer is deemed to have won by technical decision if ahead on points; (ii) the result is a 'technical draw', settled as a draw, if the injured boxer is behind or level on the scorecards. - A fight is deemed to have officially started when the bell sounds for round 1. - Results are not official until verified by officials at the venue. If official verification does not take place there, reporting from the official boxing organiser is used (and only then) to settle bets. A reversal of a fight decision by an official or unofficial sanctioning body (on appeal, suspension, lawsuit, doping result or other sanction) is not recognised for settlement. - If a fight is declared a "no contest", all Bet Options are voided, except those whose outcome was already unambiguously determined (this can occur when something falls outside the rules, e.g. Tyson biting Holyfield's ear). - If one boxer is replaced, Bet Options on the fight are voided. - If how the fight is billed changes (e.g. from a title fight to a non-title fight), Bet Options remain valid. - If the scheduled number of rounds changes, "Winner" and "Result" Bet Options remain valid; all others are voided. - If a fight is postponed, Bet Options remain valid provided it still takes place within thirty (30) days of the original date; otherwise all are voided. - If a fighter withdraws between rounds, the fight is deemed to have ended after the previous round. - The Dead-Heat rule may apply to certain bets.

Bet Options for Boxing

Winner: Voided in the event of a draw if a draw outcome wasn't offered.

Under/Over (rounds): Predict whether the number of rounds will be fewer (Under) or more (Over) than a number set in advance (a decimal, e.g. 2.5). If a fighter withdraws between rounds, the fight is deemed to have ended after the previous round. If the fight ends before the scheduled rounds are completed and, for any reason, the winner is decided by judges (technical decision/technical draw), all Under/Over bets are settled as losing. If the fight ends early due to an accident and the winner is not decided by the judges, the Bet Option is voided. For settlement, 1 minute 30 seconds counts as half a round (e.g. for "Over 10.5 rounds" to win, the fight must go past 1:30 of round 11). If the scheduled number of rounds changes after this Bet Option was offered, it is voided.

Exact Round: Predict which round the fight ends in. Voided/losing per the same judges'-decision and accident logic as Under/Over above.

Fight to go the full scheduled rounds: Predict whether all rounds are completed in full. If the number of scheduled rounds changes before the fight, this Bet Option is voided. A fight decided by the judges did NOT go the full scheduled distance.

Method of Victory: Predict how the fight is won: - **KO or TKO:** KO = the boxer fails to get up after a count of 10. TKO = the 3-knockdown rule, or the referee stopping the fight because a fighter cannot safely continue. - **Decision/technical decision:** the result is based on the three judges' scorecards. - **Draw/technical draw:** a technical draw

occurs when the referee stops the fight due to an accident or foul before the scheduled rounds are completed, to be decided on the judges' scorecards.

8. Bowls

Sport-specific rules for Bowls - Results are based on matches completed under the rules, disregarding overtime or protests, unless stated otherwise; disqualifications/protests after completion are disregarded. - Standard 2-day cancellation/postponement rule applies (already-achieved results settle as completed; rest voided). - If no draw option is offered and the match ends level, the result at the end of the tie-break is used; if no tie-break occurs either, all predictions are voided.

9. Cricket

Sport-specific rules for Cricket - Matches fall into two groups: Multi-day matches (e.g. Test matches, County Championship) and Limited-overs matches (e.g. Twenty20), as classified by the official organiser (e.g. KNCB in the Netherlands, or the ICC). - Results are based on matches completed under the rules, disregarding overtime/protests, unless stated otherwise. - For "fours" (4s) Bet Options, only fours scored off the bat count (applies at least to "Total 4s", "Most 4s", "Total 4s for a player/team"): all-run fours don't count; boundary overthrows credited to the batsman do count; no-balls reaching the boundary off the bat and credited to the batsman do count; extras credited to the team rather than the batsman (leg-byes, boundary byes, boundary wides) are excluded. - The same logic applies to "sixes" (6s) Bet Options — only sixes off the bat count. - In Limited-overs matches, "fours"/"sixes" Bet Options are voided if at least 80% of scheduled overs could not be bowled. In Multi-day matches, at least 200 overs must be bowled, or these Bet Options are voided. - Bet Builder: all selections must be correct (no draws) to win. A selection on a team to win a match that ends level (without Super Over/One-Over Eliminator) is settled as a loser even if a draw option wasn't offered. A Bet Builder bet is voided if a selected player doesn't take active part (injury, non-selection), or if the match is abandoned with no losing selections while at least one remains undecided, or if the scheduled overs are reduced (weather etc.) unless the bet's outcome was already reached before the reduction. Settlement uses only the match's regular innings (e.g. 20 overs per side in a T20); performances during extra innings, Super Overs or One-Over Eliminators do not count. If all selections already won and abandonment doesn't affect the outcome, the bet stays a winner; a single already-lost selection loses the whole bet regardless.

A) Multi-day matches: At least one ball must be bowled for Bet Options to stand. If no team is declared winner after the last scheduled day, Bet Options settle on a draw result. If all innings are played and both teams have the exact same score, the Dead-Heat rule applies. If a match is cancelled/postponed/not played before starting, all Bet Options are voided.

B) Limited-overs matches: If the official result is a tie, any tiebreaker method used by the official organiser (bowl-off, Super Over, etc.) counts; if still tied and no further tiebreaker is used, the Dead-Heat rule applies. If a match is shortened, Bet Options settle per the official competition rules of the applicable organiser (e.g. KNCB, ICC); if no official result is determined, Bet Options are voided.

Bet Options for Cricket

Team with most fours/sixes: Predict which team scores the most 4s/6s. For live bets on Multi-day matches, only fours/sixes in the first innings count.

Total Run Outs (Under/Over): Predict whether the total run-outs are under/over a set number. Voided in Limited-overs matches if under 80% of overs could be bowled; in Multi-day matches, at least 200 overs must be bowled or the bet is voided. Run-outs during a Super Over don't count; for live bets on Multi-day matches, only the first innings counts.

Total after X Overs (Under/Over): Predict whether total runs after a given over (e.g. after 5 or 10 overs) are under/over a set number. Same 80%-overs / 200-overs voiding rules apply. In "The Hundred", an over consists of 5 legal balls, so an innings is 20 overs; otherwise handled as Limited-overs matches.

Top Batsman: Predict which batsman scores the highest individual score. Voided under the same 80%/200-overs thresholds (for Multi-day matches, unless both first innings are fully played). A named batter who doesn't bat but is in the starting XI is settled as a loser (result: the batter is credited with not achieving the predicted score). Runs scored in a Super Over don't count. Tied top scores → Dead-Heat rule applies.

Top Bowler: Predict which bowler takes the most wickets. Voided if under 50% of scheduled overs per innings could be bowled at the time the bet was placed (Limited-overs) or under the 200-overs/first-innings-completed threshold (Multi-day). A named bowler who doesn't bowl but is in the starting XI is settled as a loser. Wickets in a Super Over don't count. Tied wicket counts are broken by fewest runs conceded; if still tied, the Dead-Heat rule applies.

Wicket in Over: Predict whether the named team loses a wicket (Yes/No) in the specified over. Any dismissal method counts, including run-out; a batter retiring hurt doesn't count. A batter arriving late or retiring hurt/out is treated as the wicket falling on the previous ball.

Run in Over: Predict whether runs scored in a specified over are under/over a set number. The over must be completed in full or the bet is voided. Settlement includes extras and penalty runs. Under "The Hundred" rules (5-ball overs, 20-over innings), the same Limited-overs handling applies.

Team Dismissal: Predict how the first wicket of the named team (home or away) will fall — e.g. caught, LBW, bowled, run-out, or other. Settled on the first actual dismissal method for that team, regardless of batting order.

Player-related Bet Options: Various bets predicting whether one or more players achieve a specified result, including but not limited to: **Fours** (a player hits a boundary four off a single ball); **Sixes** (a six off a single ball, clearing the boundary on the full); **Wickets** (a bowler takes a wicket, excluding run-outs); **Runs** (how many runs a player scores). A named-player selection is valid as long as the player takes an active part in the match — even a fielding-only appearance keeps the selection live (and it settles as a loss if the predicted result isn't achieved). If a player never takes the field at all (e.g. injury, not selected to play), that selection — and, in a Bet Builder, the whole bet — is voided. This applies regardless of whether the selection refers to a specific phase of the match. *Example:* a bet on a player to hit a six stays live (and loses) if that player only fields and never bats or bowls, because they took part in the match; but if the player is injured before the match and never takes the field at all, the selection is voided.

Results for "Player-related Bet Options" are based only on performances during the regularly completed parts of the match; performances during Super Overs, One-Over Eliminators or similar tiebreaker methods do not count.

10. Curling

Sport-specific rules for Curling - Results are based on matches completed under the rules including overtime (extra ends), unless stated otherwise. - Standard 2-day cancellation/postponement rule applies.

11. Darts

Sport-specific rules for Darts - Match duration varies greatly by event and tournament stage. - Results are based on matches completed under the rules, disregarding overtime/protests, unless stated otherwise. - Standard 2-day cancellation/postponement rule applies. - The Dead-Heat rule may apply to certain bets. - Results are based on the rules of the game and results as determined by the official organiser.

Bet Options for Darts

Set/Leg Winner (1st, 2nd, etc.): Predict which of the two named players wins the specified set/leg. Voided if the match isn't completed, unless the result is already achieved.

Highest Checkout: Voided if the match isn't completed (per the sport-specific rules above). If both players hit the same highest checkout, the selection is settled as a loser.

Handicap: Voided if the pre-set minimum number of legs/sets changes, differs from what was assumed when offered, or isn't completed.

Total Legs/Sets Under/Over: Voided if the match isn't completed, unless the required result is already achieved.

Match Specials: A TOTO-selected combination bet on a player achieving a specified result, e.g. "Van Gerwen wins, highest checkout and most 180s." Where predicting the highest checkout and/or most 180s, if both players tie, the selection is settled as a loser. Voided if the match isn't completed per the sport-specific rules above.

12. Floorball

Sport-specific rules for Floorball - Results are based on matches completed under the rules excluding overtime, unless stated otherwise. If not played in the 3×20-minute format, all Bet Options on that match are voided. - Standard 2-day cancellation/postponement rule applies.

13. Futsal

Sport-specific rules for Futsal - A futsal match consists of 2 halves of 20 minutes of pure playing time. The only exception is matches played for a shorter duration (e.g. 30 minutes) as set by the official organiser or agreed by both parties before kick-off; in such cases, if played in the traditional two-half format, all bets settle at the end of the agreed playing time. - Results settle on matches completed under the rules, disregarding overtime/protests, unless stated otherwise. - If a match is cancelled/postponed/abandoned and not completed/replayed within 1 day of the original date, already-achieved results settle as completed; the rest are voided. Exception: matches during a tournament follow the tournament's own timetable instead of the 1-day rule. - Bet Options on halves apply only if that period was completed under the rules, unless already achieved. - Results are based on the rules of the game and results as determined by the official organiser. - The Dead-Heat rule may apply to certain Bet Options.

14. Golf

Sport-specific rules for Golf - If an event is cancelled/postponed/abandoned and not completed/replayed within 7 days of the original date, already-achieved results settle as completed; the rest are voided. - A golfer is deemed to have taken part once they have teed off. - If a golfer withdraws or is disqualified after teeing off, Bet Options settle per normal rules; Bet Options on a golfer who never teed off are voided. - Results are based on the official tournament results of the official organiser, including any play-off, extra round or other tiebreak process. Later rulings or corrections by the official organiser after the event has ended do not affect settlement. - The Dead-Heat rule may apply to certain bets.

Bet Options for Golf

Head-to-Head (H2H): Predict which of two named golfers (1 or 2) finishes better; the golfer with the lower tournament score wins the H2H. Voided if a named player withdraws/is disqualified before both golfers have teed off in the event. If both miss the cut, the lower score wins. If a golfer withdraws/is disqualified after making the cut while their opponent missed it, the withdrawn/DQ'd golfer is the H2H winner. If a golfer withdraws/is disqualified before the cut, the other golfer wins.

Two-Ball: Predict which player has the lower score in the specified round. Voided if the round is abandoned before completion. A tied lowest score makes "Draw" correct (other predictions lose); for "Draw No Bet" markets, a tie voids the bet. A golfer is deemed to have taken part once they've teed off in that round; voided if a golfer withdraws/is DQ'd before teeing off. If a golfer withdraws/is DQ'd after teeing off but before the round ends, the bet remains valid and the opponent is the correct prediction. Voided if both golfers withdraw/are DQ'd on the same hole.

Three-Ball: As Two-Ball, but among three golfers; a tie for lowest score between two or more players triggers the Dead-Heat rule. Same teeing-off/withdrawal logic as Two-Ball applies.

Fourball: Valid once both pairs have teed off on the first hole. If a draw option is offered, the result is determined over the scheduled holes (Fourball matches are played over 18 holes). If no draw option is offered, the winner is determined over however many holes were played. Voided if a player/team withdraws or is DQ'd before teeing off in the round. The Dead-Heat rule applies.

Tip (Outright): All "Tip" Bet Options settle on the golfer awarded the trophy, taking any play-off into account. Ties for "top 6", "top 10", "best European player" etc. trigger the Dead-Heat rule. If a tournament is not completed over the pre-set number of holes (shortened by officials, e.g. due to weather): these Bet Options settle on the trophy winner if at least 36 holes were completed and the bet was placed before the last completed round began; voided if fewer than 36 holes were completed; voided if placed after the last shot of the previous completed round. If golfers tie after the scheduled holes and a play-off decides the winner, the play-off winner is the winner and all others are runners-up. A tie for a finishing position counts as such (e.g. three golfers tied for 4th are all deemed 4th).

Making the Cut: Voided if 36 holes (or 54 holes for a 3-round cut) are not completed. On the PGA Tour, any golfer who makes the cut or the adjusted cut is deemed to have made the cut (per the pgatour.com leaderboard).

Round Leader: Settled on the standings at the end of a round. Voided if the round is abandoned before completion. Ties trigger the Dead-Heat rule.

15. Handball

Sport-specific rules for Handball - Handball is played in 2 halves of 30 minutes. - Results are based on matches completed under the rules, disregarding overtime/protests, unless stated otherwise; disqualifications/protests after completion are disregarded. - Standard 2-day cancellation/postponement rule applies. - If the Mercy Rule is invoked, all Bet Options remain valid.

16. Hockey

Sport-specific rules for Hockey - Standard 2-day cancellation/postponement rule applies.

17. Baseball

Sport-specific rules for Baseball - A baseball match normally consists of 9 innings: the first 4.5 innings count as the first half, the last 4.5 as the second half (each inning has a top half, away team batting, and bottom half, home team batting). Where the organiser sets a different match length, halves are determined proportionally; for 7-inning matches, the first 3.5 innings are the first half and the last 3.5 the second half. - All matches must start on the scheduled date (local time) for Bet Options to be valid; otherwise all Bet Options are voided. - If a match is cancelled/postponed/abandoned and not completed/replayed on the original date, already-achieved results settle as completed; the rest are voided. - Exceptions — the score/result at the point of abandonment/interruption is used to settle results in these cases: - At least 8.5 innings played and the home team (batting last) is ahead: the bottom of the 9th need not be played; the result stands as is. - If the match is abandoned/interrupted after at least 5 complete innings (or 4.5 if the home team leads): the winner is determined by the score after the last fully completed inning, unless abandoned in the bottom half of an inning with the home team taking the lead — in which case the home team is declared the winner. Bet Options are voided if the score is level when the match is abandoned/called, unless already achieved; already-achieved results before the interruption remain valid. - If the “Mercy Rule” ends the game early (one team has an insurmountable lead). - **Shortened matches:** If a baseball match is shortened after starting (e.g. bad weather): a bet already winning, unaffected by the shortened play, is settled as a winner (e.g. an “Over total runs” bet plus a named player’s home-run bet stays winning if the runs total and home run were already achieved before the match was shortened); a bet is voided if there are no losing selections yet at least one is still undecided when the match is shortened (e.g. an “Over total runs” bet still under the required total is voided); a bet already lost before the shortening stays a loser (e.g. a “first team to score” bet where the other team already scored first stays a loser). - Results are based on matches completed under the rules including any extra innings, unless stated otherwise. - For “Under/Over” and “Handicap” Bet Options, 9 innings (or 8.5 if the home team leads) must be played — or 7 innings (6.5) for a 7-inning game — otherwise these Bet Options are voided unless already achieved. - If a match is billed as 7 innings and later changes to 9 (or vice versa), Bet Options on it are voided. - Bet Options on specific innings remain valid only if that inning was completed under the rules; otherwise voided unless already achieved. - Results are based on the rules of the game and results as determined by the official organiser. - Bet Builder: all selections must win (no draws) to be a winner. Any voided selection voids the whole bet. A selection on a team to win a match that ends level is settled as a loser even without a draw option offered. Voided if a selected player doesn’t take the field, or if the match is abandoned with no losing selections while at least one is undecided. If all selections already won and abandonment doesn’t affect the outcome, the bet stays a winner; a single already-lost selection loses the whole bet regardless.

Bet Options for Baseball

Handicap: Predict the Fulltime result applying a lead (Handicap) for one team; a decimal figure (e.g. 8.5), so no draw is possible. Example — Run Line -1.5: wins if the chosen team wins by 2+ runs. Run Line +1.5: wins if the chosen team wins by exactly 1 run, or loses.

Result/Handicap/Under-Over after first 3/5/7 innings: Settled on the score after the first 3, 5 or 7 innings are completed under the rules.

Winning Margin: Predict which team wins and the margin of victory; extra innings count.

Under/Over (Total Runs): Predict runs under/over a set decimal number (e.g. 7.5). Can also be offered for a specific part of the match (e.g. 1st/2nd inning), for the home/away team, or a combination.

Odd/Even: Predict whether total hits, runs or another quantifiable total is Odd or Even (0 counts as Even). Can be offered for a specific part of the match or team as above.

Inning Winner: Predict whether a specific inning is won by the home team (1), tied (X), or won by the away team (2).

Team with Most Points in Inning: Predict which team scores more in a specific inning; the Dead-Heat rule applies.

Halftime/Fulltime: Predict both the result after the “first half” (in baseball, the first 5 innings) and the Fulltime result; both must be correct. Voided if the score after the regular number of innings is level.

Player-related Bet Options: Including but not limited to Home Runs, Hits, Singles/Doubles, RBIs, Walks, Total Bases, Strikeouts. If the selected player doesn’t take part, the relevant selections (and thus the whole bet, in a combination) are voided, applied as follows: - Hitting/batting-market selections are live if the player has at least one plate appearance; otherwise voided. - Base-stealing-market selections are live if the player takes part in the game in any capacity (plate appearance, fielding, defensive substitute, pinch-runner, etc.); otherwise voided. - Pitching-market selections are live if the player throws at least one pitch in the game; otherwise voided.

Player selections are treated as live or void per the above regardless of whether the selection refers to a specific part of the match.

Example: A bet on a player to get 1+ hits in the first 5 innings stays live (and settles as a loss) if that player only comes in as a substitute after the 5th inning and bats afterward — because they still took part in the game, even after the bet’s specific period. However, if the player is injured shortly before the game, removed from the lineup/bench, and never gets a plate appearance, the selection (and the whole bet) is voided.

Results are based on the rules of the game and outcomes as determined by the official organiser, including extra innings.

Live Betting: Settled per the rules above unless stated otherwise for that Bet Option.

18. Ice Hockey

Sport-specific rules for Ice Hockey - Results are based on matches completed under the rules excluding overtime, unless stated otherwise. If not played in the 3×20-minute format, all Bet Options on that match are voided. - **NHL:** matches must start on the scheduled date for Bet Options to be valid; if a match is interrupted and finished, say, the next day, all Bet Options are voided unless already achieved. **Other competitions:** standard 2-day cancellation/postponement rule applies. - At least 55 minutes of an ice hockey match must be played; if abandoned/interrupted before that, all Bet Options are voided unless already achieved. - The following Bet Options always exclude

overtime and/or shootouts: all period Bet Options; Draw No Bet; Race To; Both Teams to Score; Full Time (1X2); First Goal/Last Goal; Win to Nil; Period with Most Goals; Double Chance; Time of First Goal. - Shootouts are treated as part of overtime. If a match is decided by a shootout, the winner is credited with one extra goal, which counts toward the total match score and that team's total-goals selections, but is not credited to any individual player — so shootout goals don't count for player-specific markets (goalscorers) or "First Goal"/"Last Goal" markets. - Goals in overtime or the shootout don't count for 3rd-period Bet Options, which use only goals scored in that period's regular time; the shootout-winner's extra goal counts toward the total match score but not individual periods or player stats. Combi Boost results are based on matches completed under the rules excluding overtime and/or shootouts, unless stated otherwise. - Bet Builder: all selections must win (no draws) to be a winner; any voided selection voids the whole bet. A selection on a team to win a match ending level is settled as a loser even without a draw option offered — except NHL matches, where ties after overtime go to a shootout or, in the playoffs, continuous overtime. Voided if a selected player doesn't take the field, or if the match is abandoned with no losing selections while at least one is undecided. If all selections already won and abandonment doesn't affect the outcome, the bet stays a winner; an already-lost selection loses the whole bet regardless.

Bet Options for Ice Hockey

Fulltime (1,2)/Winner: At least 15 minutes of official time must have elapsed in the 3rd period for this Bet Option to be valid.

Puck Line (Handicap): Predict the Fulltime result applying a lead for one team; a decimal figure (e.g. 5.5), so no draw is possible.

Under/Over (including overtime): Based on goals scored by both teams during regular time plus any overtime. At least 15 minutes of official 3rd-period time must have elapsed for bets to be valid, unless the Under/Over is already achieved. If the score is exactly the quoted number, the bet is voided. Period Under/Over bets are valid only if that period was completed under the rules; the 3rd-period Under/Over excludes overtime.

First/Last Goal: Predict which team scores first or last, or that no goal is scored.

Player-related Bet Options: Including but not limited to Goals, Points, Assists, Shots on Goal. Voided if the selected player doesn't start/come on and can no longer achieve the result; valid if the player had the opportunity to achieve it, regardless of playing time. For "Player to reach X Points" (goals + assists combined) — e.g. if Sidney Crosby scores once and assists once, "Over 1.5 points" is the correct prediction. Results are based on the rules of the game and outcomes as determined by the official organiser, including overtime but excluding shootouts.

Live Betting: Settled per the rules above unless stated otherwise.

19. Judo

Sport-specific rules for Judo - Results are based on official results published by the International Judo Federation (IJF) and/or the International Olympic Committee (IOC). - If a match is cancelled/postponed/abandoned and not completed within its tournament's timetable, already-achieved results settle as completed; the rest are voided. - Results are based on the outcome at the podium ceremony; disqualifications/protests during or after are disregarded.

20. Motorsport

Sport-specific rules for Motorsport - Results are based on races completed under the rules, disregarding overtime/protests, unless stated otherwise. - A driver who takes part in the warm-up/formation lap is deemed to have taken part in the race. - Standard 2-day cancellation/postponement rule applies. - If a race is cancelled with no official result declared, Bet Options are voided. - For qualifying bets (Pole Position), the result published by the event's organiser is used. Qualifying consists of Q1, Q2 and Q3, with the remaining drivers in Q3 fighting for Pole. If a sprint race sets the grid for the main race, qualifying determines the sprint race's grid, not the main race's. - For race bets (Formula 1 Grand Prix or any other race event), the official podium-ceremony result is used; if a podium ceremony cannot take place, the first result published by the organiser is used. Any post-announcement changes (e.g. time penalties or disqualifications affecting classification) are not taken into account. If sprint race results factor into a Bet Option's settlement, this will be stated explicitly for that Bet Option; otherwise sprint results are excluded. - For "overtake" Bet Options: (a) the overtaking driver must hold the position until the end of the lap on which it occurred; (b) overtakes during the first lap don't count; (c) both drivers must be on track at the time; (d) a driver overtaken while in the pit lane (including its entry/exit) doesn't count; (e) overtaking a driver at least one lap down doesn't count; (f) a position gained due to a technical/mechanical retirement or a driver leaving the track without a wheel-to-wheel battle doesn't count as an overtake; (g) no overtakes can be recorded under a safety car, virtual safety car, or red flag. - The Dead-Heat rule may apply to certain bets. - For all Motorsport Bet Options where a driver's classification/official result is relevant, the official result of the organiser is used. In Formula 1, only drivers completing at least 90% of the winner's race distance are considered classified for settlement, even if they did not finish; a driver completing less than 90% is not considered classified. This rule applies to all relevant F1 Bet Options unless stated otherwise for a specific one.

Bet Options for Motorsport

Head-to-Head (H2H): Predict which of two TOTO-chosen drivers achieves the better classification. Both must start and at least one must achieve an official result; otherwise voided (odds set to 1.00). Classification follows the general Motorsport rules above.

GP Race – Constructor Winner: Predict which constructor's team wins the race; the winning constructor is the team of the driver who wins the race (not based on total constructor points). *Example:* if Max Verstappen wins, his team is the winning constructor.

21. Padel

Sport-specific rules for Padel - Results are based on the official rules and match results as determined by the official organiser. If official results/statistics are missing or demonstrably incorrect, TOTO may use other reliable, independent sources for settlement. - Where applicable, results are based on the outcome at the podium ceremony; disqualifications/protests during or after are disregarded. - If a padel match is cancelled/postponed/abandoned and not completed within its tournament's timetable, already-achieved results settle as completed; the rest are voided. - If a match does not start (e.g. walkover, withdrawal before the first serve), all Bet Options on it are voided. - If one or more players of a doubles team are replaced before the match starts, all Bet Options on it are voided. - If a team withdraws or cannot continue during the match, already-determined Bet Options remain valid; all others are voided unless expressly stated otherwise. - If the named set, game or point is not played because the game/match has ended, the relevant Bet Options are voided. - Every tie-break counts as one game. Where the official format replaces the deciding set with a match tie-break, that match tie-break is treated as the deciding set for settlement. - A point awarded as a penalty under the official padel rules is treated as part of the official score for settlement. - If Bet

Options remain open while an incorrect score is displayed that materially affects the odds, TOTO reserves the right to void the relevant Bet Options. - All Bet Options remain valid regardless of a change of venue, court, playing conditions, or a switch from indoor to outdoor or vice versa, provided the match is played within the same tournament.

22. Pool

Sport-specific rules for Pool - Results are based on matches completed under the rules, excluding overtime; disqualifications/protests after completion are disregarded. - If a match is cancelled/postponed/abandoned and not completed within its tournament's timetable, already-achieved results settle as completed; the rest are voided.

Bet Options for Rugby

Anytime Tryscorer: Settled on regular time; penalty tries don't count. Valid if the selected player had the opportunity to score, regardless of playing time. If "No Tryscorer" is offered as a selection, all other selections lose if no try is scored, unless the selected player didn't take part at all, in which case the bet is voided.

First Tryscorer: Settled on regular time; penalty tries don't count. Voided if the selected player hasn't started and/or comes on only after the first try has already been scored… Voided if the chosen player hasn't started/comes on after the first try has already been scored. "No Tryscorer" selection logic as above.

Last Tryscorer: Settled on regular time; penalty tries don't count. Valid if the player had the opportunity, regardless of playing time. "No Tryscorer" selection logic as above.

25. Snooker

If not (fully) raced within 2 days of the original date, already-achieved results settle as completed; the rest are voided.

27. Squash

Sport-specific rules for Squash - Results are based on matches completed under the rules, disregarding protests/overtime, unless stated otherwise. - Where applicable, results are based on the podium-ceremony outcome; disqualifications/protests during or after are disregarded. - If cancelled/postponed/abandoned and not completed within the tournament's timetable, already-achieved results settle as completed; the rest are voided. - If the named game or point isn't played because the game/match has ended, the relevant Bet Options are voided. A point awarded as a penalty voids all Bet Options on that point.

28. Table Tennis

Sport-specific rules for Table Tennis - Results are based on matches completed under the rules, disregarding protests/overtime, unless stated otherwise. - Where applicable, results are based on the podium-ceremony outcome; disqualifications/protests during or after are disregarded. - If cancelled/postponed/abandoned and not completed within the tournament's timetable, already-achieved results settle as completed; the rest are voided. - If the named set, game or point isn't played because the game/match has ended, the relevant Bet Options are voided. Sport-specific rules for Tennis - If cancelled/postponed/abandoned and not completed within the tournament's timetable, already-achieved results settle as completed; the rest are voided. - If a match does not start (e.g. a player's walkover), all Bet Options on it are voided. - If penalty point(s) are awarded by the umpire, all Bet Options on that game remain valid. - If a match ends before certain points/games are played/completed, all Bet Options on those games/points are voided. - Every tie-break or match tie-break counts as 1 game. If a match tie-break is played as the deciding set in a "Best of 3" format, it's treated as the 3rd set. - TOTO reserves the right to void bets left open with an incorrect score that materially affects the odds. - All Bet Options remain valid regardless of a change of venue, court surface, or indoor/outdoor switch. - Tennis Bet Builder: all individual selections must be correct to win; any selection that doesn't win is settled as a loser unless stated otherwise. If one or more selections are voided (e.g. a player withdraws before the match starts, or the match is abandoned and not resumed within the tournament), the entire Bet Builder bet is voided. If a match doesn't start due to a walkover, all Bet Builder selections on it are voided. If a Bet Builder selection ("Player X wins the first set") is correct and that player then retires, that selection stays valid; other selections dependent on later sets are voided. If a player retires mid-match, all undecided Bet Builder selections are voided; selections already decided before the retirement remain valid and settle normally. - Results are based on the rules of the game and results as determined by the official organiser.

Bet Options for Tennis

Point bets: Predict which player wins a specified point. Voided if the point isn't played for any reason (awarded as a penalty point, the game/match ends first, a player retires, etc.). Tie-break points don't count for these Bet Options.

Tie-Break bets: Tie-break points don't count toward game-based Bet Options. "Total Under/Over" is based on the number of tie-breaks in the match. A Super Tie-Break counts as one game for game-based Bet Options but not for total match/set/player tie-break markets. If a tie-break occurred in an interrupted/abandoned match, all tie-break Bet Options apply; if none occurred, they are voided.

Player-related Bet Options: Including but not limited to Aces, Breaks, Points Won, Tie-Breaks. Voided entirely if the player doesn't start the match (walkover/withdrawal). If a player retires mid-match, undecided selections are voided; already-decided ones settle on the final outcome. *Example:* a bet on a player for over 5 aces, who hits 6 before retiring, wins; if they retire before reaching the predicted number, the bet is voided. Results are based on official statistics/results from the tournament organiser, based on the parts of the match completed under the rules, regardless of interruptions, unless stated otherwise.

Set X, Game x – Ace: Predict whether an ace is served in a specific game of set X. Voided if that game isn't completed.

Set X – Next Ace: Predict which player serves the next ace in set X. Voided if the set is interrupted and not resumed within the tournament.

Set X – Next Break: Predict whether/when a player breaks the opponent's serve in set X. Voided if the set isn't completed.

Set X, Game x – Break Point: Predict whether there will be a break point in a specific game of set X. Voided if that game isn't completed.

Set X, Game x, Point y – Serve Outcome: Predict how the serve of a specific point ends (ace, fault, return in play). Voided if the point isn't played.

Set X, Game x, Point y – Point Outcome: Predict who wins the point and how it ends. Voided if the point isn't played.

Set X, Game x, Point y – Total Shots: Predict the total number of shots played in a specific point. Voided if the point isn't played.

Set X, Game x, Point y – Last Shot: Predict the type of the last shot of a specific point (forehand, backhand, volley, etc.). Voided if the point isn't played.

30. Gymnastics

Sport-specific rules for Gymnastics - Results are settled based on official results published by the official organiser. - If cancelled/postponed/abandoned and not completed within the tournament's timetable, already-achieved results settle as completed; the rest are voided. - A gymnast who takes part in the qualifying round of an apparatus is considered a participant in both the individual all-around and that specific apparatus event. - If a country has five participants in the qualifying round, they are considered a participant in the team event. - Results are based on the podium-ceremony outcome; disqualifications/protests during or after are disregarded.

31. Combat Sports

Sport-specific rules for Combat Sports - A fight is deemed to have officially started when the bell sounds for round 1. - Results are not official until verified by venue officials; if not verified there, official-

organiser reporting is used instead (and only then). Reversals by official/unofficial sanctioning bodies (appeal, suspension, lawsuit, doping result, other sanction) are not recognised for settlement. - If cancelled/postponed/abandoned and not completed/replayed within 7 days of the original date, already-achieved results settle as completed; the rest are voided. - If a “no contest” is declared, all Bet Options are voided except those already unambiguously determined (can occur when something falls outside the rules). If a fight is ruled “no contest” or stopped while all Bet Builder selections are still undecided, the entire bet is voided; if a selection had already lost before the stoppage, the bet is settled as a loser. - If a fighter is replaced, Bet Options on the original match are voided. - If how the fight is billed changes (e.g. title to non-title fight), Bet Options remain valid. - If the scheduled number of rounds changes: “Winner” and “Result” remain valid; all others (“Method of Victory”, “Exact Round”, “Winner & Exact Round”, “Winner & Round Range”, “Fight to go the Distance”) are voided. If the round count for an MMA fight changes before it begins, all Bet Builder bets depending on round count (over/under, specific-round bets) are voided, but bets on the fight winner remain valid. - If a fighter withdraws between rounds, the fight is deemed to have ended after the previous round. - Bet Builder: all selections must be correct to win. A voided selection voids the whole bet, unless all other selections have already won, in which case the bet stays a winner. Selections on method of victory or specific rounds are settled as losers if the chosen fighter doesn’t win as predicted or the fight ends without that method occurring. - The Dead-Heat rule may apply to certain Bet Options.

Bet Options for Combat Sports

Fight Winner: Predict which of 2 fighters wins. Voided in the event of a draw if a draw option wasn’t offered.

Under/Over (rounds): A decimal number (e.g. 2.5). For settlement, 1:30 counts as half a round for 3-minute rounds, and 2:30 for 5-minute rounds (e.g. “Over 2.5 rounds” requires the fight to pass 1:30 of round 3). Voided if the scheduled rounds changed after this option was offered.

Fight to go the Full Scheduled Rounds: Predict whether all rounds are completed. Voided if the scheduled rounds changed before the fight. A fight decided by the judges did NOT go the full scheduled distance.

Method of Victory: KO or TKO — KO is when the fighter is deemed to have lost consciousness from legal strikes in the ring; TKO includes the referee stepping in because a fighter can no longer safely continue. **Decision/technical decision:** based on the three judges’ scorecards. **Draw/technical draw:** a technical draw is when the referee stops the fight due to an accident or foul before the required rounds are completed, to be decided on the judges’ scorecards.

Player-related Bet Options: Including but not limited to Number of Knockdowns, Takedowns, Significant Strikes Landed, Submission Attempts. Voided if the selected fighter doesn’t take part (injury, non-selection); valid once the fight begins, regardless of duration, per the same injury-example logic as other sports. Voided if the fighter is injured/replaced/never begins. Results are based on the rules and outcomes as determined by the official organiser, based on fights completed under the rules.

32. Football (Soccer)

Sport-specific rules for Football - A football match consists of 2 halves of 45 minutes plus stoppage/added time. - Friendlies may use a different format: if two halves are played, all Bet Options settle normally regardless of duration played; if not played in two halves, all 1st/2nd-half Bet Options are voided, and the rest settle on the Fulltime result. - Results are based on matches completed under the rules, disregarding overtime/protests, unless stated otherwise. If at

least 80 minutes of regular time was played and the match is abandoned and not completed/replayed within 2 days of the original date, the score/result at the moment of abandonment is used. - If a match is cancelled/postponed or abandoned before 80 minutes were played, and not completed/replayed within 2 days, already-achieved results settle as completed; the rest are voided. - For any time period up to 45 or 90 minutes, events (goals, shots on target, etc.) occurring in added/stoppage time count. - Goal-related Bet Options settle on the moment/time the ball crosses the line. - Own goals don't count for goalscorer Bet Options. - The Dead-Heat rule may apply to certain bets. - Kick-off dates/times shown on the website are indicative only and create no rights. - In the event of extra time, live bets are settled based on official extra-time statistics only; goals scored in regular time don't count.

Voiding rules: TOTO may void Bet Options, including where: a Bet Option remained open after the relevant event(s) had already occurred; offered with an incorrect kick-off time; an incorrect score/result was entered that affects displayed odds; a match is interrupted/postponed and not resumed within 2 days of the original date; team names or competition are shown incorrectly; a VAR intervention occurs (see below).

Early payout ("Result – Early Payout"): Applies to pre-match single and combination bets on the Result Bet Option for TOTO-selected football matches. Not applicable once Cash Out has been fully applied to a stake. For single bets, the bet fully settles once your team leads by two goals at any point in the match, regardless of the final result. For combination bets, the relevant selection(s) are marked as won in "My Matches" while the remaining selection(s) stay live. Applies only to the Result Bet Option and is based on the result at the end of 90 minutes' play, including stoppage time but excluding extra time/penalties. Does not apply to a Draw selection. Bets placed on the regular Result Bet Option are unaffected by this settlement feature otherwise. A bet already early-settled is not re-settled if your selection later loses.

VAR: Bets placed between an incident triggering VAR review and the referee's decision are voided, unless: (i) the VAR review and subsequent decision doesn't change the referee's original decision (e.g. a penalty given, upheld after VAR review); or (ii) the decision does change, but has no bearing on the chosen Bet Option.

Bet Options for Football

Player-related Bet Options: Including but not limited to Assists, Shots, Shots on Target, Player Scores from Outside the Box, Player Scores in the First 10 Minutes, Player Scores a Header, (First) Goalscorer, Goalkeeper Saves, Player Specials. Valid if the selected player had the opportunity to achieve the result, regardless of whether they started or how long they played — "taking part" means actually being on the pitch during regular time plus stoppage time. For Bet Options tied to a specific period, the player must play within that period, or the bet is voided. For Bet Options not tied to a specific period, the bet settles on the actual result achieved during the player's playing time, regardless of when they came on; if the player doesn't take part at all, the bet is voided.

Example 1: Ronaldo comes on in the second half for the Player Special "Ronaldo scores in the first 10 minutes" (a goal must occur by 9:59; the clock showing 10:00 means the 11th minute has begun). Since Ronaldo didn't play the first 10 minutes, the bet is voided.

Example 2: If a player comes on as a substitute in the 60th minute for "Player X over 0.5 shots on target," the bet settles on what that player actually achieves during their time on the pitch — win if they reach the total, lose if not.

Own goals don't count toward these Bet Options; if an own goal is the only goal of the match, "no goalscorer" is the winning prediction.

Bet Options on whether a player scores from a certain part of the pitch (e.g. outside the box) are settled based on the ball's position at the moment of the shot, disregarding deflections; the lines marking the box are considered part of the box — a shot from on or over the line does not count as "outside the box."

Players who score the first or last goal are the correct prediction regardless of whether they were offered as a named selection for that Bet Option.

Detailed rules for "Shots": The Participant predicts whether (i) an individual player or (ii) a team reaches a given number of "Shots" during a match (or a specified period, e.g. 1st half). A shot is a deliberate goal attempt that: goes in; would have gone in but for a save by the keeper or a block by the last defender; is heading goalward and blocked by a defender who is not the last man (with other defenders/keeper behind); would have gone over/wide but is stopped by the keeper or a field player; hits the frame of the goal; or goes over/wide without touching another player. Shots are determined using final data from Optasports (part of Stats Perform) after the match; Opta's data is authoritative and other sources are excluded.

Detailed rules for "Shots on Target": As above, but for shots on target, which can be offered for individual players or Head-to-Head (predicting which of two named players has more shots on target), or as a list of players (most shots on target — Dead-Heat rule applies on ties). A "shot on target" is any goal attempt that goes in (regardless of intent) or is a clear scoring attempt that would have gone in but for a save by the keeper, or is stopped by the last defender in a way that gives the keeper no chance to prevent the goal. Determined via final Optasports data; other sources excluded. Illustrative note: shots that hit the frame of the goal (post/bar) don't count as on target unless the ball then goes in and is awarded as a goal; shots blocked by a non-last-man defender don't count as on target.

Illustrative examples (Shot / Shot on Target): A cross that goes toward goal but is caught/parried to a corner by the keeper → not a shot on target. A deflected shot that appeared goal-bound and is saved by the keeper → shot on target. A blocked shot that loses pace and ends up in the keeper's hands anyway → not on target. A blocked or deflected shot against the post/bar → not on target. A shot that goes in off the post/bar → on target. A shot that would have gone wide but is stopped by the keeper → not on target. A corner that goes straight on target but is saved → not on target. A goal scored directly from a corner → on target. A shot cleared off the line by a defender considered the "last man" (last-line block) → on target. A shot on target blocked by an attacking-team player → on target if it prevents a certain goal ("goal-line clearance"). A ball deflected off a defending player toward goal that the keeper has to deal with while clearing → not on target. A shot against the post/bar that rebounds via the keeper back into play → not on target. A shot hitting post/bar that rolls over the line before being cleared → not on target. A flick-on/deflection from a corner or free kick that ends in the keeper's hands → not on target.

Detailed rules for "Assists": The Participant predicts which player provides an assist during the match, the first assist, or the last assist. An "assist" is a pass by a player to a teammate who scores, without any other player touching the ball in between. Determined via final Optasports data; other sources excluded. A goal scored directly from a corner or direct free kick has no credited assist; the same applies to a goal from a penalty, or scored immediately after a missed penalty. For "First Assist," if no assist is credited for the match's first goal, the assist for the second goal is treated as the first assist, and so on. If the named player for "First Assist" is not on the pitch once the first assist has already been given, the bet is voided.

Golden Substitute: A settlement feature TOTO may offer for selected football matches and Bet Options (indicated where it applies). It means that if the selected player is substituted during the match, the

bet stays live under the original prediction and odds — if the substitute achieves the predicted result, the bet wins. If the original player already achieved the predicted result before being substituted, the substitute achieving it again doesn't count a second time. If the substitute is themselves substituted, the Golden Substitute rule carries forward to the next player, and so on. Applies only to events during regular time including stoppage time; excludes extra time and penalty shootouts. Does not apply to TOTO Boosts or other TOTO Specials (settled under their own rules), nor to bets fully or partly settled via Cash Out. TOTO determines and may change which matches/Bet Options offer the Golden Substitute.

Example: A bet that Player A scores at least one goal. Player A is substituted without scoring; Player B replaces him. If Player B scores at least once during regular time, the bet wins. (If Player A had already scored before being substituted, the result is already achieved and a later goal by Player B doesn't count again.) If Player B is later substituted by Player C, the Golden Substitute carries forward to Player C. This does not work in reverse: if the bet is on Player B to score and Player B comes on for Player A (who already scored), the bet doesn't automatically win — Player B must score themselves.

MultiMatch Specials: Predict whether one or more players/teams achieve a specified result; where it concerns named players, it's settled per the "Player-related Bet Options" rules above.

Competition Specials: Predict whether a specified result is achieved across a (part of a) round of one or more competitions; the description states how many matches or names the teams. If one or more matches in the specified round are cancelled/postponed and not played on the original date, the bet is voided (odds set to 1.00). If cancelled/abandoned/postponed after other matches in the round have already started, and not played on the original date, the bet is voided (odds 1.00) unless the required result was already achieved or could no longer be achieved. If a match is abandoned after at least 80 minutes and not replayed on the original date, that result is used for settlement.

Example: A bet on "Sunday Eredivisie Special – 5 matches: at least 10 goals" where the Fortuna Sittard–Ajax match is postponed and not replayed the same Sunday: if the other Sunday matches already produced 10+ goals, the bet wins as normal; if fewer than 10 goals were scored, the bet is voided (odds 1.00).

Method of scoring: - *Free kick:* the goal must be scored directly from the free kick to qualify; deflected shots still count as long as the goal is credited to the free-kick/corner taker. - *Own goal:* a goal recorded as an own goal. - *Header:* the scorer's last touch before the ball crosses the line must be with the head. - *Shot:* scored with a body part other than the head, and none of the other scoring methods above apply.

Head-to-Head (H2H): The winner is the team/player who progresses further in a tournament; if both reach the final, the final's winner is the H2H winner; if both are eliminated in the same round/stage, the Bet Option is voided.

Clean Sheet (Home/Away): Predict whether a team finishes the match without conceding. Own goals count toward conceding. Voided if the match is interrupted/abandoned and not completed/replayed within 2 days.

Both Teams to Score: Predict whether both teams score at least once. Own goals count for the team credited. Voided under the same 2-day interruption rule. "Yes" = both teams score; "No" = one or both teams fail to score.

Goal/No Goal: Predict whether both teams score one or more goals (G = Goal). If only one team scores, or neither scores, this is settled as No-Goal (NG).

Total Goals: Predict the combined total goals scored by both teams, choosing from pre-set ranges (e.g. 0-1, 2-3, 4+) or exact numbers (0, 1, 2, 3, 4, 5+).

Method of Winning: Predict how a team wins. For “wins in regular time / after extra time / on penalties,” extra time and shootouts count toward settlement. For other options (e.g. “win from behind” or “win to nil”), the score after 90 minutes plus stoppage time applies; extra time/shootouts are excluded.

Win from Behind: Predict whether a team wins after having trailed (i.e. conceded the match’s first goal).

Win 1st Half or Match: Predict whether the named team wins the first half or the match; either result wins the bet.

Win 1st Half or 2nd Half: Predict whether the named team wins the first half or the second half; either result wins the bet.

Team Scores in Both Halves / Wins Both Halves: Predict Yes/No.

First/Last Team to Score: Predict which team scores first or last, or that no goal is scored.

33. Volleyball

Sport-specific rules for Volleyball - Standard 2-day cancellation/postponement rule applies; exception for tournament matches, which follow the tournament’s own timetable instead. - Golden Set results are disregarded for settlement, except for the “Who Qualifies for the Next Round” Bet Option. - Referee-imposed point deductions are reflected in official results for settlement, except for “Race To” Bet Options and points already achieved. - If an offered Bet Option (e.g. a points bet) isn’t played out (e.g. due to the match/set ending), it is voided.

34. Waterpolo

MLB wagers

It is the client's responsibility to ensure they are aware of any relevant pitcher changes. For game side/total/run-line betting there are three options to choose from:

Action - team against team regardless of the starting pitcher. Each team's starting pitcher is defined for wagering purposes as the pitcher that throws the initial pitch. Pitchers can be specified when placing wagers.

One specified pitcher - a wager on or against one specific starting pitcher regardless of the other starting pitcher. Specified pitcher must start or wager is deemed no action.

Listed pitchers must start - a wager that specifies both starting pitchers. Any variation constitutes no action. Wagers with 'One specified pitcher' and 'Listed pitchers must start' that were placed when the named pitcher was originally listed are no action if the listed pitcher is changed and is then re-listed back to the original pitcher.

Wagers placed on the named pitcher, after being re-listed, are action.

In the event of a change in one or both starting pitchers prior to the start of a baseball game then the side/total/run-line betting may be adjusted. If one scheduled starting pitcher starts against an unscheduled starting pitcher, or both starting pitchers were unscheduled, then all 'action' and live 'one specified' pitcher wagers will be computed at the opening price/line established with the new starting pitcher(s).

Double pitching change, where a listed pitcher is changed then re-instated for betting purposes, bets will be treated as a normal pitching change.

A regulation game in both games of a double-header shall consist of seven innings, unless extended because of a tie score. In this response, the "Extra Innings" rule shall apply to each half-inning following the completion of the seventh inning.

Moneyline/total/run-line - 8½ innings rule applies although in the event of a 'Mercy Rule' being called, all bets will stand on the score at the time.

4½ innings rule

If a game is 'called', or suspended, winners and losers for betting are official after at least 5 full innings of play unless the home team is leading after 4½ innings. If a game is 'called', or suspended etc, the winner is determined by the score after the last full inning (unless the home team scores to tie, or takes the lead in the bottom half of the inning, in which case the winner is determined by the score at the time the game is called). Please note that suspended games do not carry over.

Tournament top 4/Top 5/Top 6/Top 10 finish

Dead-Heat rules apply.

the case of place bets where there is a tie after completion of the predetermined number of holes (subject to rule 32 (1) and 32 (2) herein), the revised payout payable shall be calculated by the following method:

divide the face value of the sports bet (the original payout and the original stake) by the number of competitors involved in the tie, draw or dead-heat, then

multiply the figure obtained in (i) by the number of official placings to be filled by the competitors involved in the tie, draw or dead-heat.

Example 1: Tiger Woods wins a tournament, Ernie Els comes 2nd and Adam Scott, Retief Goosen, Vijay Singh and Michael Campbell finish in a tie for 3rd place. If you have selected Scott to finish in the placings at 5/1 and you wagered 1000/200, the original payout of 1000 would be divided by 4 leaving the face value of the bet at 250/50. The official placings filled by the competitors who have tied is 2 (assuming you are paying the top 4 places), viz: 3rd and 4th place, so the bet would become 500/100.

Example 2: Woods wins a tournament, Els and Scott tie for 2nd, Goosen, Singh, Campbell and Garcia tie for 4th.Your wager is 2000/500 on Garcia to finish in the top 4.Your bet would be 500/125.

Finishing position of a named player

In the event of a tie for a finishing position the tied position will count. For example, a tie with 5 other players for 8th place will count as a finishing position of 8th.

54, 72 and 90 hole match betting

If a tournament is affected by adverse weather then bets will be settled providing that there is a deemed tournament winner and a minimum of 36 holes are completed. The winner will be the player in the lead at the end of the last completed round.

If one player misses the cut then the other player is deemed the winner. If both players miss the cut then the lowest score after the cut has been made will determine settlement.

If a player is disqualified or withdraws after starting, either prior to the completion of two rounds or after both players have made the cut, then the other player is deemed the winner.

If a player is disqualified during either the 3rd or 4th rounds, when the other player in the match bet has already missed the cut, then the disqualified player is deemed the winner.

A price will be offered for the tie and in the event of a tie bets on either player to win will be lost.

Bets on markets that can be settled by using the official tournament and match results (including final match correct score and individual match betting) will be settled using those results. This includes where a match finishes early either by agreement of the players or through injury.

All other markets where a match finishes before completion of 18 holes (e.g. by agreement), such as match score, will be settled as if the remaining uncompleted holes are ties. For example, a player 2 up at the 13th hole when the match finishes will be deemed to have won 2 and 1 (at the 17th hole). Uncompleted single hole bets will be void.

Greensomes

Bets settled on official tour result.

Foursomes

Bets stand once both pairings have teed off the first hole.

36 hole match betting

If the number of rounds played is reduced, e.g. for bad weather, bets will be settled providing that a player has won the trophy (bets will stand as long as there is a deemed winner and a minimum of 18 holes are completed).

If a player is disqualified or withdraws after starting prior to the completion of two rounds then the other player is deemed the winner.

A price will be offered for the tie and in the event of a tie bets on either player to win will be lost.

Ryder Cup/Solheim Cup/Walker Cup/Warburg Cup/Presidents Cup and any other ‘international matches’

In the event of adverse weather affecting the tournament then settlement will stand as long as a minimum of 36 holes of a tournament are played.

Hole In One - Relates to a hole in one being recorded in the designated Rounds of a specified tournament. In the event of adverse weather affecting the tournament then bets will stand as long as a minimum of 36 holes of a tournament are played. In the event of a hole in one being recorded, but 36 holes not being played then the ‘yes’ option - ‘to make a hole in one’ - will be deemed the winner.

To Make/Miss Cut - A tournament cut must be applied for bets to stand. - 5, 6 or 7 runners - one quarter the odds - first two places.
- Less than 5 runners - the place part goes to win.

Where a client selects a trap number from which no selection runs, in singles, doubles, trebles, etc, then this will be treated as a Non-Runner.

If a reserve dog runs the following settlement rules apply: If a trap number is selected and a reserve runs then bets on the trap number will be settled on the reserve at SP. Bets on all other dogs in the race where a price was taken before the reserve was announced will be settled at SP. If a named dog (‘No reserves’) is selected and a reserve runs in place of the named dog then the bet will be settled as a Non-

Runner. Where a price is taken then bets on named dogs placed prior to withdrawal in a race where a reserve runs from a different trap will be settled at SP.

Payment will be made on the official result of races. Bets will be void in the event of no Starting Price being returned. World Sports Betting reserves the right to declare void any bets where it considers there to be reasonable suspicion or evidence of unfair price manipulation.

When a race is re-run all bets stand. However, where a Price has been taken, settlement will be at the Starting Price returned on the re-run. Should a race be declared void and not re-run then all selections will be treated as Non-Runners.

In the event of abandonment or postponement to races where Early Prices have been offered, all bets will stand as long as the races are rescheduled and completed. However bets where a Price has been taken will be settled at the Starting Price, should a Non Runner, in the specified race, be declared.

Early prices

In the event of any withdrawals resulting in either a vacant trap or a reserve greyhound running then all bets taken at Early Prices prior to withdrawal will be settled at SP.

Trap challenge

Odds may be available on which trap will win the most races at either one greyhound meeting or two meetings combined.

In the event of a Dead-Heat each dog is awarded ½ win. If all races are not completed or there are any vacant traps then all bets will stand. Dead-Heat rules apply for settlement purposes.

US greyhounds

If no Industry SP is declared and no price is taken then bets will be settled based upon the Pari-mutuel (Tote) dividend (declared inclusive of stake). US Host Track settlement rules will apply to all Pari-mutuel bets.

Pari-mutuel bets are accepted Win, Place, Show, Exacta (straight forecast) and/or Quinella (dual forecast), Trifecta and Superfecta.

Up to 3 runners - win only

4 runners - two places (Place dividend)

5 or more runners - three places (Show dividend) or two places (Place dividend)

Should a race be declared ‘No Contest’ then all bets on that race will be made void and the selection counted as a Non-Runner for settlement purposes. If a bet is placed for a bet type where no dividend is declared then that part of the bet will be made void.

Handball

Match betting

Unless otherwise stated all bets will be settled based on the score at the end of regulation time and excluding overtime if played.

If a match venue is changed then bets already placed will stand providing the home team is still designated as such. If the home and away team for a listed match are reversed then bets placed based on the original listing will be void.

Matches postponed, brought forward or abandoned

Tournament top Goalscorer

To determine the best non-European team the following criteria will be used for settlement purposes: Firstly team with the highest place finish. In the event of no teams being placed, then most points accrued in group stages, then team with best goal difference, lastly team with most goals. If still tied then Dead-Heat rules apply.

In-Play betting

All markets are based on regulation time for settlement purposes (overtime does not count). In tournaments, if a new market is formed at the end of regulation time, e.g. To Win in Overtime, penalty shootouts count.

General

If no official SP is returned, if no price is taken, then all bets will be settled at the last Industry show passed. If no Industry show is given then bets will be settled on the last available World Sports Betting price.

Ante-Post

With the exception of starting price bets, should any selection not run for any reason other than the abandonment of the race itself-

a. An ante post bet shall be lost and the punter shall forfeit his stake; and

b. Ante post bets struck on other horses/contestants in the race concerned shall not be subject to any adjustment in betting odds.

c. Ante-post bets are final once struck and cannot be cancelled, amended, or refunded under any circumstances.

Where a race is abandoned, all ante post selections that are still live or undetermined involving the race concerned, shall become void and stakes refunded or credited.

Should a selected horse/contestants in any leg of a multiple event bet be scratched, withdrawn or not accepted prior to the bet becoming void or being won, the bet shall be regarded as lost, notwithstanding the fact that any included race is abandoned.

Stewards are empowered to reduce the numbers in a race if, at the overnight declaration stage, too many have been left in for the safety of horses and jockeys. Ante-Post bets on horses compulsorily withdrawn will be void and stakes returned. Bookmakers in these circumstances are authorised to make appropriate deductions from winning bets on the race, depending on the price(s) of the withdrawn horse(s) at the time of withdrawal in accordance with the Deduction Rule. On the ‘Day of the Race Prices’ deductions will also apply.

Ante-Post bets are settled at the Price and Place terms applicable at the time of acceptance. Should a wrong Price or Place terms be given in error we reserve the right to settle the bet at the correct Price/Place terms that were available at the time the bet was struck.

Should a wager struck at a price on the day of an event couple selection(s) in that event with selection(s) in future event(s) then if the first selection(s) does not run the wager will be executed on the remaining selection(s) on the basis of all in, run or not.

Postponed races

If a race is postponed to another day and overnight declarations stand then bets stand. However, single bets on horse racing will be made void and any selection involved in accumulative bets will be treated as a Non-Runner if:

- The race is abandoned.
- The race is officially declared void.
- The conditions of the race are altered after bets are made - The venue is altered.

Betting with a Run

Where a single bet is made “with a run” and the selected horse/contestant is scratched the bet shall become void and the punter shall be refunded.

All bets struck “with a run” on the remaining horses/contestants in a race where one or more horses/contestants have been scratched, shall be subject to deductions specified in our rules.

Where a deduction applies to remaining runners in any event of a multiple event bet “with a run”, the relevant deduction shall be applied to the runner/contestants of the event where the scratching occurred, and the entire bet recalculated in respect of the event from which the horse was scratched.

Any bets “with a run” struck after the official announcement of the withdrawal of one or more horses/contestants shall not be subject to any deduction, unless there is a further withdrawal or withdrawals.

Where a race is abandoned, all selections “with a run” on the race concerned shall become void.

In starting price multiple bets “with a run”, winnings on winning bets shall be calculated and paid at the official starting prices

Each-Way Betting and Place Betting Structure

Bets are settled to win unless ‘Each-Way’ is selected. An Each-Way bet is a bet of twice the selected unit stake. It contains one bet of unit stake on the selection to ‘Win’ and one bet of unit stake on the selection to be ‘Placed’ according to the terms advertised for the event.

World Sports Betting bets on a the place of a nominated racing event according to the following place structure calculated on a percentage the advertised ‘win’ price:

NUMBER OF RUNNERS PAY PLACES

4 -7 Runners 2

8-13 Runners 3

14/More Runners 4

Place Only Betting

Bets on non-runners will be void, and when applicable a deduction will apply to all remaining runners based on the win deduction of the withdrawn horse at the time of withdrawal. In the event of non-runners the number of places paid will remain the same, unless the number of runners in the race is equal to or less than the number of places paid, in which case World Sports Betting has the right to refund place betting on that particular race. This market is settled on the official place terms of the race. Normal dead-heat rules apply. In the event of two or more horses being withdrawn before coming under starter's orders then the total deductions will not exceed R0.95 in R1.00.

Pay Places are determined by the number of carded runners (excluding number of reserve runners).

Dead-Heats

In the case of a two horses/contestants dead heat in races other than "match races", and also in winning multiple event bets where one race results in a dead heat, the punter shall lose half of the odds in the event where the dead heat occurs, and further lose half of the amount staked, the entire bet is then recalculated as a result of the event where the dead heat occurred.

If more than two Dead-Heat the stake is proportioned accordingly.

In the case of a dead heat in a match race the selection shall be void, unless the bet was placed on the outcome being a dead heat.

In winning multiple events bets where two races result in dead heats, the punter shall win the odds to one quarter of the stake and lose the other three quarters, and so on for further dead heats.

Notwithstanding the provisions of rule 18(2), in the case of a three horse/contestant dead heat in a multiple event bets, where one race/event results in a triple dead heat, the punter shall lose two thirds of the odds in the event where the dead heat occurs and lose two thirds of the stake and the entire bet is recalculated as a result of the event where the dead heat occurred.

Odds and Evens Betting

Dead-Heat Rules Apply

Deductions Rules Apply on any deduction of 15% and more

Early morning prices/day of event prices

After the final declarations stage, Non-Runner no-bet will apply.

If an early price is taken prior to a reserve horse being declared to run and the reserve was not quoted (either at starting price or early price) at the time the bet was placed then any such bets will be settled on the result "without the reserve runner(s)".

Withdrawals other than Ante-Post

Where a horse is withdrawn before coming under starter's orders, or is officially deemed by the starter to have taken no part in the race, then stakes will be returned on the withdrawn horse and winning bets

will be subject to a deduction. The rate of deduction will be based on the price of the withdrawn horse at the time of its withdrawal on the following scale:

ODDS DEDUCTION

22/1 & Bigger No Deduction

13/1 to 20/1 5%

9/1 to 12/1 10%

6/1 to 8/1 15%

15/4 to 11/2 20%

3/1 to 7/2 25%

22/10 to 28/10 30%

16/10 to 2/1 35%

13/10 to 15/10 40%

11/10 to 12/10 45%

19/20 to 1/1 50%

15/20 to 9/10 55%

11/20 to 7/10 60%

9/20 to 5/10 65%

4/10 70%

1/3 & Shorter 80%

Please note: Any prices that fall between two ranges will default to the lower deduction amount percentage. All deductions are based on the official on course price at time of scratching, and are subject to the pricing specificed by the National Bookmakers associated, or the relevant preciding associated within the international district.

In the event of two or more horses being withdrawn before coming under starter’s orders then the total deductions shall not exceed R0.90 in R1.00.

Should a horse be withdrawn and a new market formed then any bets laid at ‘Show’ prices prior to the new show will be subject to the above deductions. In the event of a further withdrawal after the market has been re-formed then bets placed at ‘Show’ prices in the original market will be subject to a further deduction based on the price of the withdrawn horse in the original market. Bets placed in the new market will be subject to a deduction based on the current price.

The above scale will also apply in the case of Non-Runners in Early Price races and will be used for other events where we specifically advertise that deductions will apply.

Re-runs

In the event of a false start, etc. resulting in a race being re-run, ‘under starter’s orders’ is negated and stakes will be refunded on horses taking no part in the re-run. Returns on the remaining runners subject to a deduction. The number of runners taking part in the re-run governs Place terms.

In the event of any race being ordered to be re-run:

(a)“starting price” bets shall be calculated and paid at the current price at the time the race is finally run;

(b)“with a run” bets on any horse/contestants, which started on the first occasion and which as subsequently scratched, shall be void and the deductions in terms of rule 16 shall apply; and

(c)”ante-post” bets shall stand

the R2,000,000 Payout/Ticket limit will apply.

The dividend that will be paid to you (Before Betting Tax) will be R1,200,000 less your stake.

If you catch 20% of a Pick 6 that pays R2,200, 000 to a 1 Rand unit for example,

the R2,000, 000/1 Odds/Dividend Limit will apply

The payout(Before Betting Tax) will be R400,000 (20% of R2,000,000).

Lotto, Power Ball, Multiple Bets and Yankee type bets are also limited to the lesser of the R2,000,000 Payout/Ticket limit or R2,000,000/1 Odds/Dividend Limits.

South African Pick 6 Carryover Rules

In the event where there are no winning tickets on the Totalisator Pick 6 (i.e. a full carryover), but winning tickets at World Sports Betting, we will pay a dividend determined by dividing the Totalisator Pick 6 net carryover amount by the number of all winning combinations at World Sports Betting. The maximum liability to any customer or syndicate of customers, as may be determined by World Sports Betting in its sole discretion, shall be limited to the total carryover amount. These dividends and pay-outs will be subject to ticket limits.

In the event WSB pays more than 30 % (of winners)or more of any pool to one customer or customers , the bets are recalculated

Both stake and winners are revised

NUMBER OF WINNERS ON TOTE 100 , WSB HAS MORE THAN 33 COMBINED (EVEN ON DIFFERENT ACCOUNTS AND DIFFERENT COMBINATIONS)

Tote bets were the totalisator increased unit cost

Please note that with effect from October 2019, the totalisator has increased tote unit costs , World Sport Betting lays the open bet for R1 unit. Therefore, for settlement purposes, the tote dividend will be divided by the cost of the unit

E.g.

If the unit cost R2.00 the dividend will be divided by 2

If the unit cost R3.00 the dividend will be divided by 3

If the unit cost R4.00 the dividend will be divided by 4

If the unit cost R5.00 the dividend will be divided by 5

If the unit cost R6.00 the dividend will be divided by 6

Totalisator Open Bet Carryovers/Net Pool Ruling

World Sports Betting base their Dividends/Payouts/Open Bet odds on the official dividend declared by Saftote and do not consider dividends declared by any other division or Totalisator in the Republic of South Africa.

World Sports Betting however reserve the right to utilise other dividends where we deem that the Totalisator pools are of significant size to produce stable and market related returns or odds.

In addition to the above limits World Sports Betting reserves the right to limit a dividend/return on a payout to the extent that the total payout does not exceed the “Nett Tote Pool” or in other words the Gross Tote pool less the Totalisator deductions.

Open/Exotic bet dividends are based on figures released from the Totalisator Operators Phumelela and Tabgold. Should there be no winning tickets on any pool on the Totalisator (ie a full carryover) but winning tickets at World Sports Betting, World Sports Betting will pay a dividend determined by dividing the Totalisator net pool by the number of all winning combinations at World Sports Betting. The maximum liability to any customer or syndicate of customers as may be determined by World Sports Betting in its sole discretion shall be limited to the total net Pool. These dividends and pay-outs will be subject to ticket limits. By way of example if a Trifecta is not won on the Totalisator and a Net pool of R10 000 is carried over. There are 10 winning combinations at World Sports Betting on this event then the Net pool of R10 000 is divided by 10 and a dividend of R1000 will be declared by World Sports Betting on this event subject to Open bet limits.

At NO point will dividends exceed the Net Pool.

Where a portion of the pool is a carryover and is declared by the Totalisator on an Open/Exotic bet, World Sports Betting shall pay the winning dividend as declared by Saftote.

However, the liability shall be limited to the value of the Pool paid out and NOT the value of the total pool.

By way of example, if a Trifecta net pool is R10 000 on an event and a dividend of R900 is declared to 7 winning tickets of 63% of the net pool on Saftote (total payout R6300) and a carryover of R3700 is

declared, then World Sports Betting's maximum liability to any customer (or syndicate of customers or any group of people as may be determined by World Sports Betting in its sole discretion) shall be limited to the value of the pay-out, being R900 for the R1 unit.

The carryover figure will not be taken into account in declaring the dividend as the calculation of the dividend has already taken the carryover figure into account.

For international venues, in the event of a carryover on any bet type without an official dividend, all bets will be refunded. Payouts will only be issued for exotic bets where official dividends have been declared.

Although World Sports Betting limits online transactions, bigger limits can be obtained by phone betting transactions i.e. placing your bet by phoning our call centre. If you feel these limits are inadequate, kindly place your bet telephonically or part thereof, or contact Customer Care to discuss a larger limit on 0860 10 33 93 (+27860 10 33 93 or email us at accounts@wsb.co.za).

Mixed Martial Arts (MMA)

The result as declared at the end of a fight by the official announcer will be used for settlement purposes. Any subsequent alterations to that result will not be taken into account. If the official announcer does not declare a result at the end of a fight, the market will be settled on the result displayed on the applicable organisation’s official site. If a fight results in a draw, the Fight Result will be deemed void

and all stakes returned. If a bout does not take place within 48 hours of the given date and time, it will be deemed void and all stakes will be returned. Fights deemed to be “No Contest” following an early stoppage will have all markets settled as void.

Future Fights

The one exception to the 48 hour rule above, is fights set up under the Future Fights sub-type. These fights have been set up before the exact date is known and will be reclassified under the correct event and date, once an official announcement has been made. These fights will only be voided if either fighter is scheduled to fight another opponent instead. Once a fight has been reclassified, it is then subject to the 48 hour rule as normal.

Change to scheduled number of rounds

All outright bets on the match will stand. However round by round bets will be void.

Round Betting

Betting on the round in which the fight result will be determined.

If a fight is stopped before the full number of rounds have been completed, or if a fighter is disqualified and a points decision is awarded, bets will be settled on the round in which the fight was stopped.

Total Rounds

If a fight is stopped before the full number of rounds have been completed, or if a fighter is disqualified and a points decision is awarded, bets will be settled on the round in which the fight was stopped.

For settlement purposes where a half round is stated then 2 minute 30 seconds of the respective round will define the ‘half’ to determine under or over. Should the round end exactly on this time then affected bets will be made void.

Failure to come out for a round

If a fighter fails to come out for the next round, bets will be settled on his opponent having won the bout in the previous round.

Stoppages

If the fight is stopped due to an injury or disqualification, either by the referee or the doctor, then this will be considered a technical KO (TKO).

If the fight is stopped early due to damage sustained from an illegal attack, or an accidental clash of heads etc, then a technical decision may be awarded. In this instance, the time of the stoppage would be used to settle all round markets, but the result of the decision would be used to settle the ‘Decision Victories’ market.

If the judges aren’t able to award a technical decision then the fight may be declared a ‘No Contest’, and all bets will be void. ‘No Contests’ awarded after the fight due to a failed drug test will not be resettled, and will stand as originally declared after the fight.

A technical submission may occur when the referee stops the fight because a fighter has sustained an injury, or become unconscious, while in a submission hold. For betting purposes all, technical submissions will be settled as submissions.

Will There Be A Safety Car Period During The Race?

A Safety Car Period is defined as the need for the Safety Car to run in front of the leading car during a specified race. Should the race start under the Safety Car, then all bets concerning the Safety Car market will be settled as Yes. If the race finishes under safety car conditions but the safety car has not had time to get to the front of the leading car this market will be settled as Yes.

VIRTUAL SAFETY CAR;

To maintain competitors' safety over a race weekend, particularly in the event of an accident or extremely poor conditions, the FIA has two main methods of neutralising a practice session or race: the safety car or the virtual safety car (VSC).

The VSC procedure may be initiated to neutralise a practice session or a race upon the order of the clerk of the Course. It will normally be used when double waved yellow flags are needed…Article 40.1 of the 2016 FIA Sporting Regulations

The latter will primarily be used when double waved yellow flags are needed on any section of the track, but the circumstances are not such to warrant the safety car itself.

If the VSC is called, teams will be notified via the official messaging system, while drivers will be notified by all FIA light panels displaying "VSC".

Under the VSC, drivers must reduce their speed and stay above a minimum time set by the FIA at least once in each marshalling sector. Stewards can impose penalties for any transgressions.

Drivers must not drive unnecessarily slowly, erratically or in a manner that could be deemed potentially dangerous to other competitors. Drivers may not pit, unless it is to change tyres. They are also not permitted to overtake, except if another driver in front enters the pit lane or slows with an obvious problem.

When it is deemed safe to end the VSC procedure, teams will be notified via the official messaging system. At any time between 10 and 15 seconds later, the FIA light panels will change to green and drivers are free to resume racing. DRS is also re-enabled at this time.

SAFETY CAR;

In the event of a more serious incident, particularly if competitors or officials are in immediate physical danger, which is not severe enough to warrant suspending the race but cannot be dealt with under the VSC, then the safety car will be called.

The safety car is driven by an experienced circuit driver and carries an FIA observer who is in permanent radio contact with race control.

The safety car will join the circuit with its orange lights on, and all drivers must form a queue behind it. Overtaking is not permitted, although the safety car will signal backmarkers to pass it using its green light until the race leader is immediately behind it.

Under certain circumstances - for example if the incident that brought the safety car is blocking the pit lane - the safety car may travel through the pit lane. In this case competitors will be allowed to stop at their pit garage.

When the safety car is ready to leave the circuit it will extinguish its orange lights, indicating to the drivers that it will peel off. Drivers must continue in formation until they cross the first safety car line, where green lights will indicate they are free to race again. However, DRS will not be re-enabled until two racing laps have been completed.

PLEASE NOTE: For betting purposes we do not take Virtual Safety Car (VSC) into consideration, ONLY Safety Car

If no retirement takes place for a specified Grand Prix, bets will be settled as a 'push'.

World Sports Betting base their Rugby 5 dividends and payouts on the official dividend declared by Saftote and do not consider dividends declared by any other division or Totalisator in the Republic of South Africa. World Sports Betting however reserve the right to utilise other dividends where we deem that the Totalisator pools are of significant size to produce stable and market related returns or odds.

In addition to the above limits World Sports Betting reserves the right to limit a dividend / return on a payout to the extent that the total payout does not exceed the “Nett Tote Pool” or in other words the Gross Tote pool less the Totalisator deductions.

How To Play Rugby 5

Rugby 5 is a great bet that takes the excitement of one of the world’s best-loved sports to another level.

Each Rugby 5 pool or bet comprises 5 matches, which are labelled M1 to M5. In other words M1 = Match 1; M2 = Match 2 and so on.

In each match, one team, the home team, is shown as Team A and the other as Team B.

You must predict the results of all 5 matches to win. There are 5 results to choose from in each match:

1 = Team A to win by 5 to 12 points

2 = Team A to win by 13 points or more

3 = Draw or Team A or Team B to win by 4 points or less

4 = Team B to win by 5 to 12 points

5 = Team B to win by 13 points or more

Please note that when betting you always use the numbers one to five to indicate your choice or choices in each match.

You can play a single or multiple entry. With a single entry you select one result for each match and the bet costs R1.00.

You can choose more than one result in one or more matches. That's a multiple or permutation entry and the cost is R1.00. rand per combination.

Remember, because our bet is a R1.00 bet and not a R5.00, so too is the dividend divided by 5 upon payout.

It's easy to calculate the cost of a permutation entry. Say two results are selected in M1, one in M2, three in M3, two in M4 and one in M5. To get the cost, take the total number of choices made in each match and multiply them out.

That's 2 x 1 x 3 x 2 x 1 = 12 combinations @ R1.00 = R12.00

The official Rugby 5 payout is declared as soon as the official results of the matches are received from the governing rugby bodies.

In Rugby 5, the result of a match shall be the score at the end of the normal 80-minute playing period.

Any match in a Rugby 5 pool not completed by 9am on the day after the last day on which matches in the pool were scheduled, shall be deemed abandoned and all choices shall qualify. The times at which matches are completed will be as supplied by the operator's official source, notwithstanding the operator's decision in terms of when a match has not been completed shall be final and binding. Further, the operator reserves the right to extend the time for a match to be completed if circumstances warrant and provided this does not unduly hamper the declaration of results and dividends.

The payout for each Rugby 5 pool is calculated by dividing the number of winning entries into the pool total.

Official Rugby 5 payouts are declared as soon as official results of all the matches are received (normally the day after the last matches in the pool).

Results and payouts are published on this website and displayed as soon as they become available.

All match markets are based on the result at the end of a scheduled 90 minutes play unless otherwise stated. This includes any added injury or stoppage time but does not include extra time, time allocated for a penalty shoot-out. In the event of extra time, a new market may be created.

The only exception to this rule is in relation to Friendly matches and some Leagues, where all match markets will be settled based on the actual result when the game finishes (excluding any extra time), irrespective of whether the full 90 minutes is played.

Full Time Result

Full Time Result is based on the result of a scheduled match and will include any added injury or stoppage time but does not include extra time, time allocated for a penalty shoot-out. In the event of extra time, a new market may be created.

The only exception to this rule is in relation to Friendly matches and some Leagues, where all match markets will be settled based on the actual result when the game finishes (excluding any extra time), irrespective of whether the full match is played.

Match Result XUp

Applicable to pre-match and Live in Play bets on the dedicated match result 1x2 XUp market for football games from selected competitions. Whether your selection goes 1,2, or 3 goals up, we will settle your bet as a Winner instantly, regardless of the final result.

• 1Up = Selected team is 1 Goal ahead, settlement as soon as team scores 1 goal

• 2Up = Selected team is 2 Goals ahead, settlement as soon as team scores 2 goals

• 3Up = Selected team is 3 Goals ahead, settlement as soon as team scores 3 goals

For single bets, 1x2 Xup: If your selected team is leading by X goals at any point during regular time (90 minutes) we will pay you out as a winner on the dedicated match result 1x2 XUp market (Disallowed goals do not count).

For multiples bets, the selection(s) will be marked as won within My Bets and the bet left to run on the remaining selection(s).

This promotion will not apply where a bet has been fully cashed out.

This promotion does not apply to bets placed on the draw selection in each game.

If your bet is paid out early in accordance with this promotion, it will not be paid out again if your selection goes on to win the match.

This match result 1x2 XUp market applies to standard game time only - any goals scored in extra time do not count towards the offer and bets will be settled at the end of the standard game time of 90 minutes.

If a match is abandoned for any reason whatsoever and a team is “X” or more goals ahead then bets on that selection will be paid as winners. Bets on the other selections will be void.

If for whatever reason we are having connection issues with the live scores this may result in not having the XUp promotion feature.

The duration of this promotion is limited and can be discontinued at any given time at the sole discretion of the promotor.

The market is named Match Result XUp and will be offered on all matches across selected tournaments.

Soccer eLeagues

All eLeagues are governed by the standard Soccer rules. Match times vary per specific tournament and all markets fall under the same ruling of “Full Time Result” above.

Matches Postponed, Brought Forward or Abandoned

An un-played or postponed match shall become void, unless it is played within 48 hours from the advertised date and time.

Should any match be played prior to the date or kick-off time denoted then any such match may be included provided the wager is placed not later than the revised kick-off time.

Any match abandoned before the completion of 90 minutes play will be void (unless the match is rearranged and played or an official result declared within 48 hours) except for those bets the outcome of which has already been determined at the time of abandonment. For example, first player to score or time of the first goal bets will stand provided a goal has been scored at the time of abandonment. Bets with outcomes already determined at the time of abandonment (e.g. first player to score, time of first goal) are settled. An exception applies to South American club competitions, where Full Time Result and Double Chance markets may be settled on the score at abandonment if the relevant league allows the result to stand. OpenBet follows a more standardized framework with clearer and more broadly applicable settlement logic.

Where an interrupted match is replayed in full within the defined 48 hour timeframe, We will void all undecided bets while allowing settled bets to stand.

The only exception to the above abandoned match rule, is for all South American club matches where Full Time Result and Double Chance markets (both pre-game and in-play) will be settled on the score at the time of the abandonment providing the relevant league allows the result to stand.

Matches not Played as Listed

If a match venue is changed then bets already placed will stand providing the home team is still designated as such. If the home and away team for a listed match are reversed then bets placed based on the original listing will be void.

Some Soccer matches may have different play format. In that case the following will apply:

90 minutes scheduled play (3 x 30 minutes). Full-time bets are still considered valid. Half-time bets are considered void.

80 minutes scheduled play (2 x 40 minutes). All bets are considered valid.

If the playing schedule is different from the above stated, all bets are void.

Settlement and cancellation rules:

we reserve the right to void betting:

If the market remains open when the following events have already taken place: goals, red or yellow-red cards and penalties.

If the market odd was opened with a missing or incorrect red card

If odds were offered with an incorrect match time

If a wrong score is entered, all markets will be cancelled from the time when the incorrect score was displayed affecting the odds.

If a match is interrupted or postponed and is not continued within 48h after initial kick-off date betting.

If the team names or category are displayed incorrectly

In case of any score or card/corner/penalty related changes on any video assistant referee (VAR) situation.

Use of VAR

On any video assistant referee (VAR) situation, Offsides and penalty markets will be settled based on the time where the referee gives the decision. The event which led to the referral (VAR) will be deemed to have occurred at the actual time of its occurrence; For example, if a bet has been placed for a goal to be scored within the first 10 minutes of a game. A goal is scored at 9:40 and the assistant referee makes an offside call. VAR is used and the goal is deemed normal. The goal time will count at 9:40 and the bet will be a winner.

Bets being placed between the occurrence of an incident which leads to a VAR review and the related VAR decision will be settled as void unless:

the review of VAR review and subsequent decision taken did not alter the decision made by the on-field referees.

the review of VAR review and subsequent decision taken altered the decision made by the referees but did not have any influence on the bet(s) in question.

If a bet is settled and, due to a subsequent VAR decision, it is proved that such settlement was not correct, we reserve the right to reverse such settlement.

How will the match be decided

If a match is being played as a qualifier, and the match has two deciding matches, then the regular time result combines both legs of reguluar time to get an aggregate score.

Settlement of Wagers

Where applicable, statistics provided by the Press Association (PA) will be used to settle wagers, unless there is indisputable evidence that the PA statistics are incorrect. Where PA stats are not provided, we will use independent evidence to support bet settlement. If there is conflicting independent evidence, we will settle on the majority independent view. When this is not clear, where applicable the official league website will take priority.

In the absence of any independent evidence bets will be settled based on our own statistics.

Player to score at any time (Anytime Goalscorer)

All players who take part in a match will be considered “runners” (players who enter the field during 90 minutes). If player does not enter the field during 90 minutes, all bets will be refunded.

Please note that own goals do not count in the settlement of bets.

Soccer 6

By electing to place a Soccer 6 Tote Bet with World Sports Betting you acknowledge that World Sports Betting is not a Tote nor do we purport to be a Tote.

You also agree to be bound by our terms and conditions, which may from time to time change, and you accept that it is your responsibility to keep yourself acquainted with our limits, “terms and conditions” as well as our “rules”.

World Sports Betting base their Soccer 6 dividends and payouts on the official dividend declared by Saftote and do not consider dividends declared by any other division or Totalisator in the Republic of South Africa. World Sports Betting however reserve the right to utilise other dividends where we deem that the Totalisator pools are of significant size to produce stable and market related returns or odds.

In addition to the above limits World Sports Betting reserves the right to limit a dividend / return on a payout to the extent that the total payout does not exceed the “Nett Tote Pool” or in other words the Gross Tote pool less the Totalisator deductions.

How To Play Soccer 6

To win, you must predict the results of the six matches in a Soccer 6 pool. In each match, one team is designated Team A and the other Team B.

There are three results to choose from in each match:

- Team A to win
- Draw

- Team B to win

1 = Win by Team A; 2 = Draw; 3 = Win by Team B. So when you bet, use Nos 1, 2 and 3 to denote your choices. The same numbers are used to display results. M1 is used to denote Match 1, M2 for Match 2 and so on.

With Soccer 6, you can play a single or multiple entry i.e. more than one choice. With a single entry, you select ONE option or choice for each match and the bet costs only R1.00

With a multiple entry, you can choose more than one option in one or more matches. The cost is R1.00 per combination.

Remember, because our bet is a R1.00 bet and not a R6.00, so too is the dividend divided by 6 upon payout.

To calculate the number of combinations, multiply out the total number of options or choices for each match.

EXAMPLES

ONE: You choose all three options in M1 (Match 1), two options in M2 and one in each of M3, M4, M5 and M6. That's 3x2x1x1x1x1= 6 = R6.00

TWO: You choose two options in each of the 6 matches. That's 2x2x2x2x2x2 = 64 x 1 = R64

Remember, the result of a match is the score at the end of the normal 90-minute playing period plus any injury time that may be played. Extra time and penalty shootouts are of no account.

Soccer Bundles

Should one or more legs listed in a WSB Bet Bundle be scratched, cancelled, voided, interrupted or postponed and not continued or replayed within 48 hours from the advertised date and time, all bets for that particular bundle selection will be voided regardless of the outcome of the remaining legs.

Should any of the selections listed in the bet bundle lose or draw/tie, the bet bundle will be considered a losing bet, unless the option for that particular selection or entire bundle was listed as that outcome.

Where FIS points are not applicable participants with the same time/distance will be settled as a push.
